## Ginny Batters Auto, Hunt Helpless Ship; 10 Men Aboard Claim Two

CAPE HATTERAS, N. C. (UPI) — Hurricane Ginny stalled 100 miles off the North Carolina coast today and battered a destroyer escort adrift with 10 persons aboard with howling winds and 40-to-50-foot seas.

Winds of about 90 miles per hour were reported near the center of the storm, seventh of the season and the first to threaten the eastern coast of the United States.

Hurricane winds of 75 miles an hour extended out 60 miles in all directions from the center of the storm, which boiled up Sunday night and sent gale winds and high tides crashing against North Carolina's storied Outer Banks.

A late Washington Weather Bureau advisory located Ginny about 100 miles southeast of Cape Hatteras.

In this same vicinity the disabled destroyer escort USS Fogg was adrift after its tow rope snapped two days ago. Ships and planes searched through blinding rain for the vessel.

"With just 10 men aboard they're probably just doing their best to hang onto the rails in 40-to-50-foot seas," a Coast Guard spokesman at Portsmouth, Va., said.

The Weather Bureau said Ginny would likely continue its slow progress during much of today.

"Hurricane Ginny is expected to move very slowly during the next 12 hours, probably towards the east-northeast about 5 miles per hour. Intensity should remain about the same during the next 12 to 24 hours," the Weather Bureau said.

Gale force winds raked the Outer Banks but the hurricane-wise inhabitants of the sand spits off the North Carolina coast refused to move out until the hurricane took on a more definite pattern of movement.

United Press International staff photographer Joseph Holloway Jr. reported from Manteo, N. C. that strong winds almost toppled the phone booth from which he was talking.

Heavy surf pounded the silvery dunes along the Dare County coast early today. Wind gusts up to 70 miles an hour were reported in the Nags Head area.

The Fogg, a decommissioned destroyer escort, was bouncing helplessly in the hurricane with its engines and most of its equipment not operating.

Tides from the Virginia Capes southward along the North Carolina coast were expected to continue 2 to 3 feet above normal today and tonight with some flooding at time of high tides, the Weather Bureau said.

Rough heavy pounding surf along the outer coast will continue to cause beach erosion.

Two deaths by violence were reported over the weekend in Douglas County — one involving the discovery of the county's 27th traffic fatality and the other the first hunting fatality of the year in the county.

The body of Gene Joseph Wentworth, 22, of Independence, was found where his automobile went over a high bank about a mile west of Drain on Highway 38, according to state police.

**Man Reported Missing**

Wentworth had been reported missing on Sunday, Oct. 13, and it is believed the accident took place that day. His body was found Friday evening, and the report was relayed by Drain City Police to state police at Roseburg.

The car was westbound on Highway 38 when it went over the bank on the south side of the highway. The vehicle traveled 95 feet over the bank, taking out the tops of several trees, flipped end over end and landed on its top on a large boulder in Elk Creek. The car was demolished.

Wentworth, listed as Douglas County's 27th traffic fatality of the year, is believed to have been killed outright. The body was removed to Mill's Mortuary at Drain.

**Bullet Kills Man**

In a hunting accident late Saturday afternoon near Gardiner, Harry Richard Saville, 38, of Box 931 Woodruff St., Coos Bay, was killed when struck in the chest with a .308-caliber bullet from the gun of Calvin Tenberghy Jr., of Port Orford. State and county officers are investigating.

According to Dawn Pescau, Reedsport correspondent, the fatality occurred in the vicinity of Big Creek, in the Smith River country about 38 miles up Weatherly Creek out of Gardiner. Deputy County Medical Examiner Dr. Donald Courtney and Unger Ambulance accompanied state and county officers to the scene of the fatality following a report made at 6:15 Saturday by Carl Buffington, who was in the Big Creek area at the time of the shooting.

Hunting companions of Saville besides Tenberghy were Richard T. Willa and A. Warr, both of Coos Bay. Details of the accident were not immediately known.

The body was removed to Unger Mortuary at Reedsport.

## Glendale Is Seeking New Superintendent For School System

Glendale is looking for a new school superintendent in the wake of some lightning actions taken by the former superintendent and the School Board.

In a letter received by The News-Review today, Supt. Jack F. Johnson reported he had resigned effective today. Although simultaneously, the School Board announced it had accepted the resignation.

The board also told correspondent Mrs. G. B. Fox of Glendale that some of the members of the School Board would come to Roseburg Tuesday to confer with County School Supt. Kenneth Barneburg on action to be taken now.

