Medical payments on an auto insurance policy is actually an accident policy on you, your family, and your guests while getting into, out of, or riding in your car. It also covers you while driving or riding in someone else's auto. Medical payments cover all medical, surgical, and funeral expenses for each passenger in your car up to the policy limit. Almost every auto accident of any size will involve medical expense if only for a doctor's check-up or X-rays looking for hidden injuries. An auto policy with medical payments is like an empty fire extinguisher—when you need it, it's too late to fill it. Call
