Giant Air Show Due Saturday At Local Airport

The new Cessna tandem-twin engine Skymaster will be the star of the show Saturday as Roseburg Skyways sponsors the largest aircraft showing of 1963 in southern Oregon.

Also on hand will be the Roseburg Skyways helicopter (a new addition to local flying circles), gliders and sailplanes and many other types of aircraft. A wide variety of flight activities is scheduled for the show, which begins at 10 a.m.

According to Roseburg Skyways Manager R. C. (Bud) Good, demonstrations at the showing will include a sailplane flight, helicopter demonstrations and a static display of the 1963 fleet of Cessna airplanes. The planes range from the two-place Cessna 150 to the luxurious six-place Skymaster, including the revolutionary push-pull twin-engine Skymaster.

On first glance, the new Skymaster resembles the famed World War II P-38, with two booms extending to two vertical stabilizers. The craft is powered by two Continental engines, one fore and one aft.

The Skymaster has a top speed of 185 miles per hour, with a cruising range of 800 miles. According to Good, the craft was designed to make twin engine flight easier and safer. The new design eliminates the precise emergency procedures required on conventional twin-engine craft during single engine operation. The Skymaster will demonstrate its flight characteristics at the showing, Good said.

MC Cub Scouts Fly To Medford

Cub Scouts of Den 1, Myrtle Creek, celebrated their graduation into Webelos recently with a flight by West Coast Airlines from Roseburg to Medford.

Accompanied by their den mother, Mrs. E. Hagberg, the boys spent the day in Medford and at Jacksonville, where they went through the museum. They then motored home, after dinner in Grants Pass and a visit to the park there.

In the group were Terry Hagberg, den chief; Reagan McCoy, Alan King, Garry Hagberg, Tom Bay, Danny Malone, Raymond Calloway and Robert Wilde. The airlines pilot took time to show the boys through the plane and explain how it operates.

The boys were met at the Medford airport by Mr. Hagberg and by G. C. Sherlock of Grants Pass, father of Mrs. Hagberg. They took the boys to Jacksonville, then brought them home to Myrtle Creek.

The boys have been together as Cub Scouts for 2 1/2 years now. Each summer they have had a special activity.

'Y' To Auction Unclaimed Items

"We belong to somebody!" Watches, bracelets, masks, fins, swim suits, coats, sweaters, hats, helmets, shoes, costumes, underwear, and just about everything else has been accumulated at the Roseburg YMCA.

"Y" Secretary Wayne Schulz reported today that all unclaimed articles will be put on the auction block on July 1st. "We would like to return items to their owners but if they are not claimed then we're going to sell them to the highest bidder," Schulz said.

Proceeds from the sale will go to YMCA World Service.

DON BELL, right, receives from retiring President Ron Noel the outstanding Lion award for the past year, as a feature of the annual installation and award presentation of the Umpqua Lions Club last Saturday night at the Roseburg Country Club.

Performance champ... for 5 years or 50,000 miles!*

When Plymouth, Chevrolet and Ford met in a ten-event performance showdown at Riverside, California, it was to establish which one of these three cars did the best job with the motor running. As the results indicate, Plymouth pretty much had its own way—winning every acceleration test, the handling test, both passing-safety tests and the gas economy test.

Perhaps the most important point of all is that these were not "souped-up" special racing models, but standard production models with standard V-8 engines. And it ought to heighten your enthusiasm to learn that the "performance champ" has a 5-year/50,000-mile warranty* to back it up. It's some automobile. Let your Plymouth Dealer show you.

*Your Authorized Plymouth-Valiant Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair, without charge for required parts or labor, for 5 years or 50,000 miles, whichever comes first, on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential and rear wheel bearings, provided the vehicle has been serviced at reasonable intervals according to the Plymouth-Valiant Certified Car Care schedules.
