RFD Adopts New Policy For Burning Of Trash

The Roseburg Rural Fire Department, has adopted a new policy which will enable residents of the district to obtain 12-month permits for burning trash in approved incinerators.

In the past, residents of the district have been required to obtain special permission to burn trash each time they wanted to burn. The new permits will eliminate the need for permission each time.

Permits will be issued to residents whose incinerators have been inspected by the Rural Fire Department Fire Marshal Harry H. Harryman. The permits will not be good during dry summer periods or at other times when public notice is given that all burning is prohibited.

Residents wishing to obtain such a permit are asked to call OIT 3-5503 to have their incinerators inspected, or for any other open fires. Persons burning trash without a permit will be in violation of the National Board of Fire Underwriters code, which was adopted here Dec. 3, 1962.
