

More Demonstrations Slated In Maryland

By United Press International
Negro leaders in Cambridge, Md., planned "peaceful" demonstrations today and segregationists and integrationists alike commenced new moves to tip the nation's racial dispute in their favor.

Local Group Sees Recreation Sites In Umpqua Forest

A committee from the Roseburg Chamber of Commerce, the Forest Service and the state Game Department toured recreation developments in the North Umpqua and Diamond Lake areas over the weekend.

Seattle Car Mishap Causes Slight Hurt

A man and a woman escaped serious injury when the car operated by the man, George Otto Orth, Jr., Seattle, went out of control on Interstate Highway 5 at Roberts Mountain Sunday evening.

Water Accidents Take Two Youths

By United Press International
Two Oregon youths drowned Saturday in swimming accidents.

ATTENDS RECEPTION

MOSCOW (UPI) — Ilya Ehrenburg, 73-year-old "dean" of Soviet letters, attended a Bastille Day reception at the French Embassy Sunday in his first public appearance since he was denounced by Premier Nikita S. Khrushchev last March.

tee, said "if nothing happens within a week or so we are going to have to court arrest."

Calm Sunday
Cambridge and Savannah, Ga., scenes of racial violence last week, were comparatively calm over the Sabbath.

About 450 Negroes sang "freedom songs" Sunday in the shadow of a monument to Savannah's Confederate dead in downtown Forsyth Park. Three young Negroes were arrested for staging a "wade-in" at nearby Savannah Beach.

A Negro leader called off a protest march because, he said, police broke up an attempted march by a white segregationist group Saturday. "If everyone can't march, we will not march," said the Rev. Andrew Young.

Young referred to a march by white segregationists who got three blocks before police stopped them. It was one of the first protests of its type during racial turmoil in the nation, dominated mainly by integrationist demonstrations.

Eight Arrested
In New York, eight members of the neo-Nazi National Renaissance Party (NRP) were arrested Sunday on charges ranging from conspiring to commit a riot to anarchy when a huge cache of guns and ammunition was uncovered.

The arrest came after several NRP members attempted to hand out hate literature outside a Bronx diner, scene of integrationist picketing and some violence for the past week.

Gov. George C. Wallace of Alabama testified before the Senate Committee on Commerce on President Kennedy's proposed civil rights bill.

"I promise you that you will get the shock of your life because the people will overwhelmingly reject this encroachment upon their right to own and enjoy private property," Wallace said.

"Nobody who offers services to the public or attempts to engage in his chosen profession will be free to operate without fear that the police state which is now vigorously rearing its head, will dictate his every move," the Alabama governor said.

Antique Car Jaunt Called Successful

The Cascade Historical Motor Club's junket into the Cascades was described today as "highly successful."

Jack Busenbark, chairman, said 12 antique cars — five from Roseburg and seven from Ashland — participated. Good weather was encountered throughout the tour which got under way Friday and concluded Sunday.

There were no major mishaps with the old vehicles and only a few "minor delays." Busenbark said such things as plugged carburetors, a loose rod that had to be tightened and a case of vapor lock were the only problems. The only "casualty" was one of the cars from Southern Oregon which returned home after suffering four flat tires before it reached Diamond Lake around the Medford-Diamond Lake route. The tour is planned again in 1965.

Striping Program In Full Swing

SALEM (UPI) — Oregon's highway striping program is now in the summer rush, as crews prepare to spread 150,000 gallons of paint over 7,600 miles of interstate, primary and secondary highways, Highway Engineer Forrest Cooper said today.

Crews are painting shoulder stripes as well as white center lines and yellow no-passing lines. Shoulder stripes are being put on all interstate highways and will be placed on other highways as soon as possible, Cooper said.

Approximately 110,000 gallons of white paint and 20,000 gallons of yellow paint will be used this year.

About five pounds of glass beads, resembling flour in consistency, are added to each gallon of white paint to improve visibility through light reflection.

Cooper said Oregon was among the first states to use highway striping.

Cooler Weather Excepted
The five-day weather forecast, according to the Weather Bureau station at the Roseburg Airport, calls for below normal temperatures for Western Oregon with highs in the 70's and low 80's except for 65 to 70 along the coast. Lows will be in the upper 40's or low 50's. A few showers are likely around Thursday or Friday.

