

U.S. TROOPS MUST LEAVE CONGO

District Four Will Choose Seven Directors Wednesday

By BILL SPARKS
News-Review Staff Writer

Voters of Roseburg's School District 4 will elect seven members to its reorganized school board Wednesday. There are four current members of the board and eight first-time candidates seeking election to the board.

The vote comes about as the state law made District 4 into an administrative district under the school district reorganization act.

There is no addition of land to the district and the only major change as far as the new law will be concerned in Roseburg is the addition of three members to the previous five-man board.

The four current members of the board seeking re-election are now serving terms which would not have expired yet had it not been

for the reorganization. Two of them were elected last May 1.

Four Incumbents

The four incumbents seeking re-election are Arthur Lamka, Dr. Nels Lindell, Don Reed and Dr. V. J. Anderson.

Other candidates are Joe Dent, Ivan P. Edwards, Bob Kischel, Arthur Wilson, Bert Young, Theodore Barnes, Mrs. Fernie Cox and Mrs. Ellen Campbell.

Darley Ware, chairman of the board at present, did not seek re-election.

Statements of their plans if elected were made by all of the board members and appear, with their pictures, on page 3 of today's News-Review. In addition, brief thumbnail sketches of the four most recently announced candidates appear with their statements.

All of the school board members will be elected at large rather than on a ward basis. The seven receiving the most votes will be elected, with the top vote getter to be named as chairman of the board.

The polls will be open from 2 to 8 p.m. The polling places are as follows:

Precinct 1 — Courthouse, for Deer Creek, Eastwood, Lane, Roseburg and Hamilton election precincts.

Precinct 2 — Roseburg High School for Laurelwood, Park, West Roseburg and Wharton precincts.

Precinct 3 — Riverside School for Edenbower E. 1, Edenbower E. 2, Edenbower E. 3, Edenbower W. 1, Edenbower W. 2, Huerst and Newton Creek precincts.

Precinct 4 — Rose School for Caro, Hawthorne, Herman, Miller, Woodward and that part of Parrott lying north of the junction of Old Highway 99 and present Highway 99.

Precinct 5 — Melrose School for voters in the former Melrose School District.

Precinct 6 — Green School for Green, South Green, West Green, and that part of Parrott lying south of the junction of Old Highway 99 and present Highway 99 and all those living in the former Roberts Creek School District.

Precinct 7 — Winchester School for Wilbur and Winchester election districts.

Precinct 8 — Riverside School for Garden Valley and Edenbower W. 3 precincts.

Precinct 9 — Benson School for Umpqua, Benson, West Mill and East Mill.

Precinct 10 — Fullerton School for North Brown, Grove, Orchard, Brown and Fairhaven precincts.

Moscow Demands Dismissal Of Dag; Statement May Hint Possible Red Intervention

LONDON (AP) — The Soviet government today officially withdrew its recognition of Dag Hammarskjold as U.N. general secretary and demanded that all foreign troops get out of the Congo within one month.

The Russians demanded the United Nations censure Belgium in the slaying of Patrice Lumumba, the deposed Congo Premier.

A note distributed by Tass also demanded the arrest and trial of President Moise Tshombe of Katanga Province for Lumumba's death.

In an apparent hint of possible Soviet intervention in the Congo, today's statement recalled that remaining officers of the Lumumba government had asked for aid to save the republic.

"The Soviet government considers the rendering of such aid as the sacred duty of all freedom-loving peoples," it said.

The Soviet government declared that on its part it is ready, together with other states friendly to the Republic of Congo, to render all possible aid and support to the Congolese people and its lawful government.

The statement came at the end of a riotous day in Moscow in which foreign students smashed every window in the Belgian Embassy, broke the doors and tore Belgian Ambassador Hippolyte Collis' car to pieces.

Other demonstrations were reported against Belgium on both sides of the Iron Curtain.

"Dag Hammarskjold must be dismissed from the post of secretary-general as an accessory to and organizer of the murder of the leading statesmen of the Republic of the Congo, which has tarnished the name of the United Nations," the Soviet government's statement said.

Tass reported that the Soviet government declared that for its part it will maintain no relations with Hammarskjold and will not recognize him as an official of the United Nations.

The statement said all Belgian troops and other personnel in the Congo must be disbanded forthwith and removed from the Congo. It asserted all military units and gendarmerie taking orders from Tshombe and Congolese Maj. Gen. Joseph Mobutu, "must be immediately disarmed."

