

GIVING THE FIRST LADY strong competition as Washington's beauty and fashion queen is Mrs. Edward M. (Ted) Kennedy, who has won rave notices as one of the most beautiful newcomers on the capital scene. Mrs. Ted Kennedy Reported Lovely Newcomer To Washington D.C. Scene

EDITORS NOTE: This is the second of five profile-interviews of "the other Kennedy women"—the President's sisters and sisters-in-law. Today's subject is Joan Kennedy, wife of Sen. Edward M. (Ted) Kennedy, D-Mass.

WASHINGTON (UPI) — First Lady Jacqueline Kennedy is getting strong competition as Washington's queen of beauty and fashion—from a member of her own family.

Mrs. Edward M. (Ted) Kennedy, wife of the new Massachusetts senator and sister-in-law of the President, has won rave notices as one of the most beautiful newcomers on the capital scene.

A natural blonde with green eyes and a glittering smile, Joan Kennedy has a refreshing, unaffected manner that has charmed the oldsters on Capitol Hill and enchanted the sophisticates about town.

She also is learning fast that she is a celebrity, and that what she says is news.

Article Upsets Her

The 26-year-old wife of the youngest senator still is upset over a magazine interview which quoted her as saying: "Jackie talked me into trying a wig. She has three of them and wears them a lot, especially for traveling."

In an interview with United Press International, Mrs. Kennedy denied vehemently making any reference to wigs worn by the President's wife.

"The First Lady doesn't have any wigs," she said. "I was very upset when that magazine quoted me as saying that. I never said she had any wigs. She doesn't have any to my knowledge. I certainly would never tell anyone."

"I was upset. I feel it is a personal thing. I think the author put it in to be sensational."

Others who see the First Lady frequently have been convinced that she has worn wigs on occasion in the current fashion.

Phones First Lady

Joan found the Kennedys very understanding of the pitfalls of interviews. She telephoned Jacqueline Kennedy at the White House and found her "very sweet" about it all.

"I'm sure she (the First Lady) has been through unfortunate incidents like this," she added. "I told her I hadn't said that."

Why clutter up your modern home with furnaces, flues, vents, fuel tanks, pipes?

Safest, cleanest, most worry-free... and every thing considered... the most economical...

If clean-as-light electric energy provides perfect, draft free comfort... why bring fire inside your home and with it fumes, odors, and messy flame by-products?

If you can install an electric heating system for less money... if an electric system requires almost no cleaning, maintenance, and repairs... why add these costs to your annual heating bill?
