HALSEY, Ore. (AP)—A boy 2½ escaped with minor scratches Wednesday when he fell from a car traveling 60 miles an hour on U.S. Highway 99 some two miles south of here.

State police said the boy, Reid Allen Smith, opened the right front door and fell to the pavement.

His mother, Mrs. Doris Smith, Pendleton, picked him up and drove to Albany General Hospital.

The hospital kept him for observation, but could find no injuries beyond minor head scratches.

Police quoted the doctors as "amazed."

Portland's Vice Looked At By FBI

PORTLAND (AP)—The Federal Bureau of Investigation is checking into the call girl situation here, The Oregonian reported Wednesday.

Police already arrested several persons as a result of their investigations. They also studied several notebooks in which, they said, call girls listed the names of their clients and the sums paid.

The newspaper said the FBI entered the case to see whether there have been violations of the federal law against taking a woman across a state line for immoral purposes.

Meanwhile the Multnomah County grand jury subpenaed the notebooks and financial records seized by police in the prostitution arrests.

It obtained them from the city police vice squad and the district attorney's office. The jury began studying the notebooks, causing speculation that it might call as witnesses some of the men whose names are listed. Police have said some of them are prominent.

Gold Flown To Show

Business Advice Said Needed By Foreigners

That's what Harold K. Cherry, manager of the U.S. Commerce Department field services, said at a luncheon here Wednesday.

In 1957 Cherry was deputy chief of the U.S. trade mission to India. He served under Egil Krogh, general merchandise manager of Meier & Frank Co., who has been named head of a special committee of Portland business men to advise visiting exhibitors.

But the engineers here said Tuesday they have received the revised plans and that letters about the effect on navigation will be received to June 3.

The new plans call for horizontal clearance of 300 feet and a vertical clearance of 88 feet above normal river level.

Rosewood Zone Revisions OK'd

Roseburg's Planning Commission this week went along with a Douglas County Housing Authority request to revise zoning regulations in the Rosewood Homes on W. Stanton St.

The agency is seeking a minor change in the zoning law, now residential, to permit construction of a building for housing shop and maintenance equipment at the location.

A letter to planners said the proposed building would be used to protect only "non - inflammable" materials.

Commissioners recommended that City Council take necessary steps to allow the minor change in zoning regulations.

Request Considered

Taken under consideration was an Umpqua Radio Club request for a permanent lease to the former Ground Observer Corps building at NE Klamath Ave., and Denver St. The city must either allow a lease to city property nearby or vacate the end of Klamath Ave., if the request is granted. Commission Chairman Lyle Glenn turned the matter over to a special committee for study.

Mark's Shopping Center has asked for rezoning from residential to commercial three lots facing W. Jay Ave. behind the new west side shopping area. The company wants to set up a parking and delivery area to the rear of the property. The commission set a June 16 date for a public hearing on the request.

Turned over to county planners, because the property is outside Roseburg, was a request by developer Walter Ulrich for dedication of the south extension of NW Kline St., near Hucrest, now included in plans for annexation to the city.

Finally, the commission okayed a plat for Quintus Park, an area surrounded by Cloakes Ferry subdivision between W. Sharp and Filbert Avenues.

Ball Park Help Needed Saturday

Robert Caley, business managers of Carpenters and Joiners Local 1961, today urged Roseburg area residents to lend a hand in a Saturday renovation project at Stewart Field.

The union local has volunteered its aid in installation of some 600 backed seats in the center stands at the ball park, said Caley. But help will be needed to supplement the expected 10 to 20-man union volunteer force in order to complete the project, he added.

The seats, obtained from Portland's old Vaughn Street Beaver Stadium, will improve facilities in preparing the park for the 1959 Junior Legion season and the state Legion playoffs slated for August, noted the union official.

It was the second consecutive time the Air Force retrieved a nose cone.

The Air Force announced some eight hours after a powerful two-stage Thor-Able rocket blasted aloft that re-entry and impact of the cone was spotted by a plane cruising near the impact area northwest of Ascension Island.

The cone, which carries some of the secrets for protecting the warheads of ICBMs of tomorrow, was hoisted aboard a vessel, part of the search fleet that rendezvoused near the impact area. The launching rocket, a Thor missile topped by a Vanguard second stage, roared up at 1:40 a.m. and was in sight for more than two minutes.

Carpenters Fail To Enlist Unions

CAPE CANAVERAL, Fla. (AP) —An attempt by striking carpenters to halt all union activity at the missile test center apparently failed today.

A few hours later, business agents of other unions represented at the Cape failed to show up at a meeting called by the carpenters.

The carpenters summoned the business agents to ask them to keep their union members off the job at the missile launching area and nearby Patrick Air Force Base.

New Bank's Open House Scheduled On Saturday

The new First National Bank of Roseburg will hold open house all day Saturday in advance of its scheduled opening for business next Monday in quarters at SE Rose St. and Cass Ave., in the Pacific Building.

Executive Vice President George Gratke said that application to the comptroller of currency for a charter to do banking business has been approved, and the bank has been directed to proceed on that basis of authority.

Gratke said he has been informed that this is the only national bank to receive a charter in Oregon since Sept. 8, 1932.

The open house Saturday will be for the purpose of introducing the people of Roseburg to the bank personnel and officers and directors in the corporation. Free gifts, including orchids to the first 300 women, and refreshments will be given persons visiting the bank.

Signature cards for new customers will also be available.

Prize To Be Given

A special prize of a $100 savings bond will be given as a prize in a contest to be staged.

Episcopal Church ladies will be handling refreshments. Boy Scouts will assist in arrangements.

Officers of the corporation are Elton Jackson, president; Fred Lockwood, Earl Mollard, Dr. Hall Seeley, and Gratke, vice presidents, and Albert Joelson, Paul Geddes, Preston Lee, Bill Markham, Sid Leiken and Marlin Holm, directors, and Shirley McLaughlin, cashier.

Quarters in the Pacific building have been renovated and necessary furnishings installed. Three teller windows have been provided, but one is removable to provide additional counter space as needed. Conference rooms have been provided in the balcony.

New Building Planned

The bank will operate in these quarters until a new building is erected at SE Oak and Kane Ave., site of the old St. Joseph's Catholic Church.

On display will be a new machine, equipped with an electronic reading and recording mechanism that automatically stores checking account balance on conventional type monthly statements.

Banking hours will be the usual 10 a.m. to 3 p.m. but provision will be made to accomodate customers wishing to make deposits or withdrawals between 8:30 and 10 a.m. and 3 and 5 p.m., according to Gratke. This will be done by roping off a section in front of the bank lobby to take the place of conventional walkup windows.
