HOW LONG HAS IT BEEN?

...since you turned on "running water" by tipping a pitcher?

... Chances are the pitcher-and-basin era is long gone from your home, but are you still using a refrigerator of the pitcher-and-basin age?

Now then...

Wouldn't you rather have a modern REFRIGERATOR-FREEZER in your kitchen? Isn't a modern refrigeration unit almost as essential as modern plumbing?

The modern refrigerator-freezer is a supermarket in your kitchen... Roomy, efficient, with a multitude of freezing and preserving compartments, it pays off not only in convenience, but in dollars saved as well. Buy "food specials"... meats, fruits, vegetables... in season, when they're cheap... Freeze and preserve them for the "off" season—and make back the cost of your new refrigerator-freezer by doing so! You can't do this with an outdated refrigerator.

So—live modern, live well, with a supermarket in your kitchen. Visit your favorite Cal/Ore Electrical League Dealer today. Talk to him about trade-ins, low down payments, easy terms—on a truly modern, electric
