Marjorie Brady Manager Of Office At Lockwood's

Marjorie Brady, office manager for Lockwood Motors, came to work for the company eight years ago.

She and her husband, Carl J. Brady, live in Winston. They have two married daughters and four grandchildren, all in Seattle, Wash. They came to this area eight years ago.

Marjorie commented, "It will surely be a pleasure to have such spacious beautiful new offices in which to work and greet the many Lockwood Motors friends and customers."

Office clerks at Lockwood Motors are Nellie Rue and Donna Blanck. Nellie started with Lockwood directly out of high school and has been here five years. She and her husband, Eugene, own their home on Roberts Creek Road. She has lived in the Roseburg area all her life.

Donna and her husband Daryl Blanck own their home on River Bend Road. She also was born in Roseburg and has lived here all her life. She came to work for Lockwoods a year and a half ago on a part time basis and will now be a full-time employe.

DONALD HELLIWELL
heads parts department

SEES GOOD FUTURE

Don Bell, service department supervisor, said: "I am proud to be part of the Lockwood Motors improvement. This is a fine growing city in a wonderful climate. We will do our part to help."

Parts Section Changes Noted At Lockwood's

The parts department for the new Lockwood Motors Co. building has been completely changed, according to Don Helliwell, parts and accessory manager.

The department has been arranged for quicker and better service to the customer. The parts counter is located next to the office, the cashier being only two steps from the service counter.

The large and complete department has more than 100 3-by-7-foot bins, with 300 feet of parts shelving. It will contain more than 28,000 different parts. The bulky sheet metal parts are in a convenient upstairs room of 2,800 square feet of floor space.

Helliwell, manager for more than 23 years, maintains a perpetual parts inventory control. This insures the right number of parts being in stock at all times.

Helliwell started training in parts in 1929 with Model A Fords and has been in this business most of the time since. He joined Lockwood's when the present company was organized in 1940. He is married and has one son and two grandchildren. He and his wife, Iris, reside at 843 SE Kane St.

Clark Hatfield, partsman, started in this line of work in 1947, and came to Lockwoods in 1955. He is married and has two children, and has lived in Roseburg for 16 years. He resides at 1811 NW Kline St.

Larry Keith has been in the parts department at Lockwood's since Aug. 28, 1961. He and his wife reside at 1559 SE Hamilton.

PARTS DEPARTMENT employes for the new Lockwood Motors building are Clark Hatfield, Larry Keith and manager Donald Helliwell. (News-Review photo)