U.N. troops, the Soviet government said, should immediately arrest Tshombe and Mobutu and bring them to trial as Lumumba's slayers.

Tass said all foreign troops should be withdrawn "so as to give the Congolese people the possibility to solve all their home affairs themselves."

The situation which Hammarskjold now faces is similar to that faced by his predecessor, Trygve Lie, after the Soviet Union refused to deal with him because of his condemnation of the communist invasion of South Korea.

Lie, however, continued to serve from the time of the Soviet non-recognition in 1950 until November 1952. During that period the Soviet Union addressed all communications to the U.N. secretary-general rather than to the secretary-general.

Hammarskjold's second five-year term expires in April 1963. He has declared he has no intention to resign.

Metzger Named Parks Chairman

Douglas County Commissioner Elmer R. Metzger has been appointed chairman of the Parks and Recreation Committee of the Association of Oregon Counties, the county court announced today.

Metzger received notification of his appointment through the mails late last week.

As chairman, Metzger will work with all counties in the state, as well as with Gov. Mark Hatfield in park and recreational facilities development.

At the same time, the court announced that Judge V. T. Jackson was appointed to serve on the association's public lands committee, and newly-elected Commissioner Ray E. Doerner has been appointed to work on the association's urban affairs committee.

The Association of Oregon Counties is made up of judges and commissioners of all Oregon counties.

Annexation Election Slated

The second annexation election within a year will be held in Roseburg March 23, as residents of what is being called the Keasey-Calkins area will go to the polls to decide whether or not to join the city.

This election, as was the one last Fall which resulted in the annexation of East Roseburg, is being prompted mainly by the need for sanitary sewers.

Area Given

The area involved lies generally from NW Garden Valley Blvd. on the north to the South Umpqua River bounding the south, beginning at Stewart Park on the east and running about 8-10 of a mile west of the Keasey-Calkins Road junction on the west. The western boundary includes the Grove St. area.

The Roseburg City Council Monday night voted to allocate funds to cover the cost of the March 23 election and to allocate funds for an aerial survey of the area for sanitary sewer engineering.

Sanitary Facilities

City Manager John Warburton requested the election funds and said he felt the city had received enough verbal support from residents of the area to warrant holding the election. He pointed out that although no petition was turned in calling for annexation, as from East Roseburg, this is not a necessity for the instigation of the annexation proceedings.

Warburton said the area includes some 300 residents.

Like East Roseburg, the area is served by septic tanks and many of its residents are interested in obtaining sanitary sewer facilities, Warburton pointed out.

Rocket Nears Constellation

MOSCOW (AP) — The Soviet Union's Venus-bound space station zoomed ahead at 2.5 miles per second today and Soviet scientists reported its equipment was relaying back information as planned.

The Soviet news agency said two playback sessions of data from the station had been triggered by radio command from earth and that a big volume of data about space conditions was received.

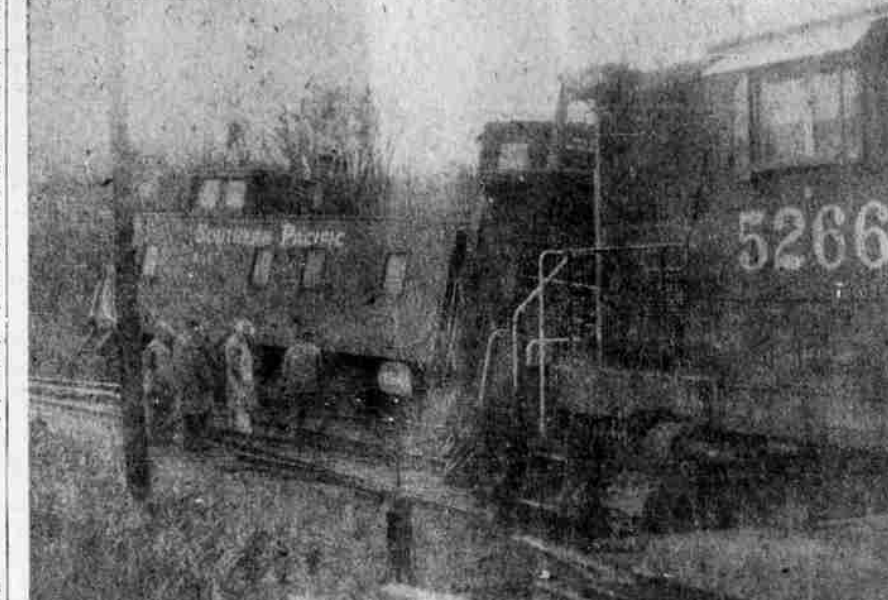

The 1418-pound "automatic interplanetary station" was rocketed from an orbiting Sputnik Sunday, the Soviets said. It is designed to penetrate the clouds perpetually blanketing Venus and reveal some of her secrets. Soviet scientists refused comment, however, on speculation that the space ship carried cameras aboard.