Meanwhile, Calvin Fricke, high school vice principal, has been elevated to the job of acting superintendent until permanent arrangements are made for a successor to Johnson.

Johnson came to Glendale to take the superintendent's job in 1962 from Lakeview.

In his letter, Johnson indicated his decision to resign was prompted by "the latest issue," a protest to what he called "inaccurate articles" covering a school lunch story last week. The incident occurred when the school district headcook, elementary head cook and elementary assistant cook resigned.

They allegedly objected to retaining one of the members of the cooking staff. They indicated she was not able to carry her full work load.

The board had taken the step of demoting the cook in question to part-time helper. This brought a major protest from the community in the form of a petition to the school board. The board reversed its decision and reinstated the cook. It was then the other cooks resigned.

For the last week, the district's two school lunch kitchens have been closed, and the youngsters in the schools have been bringing their lunches.

In another new development today, Board Chairman Rodney Swanson reported the cafeteria would open again Thursday with a full staff on duty. He said details of a compromise agreement with the cooling staff would be revealed after this Wednesday's School Board meeting.

Johnson, meanwhile, reports that after the story appeared in The News-Review about the resignations of the cooks, he told Glendale News-Review correspondent "she was not to contact him any further regarding news and that as long as he was superintendent, she would not be taking any more pictures in the schools." He explained that last spring, the board had decided to allow Mrs. Fox to take student pictures in the schools, "so they were reluctant to go along with the superintendent's decision."

Johnson, father of seven children, says he has no immediate plans other than to find employment. He owns his home in Glendale.

**HEADING TO ACTION** — Royal Moroccan Army soldiers are shown here being issued hand grenades at a desert outpost near Marrakech before setting out for the front Sunday. Algerian authorities said in Algiers that Moroccan fighter planes violated Algeria's air space and forced an unarmed Algerian Army helicopter to land on Moroccan soil. Earlier, Moroccan officials announced that an Algerian helicopter had been captured by men of the Ait Kabbach tribe after the craft landed at Ain Choouter, about 90 miles northwest of Colom Bechar. (UPI Photo)

## New Troops Leave For Sporadic War On Algeria Border

ALGIERS (UPI)—Commander private planes flew three battalions of fresh Algerian troops Sunday to the disputed border area where the army is fighting a sporadic, undeclared border war with Morocco.

No fighting has been reported since Friday, but Algeria charged that Moroccan fighter planes crossed the border Sunday and forced an Algerian

army helicopter to land in Morocco. (Moroccan authorities said five of the nine men aboard the helicopter forced down at the border hamlet of Ain Choucer were Egyptian officers. The nine were civilian clothes, but at least one was armed with a submachine gun, the Moroccan said.)

The reinforcements picked up Sunday at Maison Blanche Airport here were flown to Colomb Bechar, a forward post in the "combat zone" about 1,000 miles southwest of Algiers.

The official Algerian Radio announced today that Ethiopian Emperor Haile Selassie is postponing a visit to France and will fly here today, four days ahead of schedule. There was speculation that Selassie might try to mediate the dispute.

The fighting began two weeks ago, when Algerian troops occupied the border posts of Hassi Beida and Tinnjoub in territory claimed by both nations.

Moroccan troops reoccupied the outposts a week ago today ("inflicting heavy losses and damage on the Algerians," according to the Moroccan, and they have been the focus of sporadic fighting since.

**Coast Gets Second Tidal Wave Warning**

SAN FRANCISCO (UPI)—For the second weekend in a row, an earthquake near Japan put the Hawaiian Islands and the California coast on a tidal wave alert.

And, for the second weekend in a row, the threatened tidal wave amounted to little more than a ripple in the Pacific.

The earthquake struck north of Japan Saturday night. Civil defense officials in Hawaii sounded the alert on all islands and ordered the evacuation of all beachfront areas.

But the tidal wave measured just one foot as it passed Midway Island and was even lower when recorded at Hawaii.

There was no indication of whether the wave ever reached the California coast.

**Monoxide Poisoning Puts Man In Hospital**

J. H. Sullivan of Roseburg was taken to Albany General Hospital over the weekend as the result of what appears to have been possible carbon monoxide poisoning.

He was believed to have been poisoned while riding in the back of a camper-style pickup truck. According to the Albany report, his wife stopped for gasoline at a service station in Albany and found when she opened the door that he was unconscious. Fumes from the truck's exhaust apparently came under the door while Sullivan was sleeping, his wife reports.

