He promised the mass of students crowding around him the football Indians would be out to win. They did Friday night, 21-0 over South Eugene's Axemen. (News-Review photo)

Tito Happy Over Visit

NEW YORK (UPI) — Yugoslav President Tito, 57, convinced that his trip was a "useful contribution to peace," was on his way home today from his first state visit to the United States.

The Communist leader was in good spirits as he boarded the liner Rotterdam Friday. He said he was leaving the country "with a fine impression despite some provocation from a small element."

Also presumably in good spirits at the departure was Police Commissioner Michael J. Murphy.

During Tito's six days in the city, Murphy took the brunt of criticism from Tito's aides who complained about inadequate security measures.

The complaint stemmed from a series of incidents involving the "small element," demonstrators identified as anti-Communist Yugoslavs who fled the country with Tito's rise to power after World War II.

The incidents continued right up until the time of Tito's departure. A short time before he was to board ship, an anonymous telephone caller warned of a bomb aboard. The vessel was searched from top to bottom, delaying Tito's departure 40 minutes.

Proposal Would Restore Stock Dividend Credit

WASHINGTON (UPI) — Senate tax writers today studied a new proposal to restore the tax benefits for stockholders in the tax reduction and reform bill already approved by the House.

The suggestion, proposed by Sen. Everett M. Dirksen, R-Ill., would allow the 10 per cent dividend credit, stricken by the House, to be restored to the \$11 billion tax cut measure. However, there would be a limitation on the amount of income from stock dividends that would be eligible for the credit.

The proposal by the Republican leader was made Friday during a hearing of the Senate Finance Committee on the administration's tax program.

Dirksen said that Chairman Harry F. Byrd, D-Va., had agreed to have staff aides study the compromise and prepare data on cutoff points.

The dividend credit was first written into the tax laws in 1954 by a GOP-controlled Congress. However, the House Ways & Means Committee this year repealed the amendment.

As a balance, it raised from \$50 to \$100 the initial amount of dividend income that can be exempt from tax. Overall, the Treasury estimates the changes would produce \$300 million a year in additional revenue.

The administration was expected to oppose vigorously Dirksen's proposal, because it would reduce new revenues expected from repeal of the stock credit.

Adlai Receives Texas Apology

DALLAS, Texas (UPI) — The Dallas Chamber of Commerce told Adlai Stevenson, U.S. ambassador to the United Nations, Friday that the roughing-up he received Thursday night "did not represent the heart or the mind of this great city."

Dallas is outraged and abjectly ashamed of the disgraceful discourtesies you suffered at the hands of a small group of extremists here," a telegram sent to him in Beverly Hills, Calif., said.

Stevenson was jostled, cursed, spat on and hit with a sign as he emerged from Dallas Memorial Auditorium following a speech celebrating U.N. Day in Texas.

"We most sincerely apologize to you in behalf of more than a million sane and patriotic citizens, who, regardless of political affiliation or belief, recognize you as a distinguished American and were proud and happy to have you in our midst."

Sen. John G. Tower, R-Tex., said the anti-Stevenson demonstrators were "representative of a reaction against using the United Nations as a keystone of our foreign policy."

But Tower said he did not countenance that type of demonstration. It is an unfortunate exhibition and I don't know of any conservative who would resort to violence.

Dear Abby!

The Defense Rests!

— By ABIGAIL VANBUREN —

DEAR ABBY: I notice in your column so many people complaining about the high cost of drugs. I, for one, would never complain. If sulphur had been in existence in 1933, I might have had a pair of twins celebrating their 30th birthdays this Christmas.

"BLUE BOOTIES"

DEAR ABBY: Today's prescription is the biggest bargain in history. Mozart, the great Austrian composer, died at the age of 35 with a simple fever! Robert Louis Stevenson died at 44 with tuberculosis. Felix Mendelssohn, 38; Jack London 40; Robert Burns, 37; Chopin, 39; Keats, 26; Lord Byron, 36; Jean Harlow, 26; Rudolph Valentino, 31; George Gerzshwin, 39; Thomas Wolfe, 38. Think what these talented people might have accomplished had they lived another 30 or 35 years! Modern drugs almost surely would have extended their lives.

NO COMPLAINTS

DEAR ABBY: I was shocked to learn that people are stupid enough to resent not being able to return medicine. There is a law which prohibits returning prescribed drugs. This is for the consumer's protection. How does the pharmacist know what has happened to the drugs once they have left his store? Wouldn't the crooks have a field day ordering drugs in capsule form, extracting the medication, filling the capsules with

sugar and returning them to the store!

NEW PILLS, PLEASE

DEAR ABBY: Twenty years ago it took an average of three months' wages to pay the hospital bill resulting from a case of pneumonia. Today, a case of pneumonia can be cured at home—with drugs that cost an average of only five hours' wages. Please be fair, and print this for all those people who think prescribed drugs are "expensive."

C. D. A.

DEAR ABBY: I'd like to tell Harold of Gardena a thing or two. He says all the pharmacists in California are paid a minimum of \$7 an hour. Ask him where, please? It takes a man six years of college and \$10,000 to become a pharmacist. A plumber doesn't need a college education and he earns more. And furthermore, he isn't taking someone's life in his hands every time he picks up a wrench.

Mediation Effort Futile In Strike

PORTLAND (UPI) — Negotiations between union leaders and Weyerhaeuser Co. officials here Friday failed to settle a strike which has shut down the firm's Coos Bay area operations, federal mediator Leroy Smith reported.

Another session was scheduled for next Wednesday.

The strike, which has idled 580 men for more than a week, was called by International Woodworkers of America local 3261.

Friday's talks involved local and regional union officials and Weyerhaeuser representatives from its main office in Tacoma and from Coos Bay.

Smith did not disclose details of the bargaining session or the exact nature of the employees' grievances. However the union earlier demanded higher pay if members of boom crews used power saws, and pay for workers suspended by Weyerhaeuser when they laid off to attend union strategy sessions.