Tass said the station was 308,600 miles from earth at noon Monday soaring between the constellations of Cetus (the Whale) and Pisces (the Fish) in the center of the triangle formed by the constellations of Beta Arias, Alpha Pegasus and Beta Cetus.

"After a few days," Tass said, "the automatic interplanetary station will be out of the so-called sphere of terrestrial gravitation."

All equipment aboard was functioning as intended, Tass said. During the first playback, the temperature aboard was 68 degrees Fahrenheit. The account said a temperature control system was designed to assure proper conditions for operation of equipment on the station.

Boxcars Turn Over

DERAILED AT PFEIFFER'S one-half mile south of Yoncalla on Monday were these boxcars. They were fortunately no injuries as a result of the mishap.

Gloomy Jobless Picture Painted

WASHINGTON (AP) — The need to do something about mounting unemployment is more urgent than at any time since the great depression of the 1930s, House Speaker Sam Rayburn, D-Tex., said after a conference with President Kennedy today.

Rayburn added that Secretary of Labor Arthur J. Goldberg reported at the conference that the unemployment situation at his time was worse than he had expected.

Goldberg reported to Kennedy, other members of the Cabinet and Democratic congressional leaders at an hour-long White House session which concentrated on the unemployment problem, as more urgent than had been anticipated.

Rayburn replied he didn't want to speak for the administration, but that in his opinion the problem reflects "the most urgency since the great depression" of 30 years ago.

Newsmen asked Rayburn whether he got the impression today that the administration regards the unemployment problem as more urgent than had been anticipated.

Rayburn said he didn't want to speak for the administration, but that in his opinion the problem reflects "the most urgency since the great depression" of 30 years ago.

State Arson Squad Seeks Fire Clues

The state arson squad, in cooperation with local authorities, is still investigating the setting of four fires in Roseburg homes recently. So far they have nothing to report.

Roseburg City Police Detective E. R. Woodworth said a 15-year-old boy was apprehended last week in the city by a sheriff's deputy in connection with a threatening phone call to a telephone company employee. He was apprehended near the telephone building immediately after the call.

Admits Calls

The youth was turned over to city police and then placed in the custody of the juvenile department. He admitted making the call, and on further questioning also admitted making some anonymous telephone calls last summer. He had been questioned about these calls at the time, but denied making them.

However, said Woodworth, he has denied making calls about the time of the fire settings. He also has denied any knowledge of the fires.

The officer said so far there is nothing to connect him with these occasions.

Juvenile Officer Julian Helleck said the youth was released to his parents after questioning, and that further investigation is being made through his office.

Red Cross Official Sees Flood Damage

A Red Cross representative from Portland was in Drain Monday to determine extent of damages and any further help needed, but in the meantime the Douglas County chapter of the Red Cross had gone into action.

After an appeal to people of the county, mattresses and bedding were taken to Drain and Yoncalla for people who had been forced out of their homes by the high waters over the weekend. They were distributed through Mrs. Iva Cowen in Yoncalla and Mrs. Charles Johnson in Drain.

The two reported that electric heaters are still needed to help those struck by the floods dry out their homes. Donations of such heaters may be made by leaving them at the Roseburg police station or by calling the county Red Cross office in Roseburg between 10 a.m. and 2 p.m. daily. The telephone number is OR 3-3255.

Havana Tight-Lipped On Reported Invasion

HAVANA (AP) — The government kept tight-lipped today on reports that a large anti-Castro force landed on Cuba's northeast coast and opened a second front in Oriente Province.

Authorities also refused to comment on rumors sweeping Havana that a battalion of Fidel Castro's militiamen defected during fighting in the Escambray Mountains and went over to the rebel side.

Attempts to shed some light on the military situation were smothered by an official news blackout. The Armed Forces Ministry met all queries with the terse reply, "We do not have any information."

Travelers from Oriente Province and Havana sources close to the anti-Castro underground insisted that up to 1,000 men landed recently at Baracoa or near Moa Bay on Cuba's northeast coast.

