## Nation's Employers Only Able To Hire Small Per Cent Of Teens

By THE ASSOCIATED PRESS

America's teen-agers apparently do not believe that the best things in life are free.

Not many of them, as they pour out of the nation's high schools and colleges for summer vacations, are dreaming of a shady river bank and a fishing pole.

They are more likely to be dreaming of hustling boxes in a warehouse, sitting behind a desk in an office, running a tractor, or any of a hundred other occupations.

When school's out, they want the money coming in.

A Connecticut employment official disagrees. It's not lack of something to do, he says, but simply money that sends the boys and girls out to hunt jobs.

College expenses are going up every year, he says, and youngsters now feel they must have things once considered luxuries—television sets, radios
