SITTING ON TOP OF THE WORLD

...with a business
of his own!

We'd like for you to meet the Executive Officer of a thriving business... the boy who delivers your daily newspaper.

As the owner and operator of his newspaper route, this Junior Independent Merchant must solve problems and shoulder responsibilities, just like all other businessmen.

He buys his product, your newspaper, at wholesale and then retails it to his customers. He must make daily deliveries, do his own accounting, billing, and even struggle with a collection problem here and there.

He is discovering, through actual experience, the rewards for promptness, dependability, self-reliance and initiative.

One of the rewards is his profit, the difference between the wholesale and retail prices of the paper. His route means money for a savings account for college, a new bicycle, a week in camp, many things.

But he is earning even greater rewards. As he learns about sales and salesmanship, he is equipping himself for the future. From boys who learned the principles of business as newspaperboys have come presidents, governors, mayors, industrialists and professional men... those who determine the quality of our civilization in their generation.

It's his world to conquer... and he's off to a good start.

If you have a son that you think might be interested in a newspaper route, way not write or phone us.