BID OPENING for Douglas Community Hospital's new additions will be held at 2 p.m. Thursday of this week at the hospital, Frank Ashley, acting hospital administrator, is shown displaying a model of the enlarged hospital plant made by Mr. and Mrs. Bud Smith of Roseburg.

U. S. Attorneys To Answer Hoffa Charges In Jury Tampering Case

NASHVILLE, Tenn. (UPI) — Federal attorneys today were scheduled to answer defense charges that Justice Department investigators threatened witnesses appearing before the grand jury which indicted Teamsters President James R. Hoffa and 10 others for alleged jury tampering.

A number of affidavits denying alleged coercion on the part of agents was expected to be filed by the government along with a dismissal of motions seeking to free the defendants or grant them a change of venue.

In motions filed last week, Hoffa's lawyers alleged that: —Thomas Ewing Parks, one of the defendants, was offered a "deal" if he would testify against Hoffa.

Rockefeller Hits GOP Radical Right

WASHINGTON (UPI) — Supporters of Sen. Barry Goldwater today interpreted as a challenge New York Gov. Nelson A. Rockefeller's attack on the GOP's "radical right."

Rockefeller, a possible GOP presidential candidate in 1964, said Sunday his party was being threatened by what he described as a growing subversion from the "radical right lunatic fringe."

Rockefeller also cautioned against abandoning northern industrial areas in order to concentrate on getting the southern vote. Such a plan would be disastrous, he said. He did not mention Goldwater, a conservatives' favorite for the GOP nomination, by name but his inference appeared clear.

Mrs. Ione F. Harrington, Republican national committee woman from Indiana and co-chairman of the new draft Goldwater committee, said today she believed Rockefeller's statement was "probably a prelude to the (national) governors' conference next week."

Rockefeller has announced that he plans to introduce a strong civil rights resolution at the conference. Previous attempts to put the governors on record with similar resolutions have resulted in a southern governors' talkathon that led to tabling of the resolutions.

Mrs. Harrington said she was concerned that Rockefeller inferred the Goldwater-for-president movement was sectional in nature. She said the committee had not "crossed off" any section of the nation in its projections of possible Goldwater vote strength in a presidential election.

BABY LIFEGUARDS

LOS ANGELES (UPI) — The occupation of pool sitters, a classification officially recognized by the state employment office, is catching on big in Southern California.

The aquatic counterpart of the baby sitters gets \$1 to \$1.25 an hour for his labors.

Survivors include his wife; one son, Don of Myrtle Creek; two daughters, Mrs. Eugene Mitts and Mrs. J. W. Childress, both of Myrtle Creek; two sisters, Mrs. Kelly Hausotter, Canyonville, and Mrs. Aurilla Hall, Myrtle Creek; two brothers, Arthur Potter, Woodburn, and Clifford Potter, Myrtle Creek; and 14 grandchildren.

The Rev. Donald Boldt of the Tri-City Baptist Church will officiate at the services. Interment will follow at the IOOF Cemetery in Myrtle Creek.

Solon Asks Tight Boycott Of Cuba

WASHINGTON (UPI) — Sen. Karl E. Mundt, R-S.D., called on the Kennedy administration today to tighten what he termed its "half-hearted" economic boycott of Cuba.

Mundt recommended a four-part program of action "far short of war" which would deny U.S. ports to ships of any country letting its vessels trade with Cuba and would use the foreign aid program to reward nations joining in an anti-Castro effort.

He also proposed that the Organization of American States and NATO be asked officially to halt trade with Cuba and that similar requests go to every other nation outside Communist domination.

Mundt, in the latest in a series of Republican Senate speeches on Cuba, said that the number of trips by free-world ships to Cuba had increased since January and that the "volume of Soviet-bloc shipping to Cuba seems to be rising."

He conceded that there was a "virtually complete embargo on U.S. Cuba trade" in effect since February 1962 and that most Latin American countries were sharply curtailing their own Cuban trade.

But Mundt said a provision of the Foreign Aid Act denying assistance to countries whose ships carry arms or strategic materials to Cuba was not being enforced as to NATO-type aid to NATO countries. Thus, he said, the aid restriction is "virtually inapplicable."