## Viet Battle Claims 13 Americans

SAIGON, South Viet Nam (UPI) — Communist guerrillas killed 42 Vietnamese soldiers and wounded 13 U.S. officers and men in one of the biggest battles of the war, U.S. military spokesmen announced Sunday.

The Communists lost 30 dead in the fighting 150 miles southwest of Saigon. Vietnamese wounded numbered 83. The American casualties—eight officers and five enlisted men—was the highest number incurred in a single battle since U.S. advisers began aiding Vietnamese forces in the fullscale campaign that began in 1961.

The military spokesmen withheld word of the battle 24 hours. The Communists attacked Saturday morning, driving against a government force twice as large as their estimated battalion strength.

The battle was not fought on the usual hit-and-run guerrilla plan. The Communists made a frontal attack, cutting down government troops with machinegun fire and pinning them down in rice paddies.

Most of the Americans wounded were pilots and crewmen of aircraft ferrying troops to the battle area and striking at the Communist positions. The guerrillas shot down one troop carrier helicopter and damaged a twin-engine B26 bomber so badly it crashed while attempting to land. They hit a total of 14 aircraft.

The Communists incurred most of their casualties in air strikes. They withdrew without difficulty at nightfall, military sources said.

Although the American casualties were described as the heaviest of the war in a single battle, at least 12 and possibly 13 U.S. crewmen were killed two weeks ago in the crash of a fighter bomber and of two helicopters searching for it.

Apparently the military did not consider these victims battle casualties, although there was a possibility the helicopters collided because of ground fire from the Communists.

Home spent the weekend attempting to patch the split in the Conservative party caused by the battle to succeed ailing Harold Macmillan, who retired Friday, selecting Home as his replacement.

Home won all but two of his opponents for the cabinet, including former Deputy Premier R. A. Butler, who had been considered the favorite to succeed Macmillan.

Those who refused to serve were Ian MacLeod, co-chairman of the Conservative party and leader of the House of Commons, and Enoch Powell, former health minister. Both led the revolt against the selection of Home, but neither gave a reason for not joining his cabinet.

"I am sorry they did not feel they could accept office," Home said Sunday. "It does not mean the party is split. I have no doubt they will give me the most loyal support."

Home was reported considering asking Queen Elizabeth to delay the resumption of Parliament until after Nov. 7, when he will run for election in the House of Commons.

Labor has opposed such a delay — Parliament now is set to reconvene Oct. 29 — but the Queen has the right to set the date. Labor leader Harold Wilson said such a request would be "an impertinence."

Home, a 60-year old Scottish peer, could remain in the House of Lords and still serve as premier, but he would not be able to function effectively. Peers cannot appear in Commons and it is in the lower house that the policy debating and decision-making takes place.

Home said Saturday he would resign his earldom — a title more than three centuries old — and contest a byelection in Kinross, Scotland, to get in Commons. The Conservative candidate withdrew in Home's favor. The seat is considered a safe one — the Conservatives won the last election there by more than 12,000 votes.

**Mushroom Hunters Safe In Woods Near Florence**

FLORENCE, Ore. (UPI)—An elderly Hollywood, Calif., couple, missing overnight in a heavily-wooded area near here, was found safe today, police reported.

John Farneman, 79, and his wife, Ethel, 76, were located by searchers about 9:15 a.m. and were reported in "pretty good condition."

The couple became lost about eight miles south of here between Highway 101 and Siltcoos Lake Sunday.

More than 100 searchers, aided by three helicopters, fanned out on the search today. The couple had been last seen at 10 a.m. Sunday when they told other residents at the Fish Mill Lodge on the lake they were going on a mushroom hunting trip.

They left a note saying they would be back at 1 p.m. A search was started when they failed to return by 4:15. About 35 men, aided by bloodhounds, covered five square miles before darkness forced them to give up about 10 p.m.

The bloodhounds did locate four searchers who had become lost in the heavy underbrush. Heavy rain fell and a light wind blew during the night, but the temperature stayed about 50 degrees. The couple was wearing only light cloth.

Oregon State Police, the Lane County sheriff's office, Florence city police and the Siuslaw Rural Fire District combined their facilities to coordinate the search.

