North's two heart response was shows just about the actual North a Jacoby Transfer Bid (JTB). Aft-hand. (Five spades, 10 to 14 high er South responded by bidding two tribution.) It gives South a choice between playing three no-trump or four spades. South's first thought was to pass

South's first thought was to pass three no-trump. His own distribution was 4-3-3 and he had stoppers in every suit, Fortunately he noted that he only had one heart stopper and his partner might be weak there also. South also saw that he was going to play the hand anyway and all in all that four spades should be the safer spot. It was a pretty good decision. Playing at four spades he lost one heart, one spade and one club. Had he passed three notrump the heart lead would have set up four heart fricks before South could knock out the ace of spades and South would have gone down.

Of course, JTB has no monopoly on successful bidding. North would have made four spades just as
