

# Ford Drops Edsel Line

DETROIT (AP)—The Edsel has become the first casualty of the new automotive battle of the compact cars, Ford announced it will abandon the medium-price car immediately.

Introduced only two years ago, the Edsel never captured a market. Slightly more than 100,000 were sold. Less than 100 have been built in the last two weeks as Ford diverted scarce steel to its other lines.

In an official statement, Ford said sales of the 1960 Edsel model, which looks strikingly like the 1959 Pontiac, "have been particularly disappointing" while response to all other company lines has been good.

Total 1960 model production of the Edsel has been approximately 2,800 cars. In all of 1959, only about 30,000 of the cars have been built.

The Edsel has been assembled at Ford's Louisville, Ky. plant. This plant will continue to build Ford trucks. The Mercury-Edsel-Lincoln division will become the Lincoln-Mercury division of the company.

# Community News Briefs
