'Parent Trap' Traps Viewers

By GILBERT RESEARCH
With her latest film, "The Parent Trap," Hayley Mills, the 14-year-old British youngster, won't lose any of the young people she took into thrall as "Pollyanna." We dispatched six teen-age previewers to a screening of the new comedy, and they came away unanimously impressed with the film and with Hayley.

Walt Disney, who spotted Hayley in an English film, "Tiger Bay," and immediately snapped her up for the role of Pollyanna, boasts Hayley's comet further into orbit with this pleasant comedy. We have two Hayleys for the price of one in this one, because she plays twins when we first see her at a summer camp. There she meets a girl who looks just like her and instantly dislikes her. A small incident brings the girls to friendship, and then, after comparing notes, they discover the funny coincidence that they share the same parents. Papa and Mama, it seems, divided up the twins when they were divorced.

The rest of the film is a conspiracy between Mills and Mills to bring the folks back together. Maureen O'Hara and Brian Keith are Mama and Papa, and then there's Joanna Barnes as the extra beautiful woman. She'd like to have Brian for her very own and for much of the picture, Brian is stimulated by the idea. Despite the trappings of a soap opera, this all works out as an attractive comedy with enough misunderstandings to keep the teen previewers alternately groaning and howling.

Douglas Cochran, 18, of Camden, N. J., speaking for our male critics, said, "I usually don't like pictures of this sort because they are about girls and their troubles. But this picture was just fantastic. Hayley Mills was tremendous."

Fyllis Jane Bremer, 16, of Miami Beach, Fla., added, "This is one you shouldn't miss."

Young Savages Pleases Teens

By GILBERT RESEARCH

Burt Lancaster's new film, THE YOUNG SAVAGES, could be titled BLACKBOARD JUNGLE REVISITED. It's by the same author, Evan Hunter, and deals with the same grisly subject matter, life among New York's terrified and terrorizing juvenile delinquents. We sent a panel of non-delinquent teenagers to preview the film, found them in accord on its excitement and importance. The message — that bad environments are fine places for breeding bad kids — is hardly new, but it is handled here with considerable eloquence and ferocity by TV director John Frankenheimer, now making a name for himself in films.

There's a lot of plot here, Burt, assistant to a district attorney with aspirations for the Governor's seat, is dispatched to his old slum neighborhood to crack a case involving the murder of a teen-ager, presumably by three other teen-agers. He finds that the mother of one of the accused boys is an old flame, Shelley Winters, who naturally couldn't have done anything so vile.

There are several tricky plot twists, and the ending is not going to make everyone happy, though justice does triumph. But the message gets across. One of our previewers, Louise Kaufman, 17, commented, "In my opinion, THE YOUNG SAVAGES came closer to the reason for teen-age gang problems than any other movie on this topic — good acting and realistic story told in a likeable, sometimes funny way." The photography was cited as so vivid you can almost smell the slums. Shelley Winters also came in for high praise, possibly because she gets to play the strong, best scenes. For Lancaster, this performance is not up to his "Elmer Gantry," but then the part doesn't demand great acting.