## U.S. Assembles Troops, Planes For 'Big Lift'

FT. HOOD, Tex. (UPI) — The United States assembled troops, aircraft and planes from Texas to Maine today to show the world that it can put 16,000 Army and Air Force men with supporting aircraft in Germany within 72 hours.

The project, whose code-name is Operation "Big Lift," begins one minute after midnight tonight when a C135 jet transport takes off with 70 men from the 2nd "Hell on Wheels" Armored Division in it.

The 2nd Division will supply 13,000 of the troops. Transport planes will take off from four air bases at intervals ranging from 35 minutes to an hour until a total of 14,500 troops-tankers and infantrymen from Fort Hood and artillerymen from Fort Sill, Okla., are in Germany.

The troop-carrying transport planes will take off from Bergstrom Air Force Base in Austin, Texas, Sheppard AFB, Wichita Falls, and Gray Army Air Base, next door to Ft. Hood.

Men Getting Prepared

Second Division men assembled in battalion areas at Ft. Hood today, checking equipment and packing duffelbags. The personnel carriers they will use are already in Germany.

The first units will start moving out by dusk at 10 p.m. EDT from Ft. Hood to the air bases. The troops will move out, board planes and take off by a schedule as precise as that which governs the launching of a man into space.

When the troops arrive in Germany, they will have a couple of days to get tanks out of storage. An advance party of 472 men arrived in Germany Saturday to establish communications and set up headquarters.

It will take from 10 hours and 25 minutes to 31 hours and 25 minutes for troops to reach Europe, depending on the type of plane they ride and the route it takes.

**Tito Will Visit Princeton Today**

NEW YORK (UPI)—President Tito of Yugoslavia heads for Princeton University today for a tour of the campus.

The stocky Communist leader was scheduled to lunch with Princeton President Robert F. Goheen following a tour of the plasma physics laboratory at the university's Forrestal Research Center.

Tito also was to meet with George Kennan, former U.S. ambassador to Yugoslavia and now a professor at the Institute for Advanced Studies.

Tito's arrival Sunday at Idlewild International Airport was uneventful, but he was greeted a short time later by about 50 demonstrators when his motorcade arrived at the Waldorf-Astoria Hotel in Manhattan.

The demonstrators carried placards denouncing him for religious and political crimes and chanted: "Tito murderer." Police kept the demonstrators from Tito's party.

Tito was accompanied by his wife, Jovanka, and appeared to be in the best of health despite his two-day bout with the flu late last week.

**Bomb Warning Empties Movie**

KLAMATH FALLS (UPI) — The Tower Theater here was evacuated by about 260 patrons late Saturday while police searched the building for a bomb a phone caller said was there.

Officers said the patrons were ushered into the street for about 45 minutes after a voice on a telephone told a theater worker a bomb was planted in the building.

Officers said the call was apparently the work of a prankster.

## Two Missing In Air Crash

HAMILTON, Bermuda (UPI) — Local fishermen aided the U.S. Navy, Coast Guard and Air Force today in an intensive search for two missing crewmen of an American air tanker which crashed near here Sunday with eight men aboard.

The names of the two missing men—the pilot and radioman of the Air Force's big KB50 tanker—were not made public. The six other crewmen were picked up by helicopter Sunday.

The cause of the crash was not determined.

The four-engine plane, an adaptation of the B29 Superfortress of World War II, was on the way from Bermuda to its base at England Field, near Alexandria, La., when it crashed 16 miles west of here early Sunday.

The rescued crewmen were taken to the hospital at the U.S. Air Force's Kindly base here. T.Sgt. E.M. Corbin suffered a broken leg in parachuting from the crippled plane, but the others escaped serious injury.

The other rescued crewmen were Capt. F.W. Sellers, 1st Lt. N.T. Tilton, T.Sgt. J. Samaripa and Airmen 2-C D. Strong and W. I. Webster.

MRS. W. O. KELSAY to serve in House.

by the Douglas County Democratic Central Committee. She will hold the office until the next county election, and her immediate duty will be to attend the special legislative session on Veteran's Day, Nov. 11.

This session was called by Gov. Mark Hatfield to consider the fiscal crisis caused by last Tuesday's defeat of the \$60 million income tax measure.

Mrs. Kelsay advised the court today of her acceptance. County Court members indicated they were pleased to appoint someone who has had the advantage of legislative knowledge and experience. Mrs. Kelsay assisted her husband as secretary during his legislative service.

"We are confident that she will represent Douglas County as capably as her husband did," said Commissioner R. y Doerner, on behalf of the court.