Other informants, quoting relatives of Cuban exiles, claim some of these refugees are operating in Sierra Cristal in the Oriente range about 50 miles north of the provincial capital, Santiago. This is where Fidel's brother, Raul Castro, opened a second front against ex-President Fulgencio Batista.

Sierra Cristal is about 75 miles northwest of Baracoa, which would give the invaders a formidable march to reach a new insurgent front, if one exists.

One of the rebels' main goals has been to open a second front in Oriente to relieve pressure on the insurgents in the Escambrays.

It was reliably reported that more than 50,000 militiamen are tightening their squeeze on the Escambray insurgents. Insurrectionists, with their supply lines cut off, apparently are being forced to come down from their mountain strongholds to seek provisions. There are occasional reports of clashes, with the anti-Castro forces usually reported losing.

Britian Spends More For Arms

LONDON (AP) — The government issued a defense blueprint today providing for increased armaments expenditures and warning of the rising military might of Communist China.

The document laid before Parliament calls for military spending of 1,655,600,000 pounds—\$4,635,680,000—in the fiscal year beginning April 1.

This is more than one-quarter of total government spending and is 39 million pounds—\$109,200,000—higher than current defense spending.

The white paper hinted that Prime Minister Harold Macmillan's government is shying away from the more expensive nuclear and rocket arms programs to provide enough money for conventional forces.

Communist China maintains very large armed forces and the West cannot ignore her rising power, the government said.

It predicted that the Soviet Union's submarine fleet will increase and its submarines will carry nuclear missiles.

"Until general disarmament has been achieved peace rests on the maintenance of adequate power by the West to discourage aggression by the Soviet bloc or by China," the white paper added.

Britain plans forces totaling 88,000 for the Royal Navy, 165,000 to 180,000 for the Army and 135,000 for the Royal Air Force.

High School Drive Aids YMCA Fund

They were just 'workin' in the rain, but at the end they didn't need to feel mighty blue.

That would be the sum-up of the Roseburg High School student body weekend drive to aid the YMCA fund.

The classes collectively gathered \$2,008.76, according to Ralph Teters, high school vice principal. This was considered quite successful, he said, considering the adverse weather conditions.

The freshmen were the winning class, with a \$650.80 total collection; the seniors second, \$637.51; the juniors third, with \$472.94; and the sophomores raised \$247.51.

The frosh had a bottle drive, the sophomores a car wash, the seniors a steak dinner, and the juniors varied events.

City Police Report Minor Auto Accident

City police report a minor automobile accident occurred late Monday morning at the intersection of SE Stephens St. and SE Washington Ave.

The two vehicles were driven by Frank Charlie Dodson, 35, 437 Chadwick St., Roseburg, and Bernhard Fred Scheele, Lebanon. The only damage resulting from the collision was a bending of the front fenders of the cars, police said.

Planes Seeking Seven Men Missing Aboard Lost Boat

VANCOUVER, B. C. (AP) — Four planes left at dawn Tuesday to aid in the search for seven men missing aboard a 40-foot camp tender off the southern tip of Texada Island, 40 miles north of here.

The body of an eighth man was recovered Monday by the fishing vessel Royal T.

Two Air Force planes, a private craft and a Mounted Police plane joined almost a score of marine vessels in the search for the tender Green Valley.

A Search and Rescue official said: "We're now sure a bad accident has happened," adding that the general search area now is centered off McEwan Cove.

A chain of unpredictable circumstances led to almost a 10-hour delay in start of the search.

The Green Valley, a black-hulled tender with a green cabin, left a small logging camp about 9:30 a.m. Monday on a 15-mile trip to Pender Harbor. It carried eight men when it left in clear and good weather.

Monday a body was discovered floating off McEwan Cove by the Royal T. First indications were that it had been in the water three or four days, and officials decided against a search at that time.

Last night a cable to the rescue center from Pender Harbor indicated the Green Valley was overdue.

Radio communication with the logging camp was broken by a failure in the camp's power supply and the news of the boat's disappearance was not confirmed until an Air Force tender traveled to the camp to check on the Green Valley's departure.

A general marine bulletin was issued asking all vessels to join in the search. However, gale warnings were up in George Strait and smaller vessels were expected to withdraw from the area.

The tender normally carries loggers to and from camps along the British Columbia coast.

It was not known how many of the missing were loggers or what was the strength of the boat's crew. Names were with held pending notification of next of kin.

