## Gov. Wallace Defies Court Prayer Ruling

WASHINGTON (UPI) — Prayer and Bible reading will continue this fall in many U.S. public schools despite the Supreme Court's ruling that such religious exercises are unconstitutional. A nationwide UPI check showed today that the court's June 17 ruling is being openly defied in some areas.

Elsewhere, it is being circumvented by "interpretations" which seem to ignore the plain language of the ruling.

Only a few states which previously had religious exercises in their schools have issued explicit orders for their discontinuance. Many said they are still "studying" the matter. Some were unaffected because the ruling confirmed their existing laws or policies.

The survey turned up only two states—Pennsylvania and California—which appear to be acting on the court's suggestion that it is perfectly all right for public schools to engage in "objective" study of the Bible and America's religious heritage.

LOIS ANN FROTTE, now Mrs. John Burke of Hyannis, Mass., proudly displays her new 5 lb., 10 oz. baby daughter, Linda Arlene, to photographers at Cape Cod Hospital. Mrs. Burke on July 18 last year was the girl who plunged 2,500 feet into Mystic Lake on Cape Cod after her parachute failed to open. The baby was born Aug. 3. Both mother and baby are doing fine. ## Haitian Exile Forces Move Into Port Of Fort Liberte

PORT AU PRINCE, Haiti — (UPI) — A small invasion force of Haitian exiles who apparently crossed the border from the Dominican Republic advanced today on the northern Haitian port of Fort Liberte, informed sources said here.

## U. S. Plans Retaliatory Tariff Moves

WASHINGTON (UPI) — The United States announced today it will take retaliatory measures against imports from European Common Market countries for increased duties placed on American poultry by the Western European economic bloc.

Christian A. Herter, President Kennedy's special representative for trade negotiations, said that for one thing, the United States would withdraw tariff concessions it has made on items in which the European Common Market countries do \$36 million in export trade with the United States per year.

Hearings to determine the extent of U.S. tariff increases will begin Sept. 4.

Herter issued a list of 19 items from which the United States, after public hearings, will select those on which to withdraw the concessions it has made to Common Market exporters.

The biggest single item is wine, accounting for \$224 million in sales per year to the United States. The next largest item is made up of trucks and buses, on which sales by Common Market countries to the United States are \$148 million per year. Other principal items include photographic papers, film, gelatin, brandy and electric shavers.

## Paper Firm At Gardiner Joins Big Six Back To Work Program

International Paper Co. at Gardiner has joined the back to work program announced by members of the Big Six, but U. S. Plywood at Roseburg will feel no effect from the Big Six decision.

The International Paper Co. Gardiner operations, in a letter to employees today spelled out the local application of the association announcement of the "back to work" program starting Wednesday, according to A. J. Myers, general manager of the IP plywood and sawmill operations there.

The letter stated that in accordance with the association announcement, work is available, starting Wednesday at all western operations of the company's Long-Bell division.

**Employees To Report**

Power house employees were advised that they could report on the regular shift on Wednesday, Aug. 7. Shipping and maintenance crews are to report to their respective departments on Wednesday at 8 a. m. All other plywood plant employees, unless otherwise directed, are to report on the regularly scheduled shifts commencing with the day shift on Thursday, Aug. 8.

Sawmill and lumber department employees, unless notified to the contrary, are to report to their regularly scheduled shifts Friday, Aug. 9.

Gardiner area Woodlands mechanics were told to start at the regular day shift Wednesday, Aug. 7. All other woodland employees, except cutting crews are to report at the beginning of the regularly scheduled shift on Thursday, Aug. 8. Cutting crews are to contact their foremen about when to report.

## Reply To Big Six Offer Expected

### Russian Inspection Plan May Interest United States—Rusk

MOSCOW (UPI) — Secretary of State Dean Rusk was reported by diplomatic sources to have told the Soviet Union today that the United States may be interested in a Russian plan to prevent surprise attacks by placing inspectors in strategic areas in both East and West.

Rusk, cautiously exploring new ways to ease cold war tensions in the wake of Monday's signing of a partial nuclear test ban treaty, met twice during the day with British Foreign Secretary Lord Home and Soviet Foreign Minister Andrei Gromyko.

Rusk was reported to have taken the initiative at today's meetings to ask Gromyko to explain the surprise attack plan in greater detail.

The surprise attack defense proposal first was made by the Russians in 1958. It was revived by Soviet Premier Nikita Khrushchev in a major Kremlin speech last July 19. It was one of a series of moves he called for, including a non-aggression pact between the Western NATO alliance and the Communist Warsaw Pact—to ease world tensions.

Khrushchev suggested July 19 that the inspectors be stationed at such strategic installations as harbors, rail depots and airfields to keep tabs on troop movements that might be connected with a sudden attack by either side.

Rusk, Home and Gromyko were reported to have discussed such questions as the distribution of the inspectors at today's session.

