Taxpayers With Incomes Under \$10,000 May Use Simple Form

Taxpayers having income up to \$10,000 may again use the simple card Form 1040A in filing their 1961 Federal income tax returns. A. G. Erickson, Director of the Internal Revenue Service for the Oregon District, said today.

Husband and wife may file a joint return on Form 1040A if their combined income is under \$10,000.

Taxpayers whose income consists of wages reported on Form W-2, and not more than \$200 total of dividends, interest and wages not subject to withholding, may use the short Form 1040A.

He said if the taxpayer computes his own tax and finds additional tax due, a check or money order, payable to "Internal Revenue Service," must accompany the return.

Taxpayers who have doubts about which form to use may get Document No. 5107, "Filing Your Tax Return," by calling or writing to their local Internal Revenue office.

If you have any other questions about your Federal income tax return, telephone your local Internal Revenue office.

This is the full-size Newport 4-door sedan.

CHRYSLER \$2,964*

A bit skeptical? Thousands of Newport owners once were. They, too, found it difficult to believe. A full-size Chrysler (not a "jr. edition") at only \$2,964!

Yet, these people found Newport well endowed with traditional Chrysler quality engineering... a big, 265 h.p. Firebolt V-8 engine... silent, all-welded Unibody... a

smoother, long-wheelbase ride... battery-saving alternator... (And so the list rolls on... and on... and on... like the Newport that was a class-winner in last year's Mobilgas Economy Run.)

Still skeptical? Fine! Your dealer will be expecting you.
