Mrs. Kennedy Cheered, Wants To Return Home

OTIS AFB, Mass. (UPI)—Mrs. Jacqueline Kennedy, greatly cheered by the visits of her two children, Caroline and John Jr., now is anxious to leave the hospital and return to the summer White House on Squaw Island.

The President brought the youngsters in separate visits Sunday for an affectionate reunion with their "Mummy," who has been grieving over the death of their little brother, born last Wednesday.

Caroline, nearly six, looking like a doll in a blue and white short shift, arrived with her father before noon. She carried a bouquet of black-eyed Susans, larkspurs and pink trumpet lilies she had picked near the summer White House.

John Jr., nearly three, helicoptered in on the evening visit and turned out to be a born scene stealer. Going up the hospital steps holding his father's hand, he asked loudly: "Where's Mummy?" He repeated "Where's Mummy?" several times down the stairs, several times down the stairs.

Neither child had seen their mother since she was rushed to the hospital here after taking them riding on their ponies last Wednesday. Both had been told they had a little brother — Patrick Bouvier Kennedy — who had gone to heaven.

The First Lady was making a rapid recovery from the caesarian birth of her third child. She was out of bed and walking for the first time Sunday. She urged her doctor to permit her to go home to her two tots right away.

As parents, the President and his 34-year-old wife appeared to be counting their blessings Sunday, despite their tragic loss.

A White House spokesman described Mrs. Kennedy as "greatly cheered up" by the visits of her two children.

Radio Dispatcher Post Open With City Police

Chief of Police John T. Truett announced that he has accepted the resignation of Faye Smith, radio dispatcher with the police department, and is now accepting applications for a replacement.

Mrs. Smith in her letter of resignation stated that her husband will be attending Eastern Oregon College at La Grande this coming year and that they will be moving to that city. Her resignation is effective Aug. 28.

Mrs. Smith served first as a meter maid, then as radio dispatcher on the 3 to 11 p.m. shift in the police office.

Qualifications require that the applicant be a high school graduate with valid driver's license and be able to type, meet the public and have some knowledge of radio dispatch work, teletype and of city ordinances and state laws.

At Lexington, N. C., police stepped between angry whites and Negroes outside a jail where three Negro youths were being held for the slaying of a white man in a race riot June 6.

The Negroes knelt and prayed outside the jail, and then Charles Poole — brother of one of the jailed Negroes — exchanged hot words with white hecklers.

When the white and Negro groups moved toward each other, police quickly took up positions in the middle of the street to keep them apart.

Other integration developments: Tuscaloosa, Ala. James A. Hood, 21, one of two Negro students expelled for criticizing dentists who entered the all-white University of Alabama under federal guard two months ago, quit to "avoid a complete mental and physical breakdown."

Senators Group To Call Valachi

WASHINGTON (UPI) — Joseph Valachi, one of the Justice Department's prized informers on crime and illegal narcotic sales in the United States, soon will be called before a Senate investigation committee to reveal publicly what he knows about large-scale crime syndicates.

Sen. John L. McClellan, D-Ark., said Sunday his Senate permanent investigations subcommittee would suspend its current examination of the controversial TFX fighter plane contract to hear testimony from Valachi for three or four days.

MCClellan said Valachi, a convicted narcotics seller, may provide enough information to serve as the basis for an expanded version of a subcommittee investigation of national and international narcotics rackets, planned for after the TFX hearings.

Government sources, meanwhile, have refused to give out further details about the New York hoodlum since they leaked the story last week that Valachi had been providing information about "Cosa Nostra," the nation's

top crime syndicate. He had been in the federal penitentiary at Atlanta, Ga., serving a life sentence when he began giving federal agents names and details about criminal organizations and activities.

Through Valachi, the Justice Department has learned of a dozen men believed to be the leaders of organized crime in America. He also has revealed details of nearly forgotten gangland murders and unsolved disappearances.

Valachi has a police record which dates from 1918 when he was 15. It showed 18 arrests in a 38-year period before his final arrest and imprisonment at Atlanta on narcotics charges. Most of the 18 charges brought against him during 38 years were dismissed.

In Secret Hideaway Valachi now is being held in a secret hideaway to prevent gangsters from assassinating him for giving information about their activities to the government.

The subcommittee counsel, Jerome Adlerman, and other staff members already have interviewed Valachi at the hideout to gain information which McClellan said he hopes to use to further show Cosa Nostra's multi-million-dollar operations in gambling, extortion, narcotics and loan-sharking.

Valachi, the son of Italian immigrants, was born in New York City in 1903. He reportedly is married and has two children.

Liquor Counts Jail Several

Roseburg City Police took into custody several persons in connection with liquor charges over the weekend and lodged another person, Wayne Douglas Smith, 21, Myrtle Creek, in the city jail Saturday night to face a drunken driving charge.

Keith Allen Muters, 24, Gresham, was charged with furnishing liquor to minors. He and Charles Vernon Eastwood, 20, and a 17-year-old boy and two 15-year-old girls, all of Portland, were taken into custody about 1 a.m. today. The latter four are charged with being minors in possession of alcohol.

Muters admitted furnishing the liquor and signed a statement to this effect, police said. One of the girls denied consuming any of the liquor. Those under 18 were turned over to juvenile officers and held for their parents.

They told police that the 17-year-old youth and the girls had gone to Grants Pass to take a friend, but on their return had car trouble near the Glendale Junction. They called Muters who came to assist them and Eastwood came along for the ride.

Taken into custody Saturday night were Jimmie Alan Tibbetts, 18, of Tillam, and Daniel Steven Criswell, 18, Canyonville, both charged with being minors in possession of alcohol and contributing to the delinquency of a minor. Apprehended with them was a 15-year-old Myrtle Creek girl, who was booked for illegal possession of alcohol. She was turned over to juvenile officers and then released to her parents.

