

New Mystery In Profumo Row Appears

LONDON (UPI)—New mystery was stirred up in the widening Profumo scandal today by publicly expressed doubts that a rich former boyfriend of call girl Marilyn (Mandy) Rice-Davies had died as reported.

The man in question, Peter (Polish Peter) Rachman, 42, was reported to have died of a heart attack last Nov. 30. Miss Rice-Davies, 18, testified during a vice hearing recently that she had lived with Rachman for nearly two years.

Labor Member of Parliament Ben Parkin, quoting rumors current in London, scoffed at the low value of Rachman's estate and suggested that it would have been easy "to switch bodies."

Edgeware General Hospital, where Rachman was declared dead on arrival, denied the implication Monday night and said the dead man was Rachman.

Scandal Leaks Out

Ten days after Rachman's reported death, the Profumo scandal started to come into the open when a West Indian musician, John Edgcombe, fired five pistol shots at the apartment of call girl Christine Keeler, a friend of Miss Rice-Davies.

Christine's absence from the country when she was scheduled to testify at Edgcombe's trial led to charges she was covering up for a prominent person.

War Minister John Profumo first denied, then admitted, to parliament he had been carrying on illicit relations with Miss Keeler, and resigned his post. She later claimed to have been intimate with Soviet assistant naval attaché Eugene Ivanov at the same time.

Christine and Mandy have told sensational stories about vice in governmental circles and high society. Both were witnesses in the pretrial hearing of Dr. Stephen Ward, a well-known osteopath accused of living off the prostitution earnings of them and other young girls.

It was during her testimony at the Ward hearing that Miss Rice-Davies told of living with Rachman.

Stateless Refugee

Rachman, a stateless refugee from Poland, had extensive real estate holdings in London slum areas. He also was reported to own 20 nightclubs and to have lived in a \$200,000 mansion.

Labor M.P. Parkin brought Rachman's name back into the case Monday during debate in the House of Commons.

After enumerating Rachman's sources of income, Parkin said the real estate tycoon left an estate of only \$22,400 when he died.

"Do you think anybody believes that?" Parkin asked.

"It would be a very easy thing to switch bodies," he added.

"A cremation—and a stateless man—and that is the end. A very good idea for substitution, and a very useful one, too, just 10 days before all hell broke loose."

Medics Keep Watch On Second Lung Transfer Patient

PITTSBURGH (UPI) — Physicians at Presbyterian University Hospital kept a close watch today on a 41-year-old man who underwent the second lung transplant known to medical science.

A medical spokesman who participated in the lung transfer Monday said the patient, who wishes to remain unidentified, was in critical condition as the result of "this previous condition, the fact that he had major surgery and adjustment to his new lung."

However, the spokesman said that the "lung is functioning and the transplant is working."

The patient suffered from advanced emphysema, "an obstructive chronic deterioration of available lung tissue," the physician explained.

The transferred lung came from a 33-year-old man who died shortly before the operation.

Fifteen doctors, including two surgeons, participated in the transplant which took "from two to three hours" Monday.

The spokesman said medical history recorded only one other lung transfer from a dead person to a living person. A 56-year-old lung cancer victim received a lung three weeks ago in Missouri but died shortly after the operation from an unrelated disorder.

Pointing out that there was not enough knowledge available to make any general rules, the physician explained that most of the work on lung transplants in the past has been done on dogs and other animals.

He said the Pittsburgh case is different in that the patient suffered from emphysema rather than lung cancer. "As far as we know, it is only the second lung transplant ever performed," he said.

DENIES GAS REPORT

OSLO, Norway (UPI) — The United Arab Republic Embassy denied today a London Daily Telegraph report that Egyptian troops used poison gas during the fighting in Yemen.

The embassy sent letters to newspapers which printed the report. The letters said the U.A.R. government adheres to international law and to the conventions signed by its government.

Do Oregonians Deserve to live in Oregon?

All right, all right! Don't get sore. We know that you deserve to live in Oregon. Our question is aimed at the guy who doesn't appreciate this great state of ours, who knows next to nothing about it—the guy who thinks he has to leave the Pacific Northwest and go all the way to California or some other such fastness to have a good time. What kind of a guide are you, anyway?

Now that you've taken the test (whew!), count five points for every correct answer and see what kind of a guide's rating you deserve:

30 points	Grand Exalted Guide
25 points	Somewhat Exalted Guide
20 points	Tenderfoot Guide
15 points	Newcomer
10 or less	Misguided Out-of-Stater

What difference does it make what kind of a guide you are?

Well, for one thing, the more you know about Oregon, the better you and your family can enjoy it. Then, too, the more you know, the more you can help others less fortunate than yourself. Like misguided out-of-staters. And the more they know, the more likely they'll become tourists and bring all that lovely tourists' money into Oregon. And it's big money, too.

If you like statistics, try these: Today tourism is Oregon's Number 3 Industry. In the last four years, tourists have spent an average of \$185 million dollars a year in Oregon. (\$217 million in 1962, with the World's Fair as a magnet.)

More statistics: Each tourist in Oregon spends about \$6.20 per day or \$20.45 for the average family of 3.3 people. (Seen any three-tenths of tourists lately?)

And—according to the U.S. Chamber of Commerce (which ought to know), an annual average of 24 tourists a day is equal to a new industry with a payroll of \$100,000. Enough?

Why is the Telephone Company helping promote Oregon?

We're proud to be part of the statewide team that's promoting tourism in Oregon and its Welcome Mat Campaign. Like you, our future is invested in Oregon. (We're second only to Georgia-Pacific in the number of employees. We're first in plant investment—over \$300 million dollars.) Like you, we're proud to "tell the world about Oregon." We're convinced that if we all work at it, we can make Oregon the most rewarding, the most prosperous state in the nation.

What can you do? Plenty!

First take a trip through the state and check up on things. (When's the last time, for example, that you viewed the scenes in our picture quiz?) Then turn State's Witness. Be a one-man (or one-family) Chamber of Commerce. Make yourself insufferable with your out-of-state friends. Let's tell the world about Oregon.
