

**"Pass the salt and butter  
Here's corn to feast on!"**

*If you've ever enjoyed roasting ears "farm-style," you know that corn fresh from the stalk is the best in the world! The reason it's so good, farmers will tell you, is that you get to eat it before the heat of the day turns the corn sugars into starch...and before the flavor fades. We know this too...and that's why, with the help of our Produce Buyers and shippers, we've worked out a way of retaining flavor and tenderness...so the corn we sell is almost like the corn farm folks themselves enjoy!*  
**Our buyers insist that our corn be picked in the cool morning hours, while the dew is still on the tassel. After a thorough chilling, it's packed in chipped ice and whizzed on to us. You'll find it in our produce section...sweet, tender, juicy. For the finest in all produce, every time...all you need to remember is SAFEWAY.**