City police took four persons into custody on vagrancy charges when they investigated reports that the men were observed along the railroad tracks. They had no visible means of support. Two other persons were picked up for being drunk.

VIOLENCE GROWS Integration Dispute Leads To Slaying Of Negro Girl

By United Press International Police kept extra patrols today in a Jersey City, N. J., neighborhood where a Negro girl was slain by a white man during a racial disturbance Saturday. The suspect was to be arraigned today in the shotgun killing.

In Mississippi a river ferryboat turned around in mid-stream Sunday to bring into custody 25 whites and Negroes who refused to use segregated waiting rooms. Police and sheriff's deputies at Plaquemine, La., arrested the group brought to shore by the ferryboat's captain. Officers said they would be charged with resisting arrest.

Ronnie Moore, a field secretary for the Congress of Racial Equality (CORE), said witnesses told him officers used their shoe heels to break the "passive-resistance armlock" of the group. Officers denied any brutality.

Surgeon Teams Separate Twins

LOS ANGELES (UPI) — Two teams of surgeons, working against a 56-hour deadline, successfully separated the Siamese twin sons of a leucopagus, Glendale, Calif., couple Sunday.

The operation on the day-old boys took three hours. Surgical teams of three doctors each were assigned to each baby in the operation.

"The best we can say is that they are in satisfactory condition," said a spokesman for Children's Hospital, where the operation was performed. "The critical, post-operative period will last from a week to 10 days."

Both infants were placed in incubators following the operation. The boys, Daniel Clifford and David Eugene were born Saturday at Glendale Sanitarium by Caesarian section to Mrs. Rebecca Bartley, 18. She and her husband, William, 19, gave permission for the separation.

The twins were the first children born to Bartley and his wife. She was reported in satisfactory condition at the sanitarium.

Doctors said the separation operation had to be performed within 36 hours of the twins' birth to tilt the scales of survival in their favor.

The operation was completed six hours before the deadline passed.

Dr. Dwight Galloway, chief surgeon at the hospital, who did not participate in the operation — said the twins were joined from their breastbone to navel.

Price Fixing Charged In Miracle Drug Sale

WASHINGTON (UPI) — Five leading U.S. drug manufacturers have been charged by the Federal Trade Commission (FTC) with conspiring to fix prices of a widely-used miracle drug.

The commission Saturday ordered the companies to tear up all price lists for tetracycline, a drug used to cure a great variety of bacterial infections, and publish new prices independently.

A basic ingredient of the drug is Aureomycin, the FTC said.

The five-man commission also claimed in an unprecedented move, the authority to take action to limit or completely halt enforcement of drug patent rights held by two of the firms, Chas. Pfizer and Co., Inc. and American Cyanamid Co.

The FTC charged they had obtained the patents unfairly by withholding important information from the U.S. Patent Office.

The other three firms charged were Bristol-Myers Co. and Bristol Laboratories, Inc.; Olin Mathieson Chemical Corp. (Squibb), and the Upjohn Co.

The FTC said it considered Bristol Laboratories a subsidiary of the Bristol-Myers Co.

Deny Charges Pfizer and Bristol-Myers promptly denied the charges, and along with Cyanamid, said they would appeal the order in federal courts.

The FTC said that Pfizer's 17-year patent on tetracycline could yield potentially more than a billion dollars in sales. Sales of the drug, "probably the leading antibiotic on the market today," it said, have run more than \$100 million annually.

The FTC order, which overruled its examiner's recommendations made after two years of study, told the companies that new price lists must be based on individual manufacturing and overhead costs, desired margins of profit and "other lawful considerations."

The regulatory agency gave each firm a deadline of 60 days from the date of its final order, which was not specified. An FTC attorney explained that the commission would first study and issue a second order dealing with the Pfizer and Cyanamid patents.

As the basis for its authority to prevent a patent's enforcement, the FTC cited Supreme Court decisions and its own powers inherent in the Federal Trade Commission Act. It said it used this power to prevent the public from being "classied among the mute and helpless victims of deception and fraud."

The commission charged the firms conspired by having frequent contacts, including exchange of up-to-date price lists, issued uniform price lists, identical bids to purchasers and identical dosage forms.

"We have not fixed prices. We obtained our tetracycline patent in good faith and without any impropriety."

Dr. Philip L. Bowman, president of Bristol Laboratories, said his firm would appeal "with confidence that our position will be ultimately vindicated."

W. G. Malcolm, chairman and chief executive officer of American Cyanamid Co., said his firm's lawyers "assure us that the examiner's initial decision exonerating Cyanamid and the other defendants was well founded."

U. S. Plywood Buys McCloud Interests

NEW YORK (UPI)—The United States Plywood Corp. has reached agreement to purchase all the assets of the McCloud River Lumber Co. located primarily in Northern California, for a sum in excess of \$40 million, it was announced today.

The announcement was made by Gene C. Brewer, president of U.S. Plywood, and L. G. Carpenter, president of the McCloud River firm.

Carpenter said the proposal had been approved by the board of directors and would be submitted to stockholders for approval at a meeting called for Aug. 29 in Minneapolis.

Properties of the McCloud firm are located principally about 300 miles north of San Francisco. They consist of a large, integrated lumber facility and 1.2 billion board feet of virgin timber, primarily pine, on 86,000 acres of land. McCloud also has under contract rights to an additional 1.1 billion feet of timber.

Brewer said U.S. Plywood would continue to operate McCloud's existing facilities in California. U.S. Plywood operates a large integrated forest products complex in Shasta County, directly adjacent to Siskiyou County where McCloud properties are located.