The other present restriction, Mundt said, is an order of Feb. 1962 barring U.S. government-financed cargoes to foreign ships that have traded with Cuba since Jan. 1, 1962.

The GOP senator called this a "half-hearted program." He said the number of trips made by free world ships to Cuba actually was lower in January, one month before the administration's order went into effect, than in any month since then through May.

Convicted Slayer To Hear Sentence

RENO, Nev. (UPI) — A 19-year-old itinerant ranch worker was scheduled to go before a panel of three judges here today to be sentenced for the fatal shooting of an Oregon man last August.

Lester E. Mofford III has pleaded guilty to the fatal shooting of Jack Foster, 23, Medford, after he kidnapped the victim and his bride of two days, Patricia, from a Reno motel.

He forced them to drive to Lake Tahoe where he shot Foster in the back of the head with a .22 caliber pistol and dragged his body off the road.

He later allegedly criminally assaulted Foster's wife twice before she was able to jump out of the car at Carson City and escape.

Mofford, whose parents live in Santa Rosa, Calif., was arrested near Carson City in a gasoline station.

Police said he may have been sniffling glue at the time of the killing. They said they found 12 tubes of plastic cement and airplane glue in his motel room. Several were open.

Firemen Douse Minor Blazes

Two minor grass fires kept the Roseburg Rural Fire Department busy Saturday, with the largest of the two blazes covering 2 1/2 acres along the railroad right of way on Business Route 99 south of Roseburg.

Firemen reported that the blaze was believed to have been caused by something either being thrown from or falling from a passing train. No damage was reported.

The call was received at 3:48 p.m. Saturday evening at 9:20 a grass fire near the 1800 block on NW Garden Valley Blvd. was quickly extinguished. The fire was located on the right of way of the new construction project. No damage was reported and no cause was listed. The Roseburg City Fire Department answered a mutual aid call on this fire.

Jack John Franco

Jack John Franco of Roseburg died suddenly Sunday while working with West Coast Carnival in Seattle, according to word received here. Cause of death was not known here, but heart attack was suspected as he was at work with a trailer and truck at the time of his death. He operated concessions with the carnival.

Franco, brother of Lou Franco of this city, was known primarily for his wrestling in many parts of this country and in Australia.

Surviving are his wife, Dorothy; a daughter, Mrs. Jackie Diech, several brothers and sisters.

The body was to be returned to Roseburg today or Tuesday by Long & Shokle Memorial Chapel, and Catholic services will be held here.

GROUND-BREAKING ceremonies for the Winston Housing Project were held on the site Saturday. Taking part in the event were, from left, Winston Mayor Norman Lee; Alfred Daniels, councilman and former mayor during the initial planning for the project; O. T. (Bud) Carter, labor inspector for the housing project; Frank Norton, chairman of the Housing Authority of Douglas County board; Dick Stritzke, building contractor; and Charles Dondero, executive director of the housing authority. Completion of the 16-unit project is scheduled for Jan. 1, 1964.

Ground - Breaking Rites Signal Start Of Winston Housing Job

A formal ground breaking for the Winston Housing Project was held Saturday morning at the site of the project with several officials participating in the ceremony.

Completion of the project is planned for Jan. 1, 1964. The 16 units will consist of two singles with four bedrooms with the remaining 14 to be duplexes of one, two and three bedrooms.

The size of the buildings was determined by a survey which showed housing needs for at least two large families with a minimum of six children. Elderly couples, as well as families, will be housed in the units.

Charles Dondero, executive director of the Douglas Housing Authority board emphasized that applications are still being taken and will be accepted up until the time of occupancy.

Winstonites will have first priority, correspondent Phebe McGuire reports.

Chairman Frank Norton of the Housing Authority board, speaking at the ceremony said, "This is the culmination of many months of effort by the mayor, the City Council, the City Planning Commission and citizens of Winston. The ground-breaking ceremony is indicative that through local cooperation and effort, many things can be done by American people to improve the standard of living of some of our less fortunate families. This is not limited to growing families, but also to our many elderly families."

Winston Mayor Norman Lee, in a statement said, "I think the project is a real asset to the city and answers the need in the city of better housing for people of lower incomes."

Alfred Daniels, a city councilman and Mayor during the time the project planning became a reality, commented, "The project will substantiate growth in the community by better housing facilities for those who need this assistance. I feel this is a step toward future building in the city."