The diplomatic sources said the Soviet side apparently placed major emphasis on observers in both East and West Germany.

### Military Pay Bill Approval Due In Senate

WASHINGTON (UPI) — The Senate was expected to pass today a \$1.2 billion military pay raise bill providing increases Oct. 1 for almost all officers and enlisted personnel in the armed services.

Designed to encourage careers in the military and prevent loss of trained personnel to private industry, the bill represents the first general pay increase for the services since 1958.

Backers hoped to finish Senate action on it today and send it to a House-Senate conference committee to work out a final compromise with a different version passed earlier by the House.

The administration-backed pay boost was approved unanimously Monday by the Senate Armed Services Committee.

It would provide increases ranging from \$5 to \$120 a month for 1.9 million officers and enlisted personnel on active duty, and also raise the pay of reserves and about 417,000 retired military men.

The Senate version, drafted by a subcommittee headed by Sen. Howard W. Cannon, D-Nev., differed in a number of key areas from the House measure.

Cannon's group trimmed substantial pay raises provided in the House bill for certain retired generals and admirals, and put more money into pay hikes for officers and enlisted men in the middle to lower ranks.

The House allowed no increases for those with under two years service. The Senate changed this, giving officers with under two years active service from \$20 to \$50 more a month, and enlisted personnel with the rank of E-4 and above \$7 to \$8 a month increase.

Those with two or more years active service would get an average \$6.6 per cent increase: Officers from \$60 to \$120 a month, enlisted men from \$5 to \$120 a month.

In all, the Cannon group made cuts of \$39.9 million in the House bill, and added \$141.9 million in pay adjustments, for a net increase of about \$5 million a year over the House.

### Police Sergeant Held As Hostage

PORTLAND (UPI) — A man held a police sergeant as hostage for about an hour in the basement cafeteria of the downtown Lincoln Building today before surrendering and giving up a gun, police reported.

Police said the man turned over his gun after a talk with his Veterans Administration doctor.

The man had fired two shots into the ceiling before grabbing a VA doctor while many persons were drinking coffee, police reported. The man also was reported to have had a knife.

Sgt. William C. Hogue talked the man into allowing him to trade places with the doctor. Others in the cafeteria had been allowed to leave.

After learning the man's identity, they called his VA doctor. Police said he turned his revolver, a .38-caliber English Webley, over to Sgt. James Broutlette, who had joined Hogue at 10:55 a. m.

The Veterans Administration is an occupant of the building.

SUPREME COURT JUSTICE William O. Douglas and his bride, Miss Joan C. Martin, of Williamsville, N. Y., are pictured after their marriage Monday in Buffalo. Justice Douglas, 64, recently was divorced by his second wife in Klickitat County, Washington. A spokesman said Douglas and his bride left after the ceremony for a month's camping and hiking trip in Montana and Washington. (UPI Telephoto)

## Douglas Takes Young Bride, Heads West For Honeymoon

BUFFALO, N.Y. (UPI) — Supreme Court Justice William O. Douglas headed west today for a month-long camping and hiking honeymoon in the mountains while his former wife prepared for a honeymoon trek in the opposite direction by air.

## Mrs. Douglas Sets Wedding

BEVERLY HILLS, Calif. (UPI) — Mercedes Hester Douglas, second wife of Supreme Court Justice William O. Douglas, and Washington attorney Robert Eichholz planned to be married today at the home of a friend.

Douglas, 64, was married Monday in Buffalo, N. Y., to the former Joan Carol Martin, 23.

Douglas and his second wife were divorced last Wednesday.

John Metzger, a long-time friend of Eichholz, said the ceremony would be performed in his home by Los Angeles County Superior Judge Irving Hill. He said the wedding probably would take place in the afternoon, depending on when the jurist would be free.

The couple planned to make their home in Washington following a cross-country honeymoon by car.

## Shoplifting Control Forum Is Scheduled

A forum to help Roseburg area businesses control shoplifting is scheduled Thursday at the Umpqua Hotel.

The Roseburg Area Chamber of Commerce has set the meeting for 8 a. m. during which the Roseburg Police Department will present a program outlining methods of control. The forum is for all personnel having prevention of shoplifting as part of their duties.

A film showing how shoplifters operate is planned, and a representative from the district attorney's office will explain evidence necessary for conviction and the legal liability involved in apprehending shoplifters.

Larger firms of the area have been asked to notify the Chamber of Commerce how many employees they will send, so that arrangements for coffee and doughnuts may be made.

## Idaho Auto Crash Claims Riddle Man

A Riddle man was killed and two companions were injured Monday in a one-car automobile accident about four miles south of Paterson, Idaho, the United Press International reports.

According to a state policeman, the car, driven by John D. Hansen, 49, of Howe, Idaho, was turning right on a curve of a gravel road. He said the car slid off the road, overturned four times and all three occupants were thrown out. Killed was Robert Gilbath, about 35, of Riddle.