Madcap Mirth Reigns Supreme In The City That Care Forgot

The Negro Carnival king — Zulu — kicked off the morning festivities with his parade wend heeler-skeller merrymakers turned New Orleans into the city that care forgot.

Thousands upon thousands cavorted through the streets in the final binge before the penitential Lenten season begins.

Six gigantic parades, with fantastic floats and high-stepping marching units, rolled through the streets while smiling crowds with outstretched arms clamored for throws—gaudy beads and trinkets.

Parents, children in tow, carried stepladders with fruit crates nailed to the top so the small fry could watch the floats above the heads of the grownups.

The balconies of the old buildings in the Vieux Carre — were jammed with spectators.

People tromped on their own feet, those of others and on empty beer cans, pop bottles and paper littering the streets.

Reverend monarch of merriment, tossed specially minted Carnival coins to his subjects along the route of his four-hour parade.

Tonight the Krewe of Comus, the oldest Mardi Gras organization, will wind up the parading. Red and Comus will meet at midnight for a champagne toast at their masked balls.

New Orleans businessman Lawrence Moore Williams was this year's Rex. His lovely queen was Virginia Wayne Borah, daughter of U. S. Appeals Court Judge Wayne G. Borah.

County Officials Attend Portland O&C Meeting

Judge V. T. Jackson and Commissioner Elmer R. Metzger, both of the Douglas County Court, attended a meeting of the O&C counties of the state at Portland last week, Commissioner Metzger said today.

The meeting was called to discuss various legislative proposals now on the floor of the state legislature, or soon to be introduced, affecting all the O&C counties.

Metzger stated Kenneth Nielsen, Lane County commissioner, was elected chairman of the O&C road committee at the meeting.

Levy Fact Rant

By L. F. Reizenstein

His timely order to government-connected officials to cease unduly harsh criticism of foreign nations, particularly the Soviet, reflects President Kennedy's wisdom in following the credo of Teddy Roosevelt; "Speak softly and carry a big stick. Commendable example of being copy-cat instead of a wildcat.

Belgians Approve Bill

BRUSSELS (AP) — Belgium's Senate Monday night gave final passage by a 97-62 vote to the austerity bill that sparked last month's general strike.

The measure, calling for higher taxes and curtailed social services, needs only to be signed.

March 1 Is Deadline For Caving Canines

It's getting so it isn't safe for a dog to wag his tail — or at least he hadn't better wag it while in free flight across someone's lawn in Roseburg after March 1.

That's the deadline for dog licenses and also marks the time for the start of a crackdown on caving canines by the city.

The Roseburg Council Monday night agreed to a "get tough" policy against the dogs in answer to repeated requests for stiffer enforcement of the dog leash law and the municipal ordinance.

The city will hire one man to work with Douglas County Dog Control Officer Robert Hall to pick up all the strays, unlicensed dogs and those running loose even though they are licensed.

Adult Classes Slated In Accounting, Typing

Classes in accounting and typing are the subject of an organizational and enrollment meeting on Thursday at 7:30 p.m., in the Roseburg High School social arts building.

Both courses will meet twice weekly and run for 12 weeks. Anyone interested in enrolling in either typing or accounting should attend the organizational session Thursday.

Other classes scheduled to start shortly will be nurses' aide training, welding, and tailoring.

One class starting this evening (details of which have previously been published in The News-Review) is on automotive brake service. It'll be taught on Tuesdays for ten weeks from 7 to 9:30 p.m., with Marvin Wolf as instructor. The fee is \$10. The meeting place is the high school shop building.

Drain, Jack Creek Bids To Be Opened

The Oregon Highway Commission will open bids March 7 on a project designed to improve Highway 38 from Drain to Jack Creek, a distance of 4.85 miles.

Frank Morgan, district engineer in the Roseburg office, said the job will put a two-inch lift to the present road. It will involve laying a two-inch layer of asphaltic pavement over the present road.

He said this is a method being used now to improve old roads. The job will increase strength and riding qualities.

The work is expected to be completed by mid-July, Morgan said.

This is one of 28 projects in the state to be opened at the Highway Commission meeting. They will cost about \$4,100,000.

Last Quadruplet Dies

TOKYO (AP) — The last of the quadruplet boys born to Mrs. Utako Watanabe, 26, at Achiu-machi, southern Honshu, died Monday night. The other three premature quads, who weighed about 2 1/2 pounds each at birth Sunday, died earlier Monday.