S. Umpqua Crew Puts Out Fire
By MRS. MILTON HAMMERSLY
Carelessness of a fisherman who built a campfire beside a punky log and then failed to extinguish it before leaving could have resulted in a serious fire at Fish Lake had it not been discovered by a Forest Service crew packing in supplies, according to Elmo A. Picht, fire control officer of the South Umpqua Ranger District at Tiller.

The lake, reached by a 4 1/2-mile trail which takes off from Fish Lake Creek Road some 27 miles northeast of Tiller, is a favorite haunt of anglers willing to hike into rugged country.

Sunday, six men arrived at the site with equipment and supplies for the lookout who was to take up his guard duties there the following day. The men found the smoldering fire and extinguished it with hand tools. Picht pointed out that two serious violations, one of common sense and the other of state law, were represented in this particular instance.

"Inflammable material such as a log or stump should never be used as a backstop for a campfire. In the absence of an established fireplace a campfire should be prepared by clearing away all debris and exposing bare earth for a safe distance. Usually stones are available which may be arranged to create a makeshift fireplace. State law forbids leaving any campfire burning unattended, even one in an established campground where masonry fireplaces are provided," Picht explained.

"Had this fire gone undiscovered, it would have smoldered in the rotten wood until dry weather permitted it to explode into flame and spread to surrounding brush, down logs and heavy timber, and we'd have had a forest fire on our hands," he concluded.

Proowler, Wounded Dog Investigated By Police
Roseburg city police were called to W. Jay St. about 1:30 a.m. Sunday to investigate report of a proowler. Several people of the neighborhood were out searching the area but no one was located. A suspect was stopped in a car and questioned by the officer. He stated that he had been looking for a friend who lived in the area.

Report was made to Police by Gary L. Loomas of 1410 W. Micelli St., that his 4-month-old German Shepherd dog had been struck by a bullet from a gun fired in the area. Loomas and neighbors had heard the shot.

of occupancy. Winstonites will have first priority, correspondent Phebe McGuire reports.

Chairman Frank Norton of the Housing Authority board, speaking at the ceremony said, "This is the culmination of many months of effort by the mayor, the City Council, the City Planning Commission and citizens of Winston. The ground-breaking ceremony is indicative that through local cooperation and effort, many things can be done by American people to improve the standard of living of some of our less fortunate families. This is not limited to growing families, but also to our many elderly families."

Winston Mayor Norman Lee, in a statement said, "I think the project is a real asset to the city and answers the need in the city of better housing for people of lower incomes."

Alfred Daniels, a city councilman and Mayor during the time the project planning became a reality, commented, "The project will substantiate growth in the community by better housing facilities for those who need this assistance. I feel this is a step toward future building in the city."

Riddle Gets New Insurance Rating
Re-rating of the City of Riddle for fire protection has been completed by the Oregon Insurance Rating Bureau and the newly authorized rating data shows that the improvements in fire protection facilities were sufficient to produce Class 6 protection. The prior rating for the city was Class 8, according to Kenneth Bond, fire chief.

As to the immediate change in insurance rate, no blanket statement can be made, Bond said. On dwellings in the city, any policy written within the next 12 months may have as much as a 20 per cent reduction. Older policies will not be reduced as much, since rates generally have risen.

On business type insurance risks, the rating bureau will make a personal inspection within the next few months. Until that is done, no indication of rate change is possible. Policy holders are advised to discuss the change with their agents.

In any event, no policy change will be made by an agent until the next premium anniversary date, correspondent Irma Best reports.

Local Woman Treated For Overdose Of Pills
Helen Janet Hastings, 50, of 1002 SE Mill St., Roseburg, was admitted to a local hospital Sunday after she had notified her physician she had taken an excessive amount of tranquilizers, city police report.

She was reported by police to have taken the tranquilizers and then to have called her doctor and asked if any harm would come to her. She was rushed to the hospital for immediate aid.

Fires Hit Forests
SALEM (UPI) — Eight fires, seven of them caused by lightning, were reported on state protected forest lands over the weekend.

A blaze in the LaGrande area was caused by a careless camper and burned about one acre.

All of the fires were small and occurred east of the Cascades.

The largest, on the California border south of Klamath Falls, covered a little more than an acre.
