U.S. Probes Bombing Raid On Havana

WASHINGTON (UPI) — The Customs Bureau is investigating reports of a one-plane bombing raid on Havana to determine whether the attack violated the Neutrality or Munitions Control acts, a spokesman said today.

A Federal Aviation Agency spokesman said in New York meantime that a twin-engine Beechcraft that may have been used in the raid has been seized pending an investigation.

The customs spokesman said agents were investigating the story of Alexander Rorke, a freelance reporter and photographer, who said he took part in the raid.

The spokesman also said he expected investigators to look into a newspaper story (Boston Traveler) quoting a 21-year-old Massachusetts Institute of Technology student and a pilot who said they also went on the raid.

"I hadn't heard of the story but we have an office in Boston and they read the Traveler," he said.

The Neutrality Act forbids aggressive acts against any nation with whom the United States is at peace. The Munitions Act prohibits export of "munitions of war" without permission of the State Department.

Rorke and the student said the plane carried homemade bombs which they lighted with cigars before dropping them on an oil refinery. The bombs apparently did no damage.

Cuban authorities said they did not go off but that Castro's regime was holding the United States responsible for the raid.

The customs spokesman said it would be a law violation if the plane used in the raid took off from United States soil without proper clearance and if it carried munitions. The Justice Department declined comment on the reports but the customs spokesman said justice normally would prosecute any such violations.

Eisenhower Ends Winter Vacation

SAN BERNARDINO, Calif. (UPI)—Former President Dwight D. Eisenhower was en route to his Gettysburg, Pa., farm today after a nearly four-month winter vacation on the Southern California desert.

Eisenhower ended his stay with informal comments at trainside that touched on French President Charles de Gaulle, the 1964 presidential race, and the difference between writing war and personal memoirs.

More than 500 persons were at the station as General and Mrs. Eisenhower boarded a private car.

"I like and admire President De Gaulle," he said in answer to a question. "I don't always agree with him, but he's a splendid man and a great patriot."

When asked about the 1964 Republican presidential possibilities he said there was still time for candidates to emerge.

"I don't plan to take an active part in the coming presidential campaign," he said. "I'll support the (Republican) nominee of course, but I have no favorites now."

He said he devoted much of his time while here to writing and re-editing memoirs, which he said proved more difficult than writing on the war in Europe.

Music Fete Set At Lookingglass

The Lookingglass School has been selected to host the Winston-Dillard School District elementary music festival this Friday. All grades one through six of the Lookingglass and Tennille Schools will participate along with the combined sixth grades from Winston.

The program will include group singing, tonettes, rhythm numbers, folk dancing etc. A section of the bleachers in the gym will be reserved for parents. The program will begin at 9:30 a.m. and continue until 11 o'clock. Tentative plans have been made for the closing of school on June 6 with the annual school picnic to be held on Friday, June 7, correspondent Mrs. Arthur Marsh reports.

W-D Kiwanians Make Meeting Night Change

The Winston-Dillard Kiwanis Club will meet each Tuesday evening at 6:30 at the Junction Cafe in Winston instead of on Monday evenings, which has been the custom for several years.

The change was made in order that some members who are engaged in other activities on Monday nights might attend.

The "Ladies Night" dinner meeting will be held the second Tuesday in May at 6:30 p.m. at the Dillard School instead of the second Monday as previously scheduled, correspondent Phebe McGuire reports.