The officer said the car was apparently traveling at a high speed. It careened 562 feet before coming to a stop.

Hansen and a passenger, Glenn H. Wilson, 49, Howe, were brought to a hospital in Challis, Idaho, for treatment.

## Offer Comes As Surprise To Unions

PORTLAND (UPI) — Officials of the International Woodworkers of America (IWA) and the Lumber and Sawmill Workers Union (LSW) were expected to reply today to an offer of the Big Six employer group to resume work at plants shut down by four member firms.

Coordinating committees of the two unions, scheduled a 3 p. m. meeting to make a decision on the management proposal.

The surprise offer came late Monday as the Northwest lumber strike entered its third month.

Lowry Wyatt, Tacoma, vice president of Weyerhaeuser Co. and spokesman for the employer group said attempts to resume operation would begin Wednesday at plants of the four members which were shut down June 7 in retaliation for a strike called two days earlier against the other two members.

About 20,000 members of the IWA and LSW are idled at Big Six plants in Oregon, Washington, California and Montana. Some 9,000 other union members are out on strike against other companies in the region including the Georgia-Pacific Corp.

Wyatt said work would be resumed beginning with the day shift on Wednesday, or as soon thereafter as preparatory work would permit, at the woods and plant operations of Crown-Zellerbach, Weyerhaeuser, International Paper and Rayonier.

**Struck Firms Too**

He added work also would be available for the employees of the two struck firms, U.S. Plywood and St. Regis.

Wyatt said the association took the action upon review of recent developments involving other lumber industry firms and the two unions.

He said the association employers shut down their plants as a defensive move in the face of selective strike action by the unions against two members of the six-company bargaining association.

"The recent combination of circumstances no longer requires the necessity of a shutdown in order to preserve the integrity of the association," Wyatt said.

"The association believes it is in the public interest to provide this opportunity for employees to return to work at this time."

Wyatt said the employers would continue to seek settlement for the dispute. He indicated willingness to meet with the unions at any time there appeared to be a possibility of reaching an agreement.

## Army To Lot Bids

PORTLAND (UPI) — Army engineers will call for bids Wednesday for a bank protection job at Tansy Point four miles west of Astoria. The work is expected to cost \$225,000. Bids will be open Sept. 10 with a year allowed for completion of the job.

## Congress Committee Postpones Action On Kennedy's Rail Plan

WASHINGTON (UPI) — A congressional committee today held up action on President Kennedy's plan for settling the rail dispute to await results of a renewed negotiation between the industry and the train unions.

The House Commerce Committee suspended consideration of the administration plan after being briefed by Labor Secretary W. Willard Wirtz.

Chairman Oren Harris, D-Ark., said after the closed session with Wirtz that the committee's next step would depend on "any further developments."

Harris did not divulge any details of Wirtz's "status report" on the possibility of a negotiated settlement. Harris said he was "not at liberty" to speculate whether labor and management might be able to resolve their controversy without congressional action.

Another member of the committee said that he felt "neither more or less optimistic" after the session with Wirtz.

He indicated that Wirtz himself was not willing at this point to appraise chances of success.

**Resume Negotiations**

Meanwhile, carrier and union officials resumed negotiations with guidance from the Labor Department.

"This was a useful session," said Assistant Labor Secretary James J. Reynolds following a two-hour meeting. "I think both sides are seriously addressing themselves to the suggestions Secretary Wirtz made for bargaining."

Reynolds conducted the meeting along with Chairman Francis A. O'Neill Jr. of the National Mediation Board.

This morning's meeting involved the carriers and representatives of the Firemen's and Engineers' unions. Another session between the railroads and three train service brotherhoods—Conductors, Trainmen and Switchmen—was set for later today.

**Described As Exploratory**

The negotiations—first face-to-face bargaining sessions in several weeks—were described as "exploratory" by Reynolds.

It was learned that a recent "suggestion" for renewed negotiations put forth by Wirtz to both sides revolved around general recommendations made last spring by a presidential emergency board. Wirtz's proposals apparently would modify the board plan so that some of the

features considered objectionable by the unions would be altered.

In another development, Sen. Vance Hartke, D-Ind., said the "chances are good" that the Senate Commerce Committee might accept a plan he is co-sponsoring whereby the unions and the railroads would conduct a round of "glass bowl" type negotiations under the watchful eye of a congressional committee.

This is patterned after a recommendation by AFL-CIO President George Meany. But whereas Meany suggested open-ended talks, Hartke and others put in a stipulation that progress would have to be demonstrated in 60 days, else Congress would move back into the dispute.

**School Aid: Rep. Alphonso Bell, R-Calif., today moved for a show-down in the House on the controversial issue of stopping federal aid to segregated schools. Bell was set to offer an anti-discrimination rider to a federal aid bill for vocational education programs. Under Bell's proposal, federal aid would be banned to states practicing racial discrimination in vocational schools.**
