

Military Leaders Have Doubts Over New Ban On Nuclear Tests

WASHINGTON (UPI) — U. S. military leaders have misgivings about President Kennedy's qualified new ban on testing nuclear weapons in the atmosphere. Some believe America should be developing a 100-megaton bomb such as the Russians claim to have. Armed forces chiefs were described today as believing national security requires continued testing of a variety of nuclear devices under present world conditions. A 100-megaton bomb, advocated by some military men, would have more political and psychological than purely military significance. America's present 25-megaton bombs are more than adequate militarily. But it is argued Amer-

Kennedy Requests Support For Racial 'Golden Rule'

WASHINGTON (UPI) — President Kennedy sought national support today for a racial Golden Rule to put out "fires of frustration and discord" among Negroes by guaranteeing them full equality from lunch counter to polling place. Warning that there is "a rising tide of discontent that threatens the public safety," Kennedy declared in a radio-television address Tuesday night that "we face...a moral crisis as a country and as a people." "It cannot be met by repressive police action," he said. "It cannot be left to increased demonstrations in the streets. It cannot be quieted by token moves or talk. It is a time to act in the Congress, in your state and local legislative body and, above all, in all of our daily lives."

To carry out his aims, Kennedy said he will send to Congress next week legislation which for the first time in this century would commit this country to the idea that "race has no place in American life or American law." In a near-paraphrase of the Biblical Golden Rule, the Chief Executive said: "Every American ought to have the right to be treated as he would wish to be treated, as one would wish his children to be treated." Kennedy spoke from his White House office shortly after he had federalized the Alabama National Guard to enforce integration of the state university. There were these immediate results: —Senate Democratic Leader Mike Mansfield and other administration backers accepted Kennedy's legislative challenge. Southerners in Congress rejected it. —Negro leader Martin Luther King Jr. called Kennedy's address "a hallmark in the annals of American history...one of the most eloquent, profound and unequivocal pleas for justice and the freedom of all men ever made by a president."
