Khrush Calls For Accord

On Banning Use Of Force

In Territorial Disputes

MOSCOW (UPI)—Premier Nikita S. Khrushchev has asked world leaders to reach agreement on banning the use of force in settling territorial disputes, including those involving Germany, it was learned today.

Khrushchev, in a note to world leaders that was broadcast over Moscow Radio, said such a pact would make it easier to solve basic cold war problems.

Moscow Radio quoted the note as saying "one should renounce the use of force in settling the question of the reunification of such states as Korea, Viet Nam, Germany."

The text of the 4,000-word note was delivered to world capitals during the past 48 hours.

It urged a four-point plan which comprised a pact repudiating the use of force in settling territorial disputes; acknowledgment that territories of states should not even temporarily be attacked, invaded or occupied directly or indirectly; obligatory peaceful solution of border disputes in accordance with the United Nations Charter; and a declaration that differences in social systems or lack of diplomatic contact should not serve as a reason for one nation to violate the boundaries of another.

Nkrumah

Subdues

Assailant

ACCRA, Ghana (UPI)—President Kwame Nkrumah overpowered and disarmed the man who tried to kill him with five pistol shots, officials said today.

One of the president's security guards was killed by the shots Thursday. It was the third unsuccessful attempt against the 54-year-old Nkrumah in the last 17 months and the fourth since 1950.

Officials said Nkrumah took the pistol away from the unidentified man, who was wearing a police uniform, and knocked him down before soldiers and police closed in outside flagstaff house, the presidential residence.

"Don't hurt him. Don't kill him. Put your guns down," the president was quoted as saying.

Despite the fact the assailant wore a police uniform, informed sources said it still was not clear whether he actually was a member of the force.

The government said all five shots were fired at close range Thursday but all missed the president.

Sinatra Suspects

Indicted By Jury

LOS ANGELES (UPI)—Indictments against the three accused kidnapers of Frank Sinatra Jr. were in the hands of federal authorities today along with orders for the arraignment of the trio on Monday.

It was believed the young singer was a principal witness at the secret federal grand jury hearing which ended Thursday.

Six indictments were delivered to federal Judge Albert Lee Stephens Jr. Conviction of all six could mean as much as life imprisonment and \$35,000 in fines for each man.

Walsh Is Confident Rocketfeller

Will Win Oregon Primary Nod

PORTLAND (UPI)—The minority leader in the Oregon House of Representatives, F. F. (Monte) Montgomery of Eugene, has been appointed field executive for the Rockefeller for - President campaign in 35 Oregon counties.

The announcement was made Thursday by Rockefeller's state chairman, William E. Walsh of Coos Bay. Montgomery will be responsible for organizing and operating campaign headquarters throughout the state, except in the Portland metropolitan area.

Montgomery did not attend the conference, but released a statement saying he was confident the New York governor would carry the state in its May 15 primary and "provide the Republican Party its best opportunity for victory in November."

Walsh said both he and Montgomery will work without salary.

Walsh, an attorney and radio station owner, said he would resign as president of the State Board of Higher Education sometime this month, before the Rockefeller campaign gets under way here.

Rockefeller will make his first campaign visit to Oregon Feb. 8, Walsh revealed. He is scheduled to tour the Willamette Valley and Southern Oregon and attend a Portland Board of Realtors luncheon Feb. 7 and a banquet of the Oregon Junior Chamber of Commerce in Salem Feb. 8.

"I'm a firm believer that the people of the country are so close to their own real problems that they want leadership. The fundamental things the country stands for will be decisive, and the fact that a candidate has been married twice won't enter into it," he said.

Oregon Records

First 2 Fatalities

By United Press International
Oregon recorded its first two traffic deaths of 1964 Thursday.

The victims were Leona May Hall, 32, Newport, and Walter Herren, 79, Van Nuys, Calif.

Mrs. Hall was killed and seven others were injured in a two-car collision at Newport Thursday evening. Most seriously hurt of the others was Carol Villers, 16, Newport, whose conditions was listed as "poor" today.

Herren died in a Salem hospital about five hours after his parked car was struck by a state-owned car driven by Henry Charles Classen, 62, Dallas, Ore. State Police said Herren was standing alongside his car on the southbound parking strip of Interstate 5 about 4 miles north of the Woodburn Junction. Herren was struck by his own car.

Classen, an employee of the secretary of state's office, was reported in satisfactory condition.

In addition, Clayton Foote, 57, Newberg, died Thursday in a Newberg nursing home. He was injured last year in an auto accident near Portland.

Alcoholic Taxpayer

Can Deduct AA Fare

WASHINGTON (UPI)—The Internal Revenue Service (IRS) says an alcoholic taxpayer can charge off car fare as a deduction if he goes on the wagon.

The ruling came when a taxpayer asked permission to deduct the cost of traveling to and from meetings of his local Alcoholics Anonymous chapter. His doctor said he had to join AA to get cured.

According to the latest issue of the IRS bulletin, the cost of transportation to and from the AA meeting was, therefore, a medical expense that could be deducted from the man's taxable income.

WASHINGTON (UPI)—The Agriculture Department said today it has sold \$32 million worth of government wheat to a private trader.

The announcement did not say so but it was understood the wheat was bound for the Soviet bloc.

A department spokesman said the wheat, classified as No. 2 hard amber durum, was sold for \$2.50 per bushel (FOB East Coast). The sale involved 12.9 million bushels.

The department would not identify at this time the private trader involved.

Sources in Kansas City, Mo., said Thursday night, however, that the Continental Grain Corp. had made a wheat sale to the Soviet Union for about \$30 million.

KHRUSHCHEV TOURS EXHIBIT — Wearing one of his many fur hats, Soviet Premier Nikita Khrushchev, center, has a serious expression as he glances at a women's fashions exhibit recently. According to the Soviet news agency Tass, Khrushchev was touring the Light Industry Pavilion of the U.S.S.R. Economic Achievements Exhibition. (UPI Telephoto)

Pope Paul To Make History

During Visit In Holy Land

VATICAN CITY (UPI)—Pope Paul VI today devoted himself to prayer and preparations for his "journey of search and hope" to the Holy Land Saturday.

The 66-year-old pontiff, who began his reign little more than six months ago, will be making history in many ways on his three-day pilgrimage to the places Christ lived, in what is now Jordan and Israel.

He will be the first Pope to visit the Holy Land and the first to fly. He will be the first to leave Italy since 1812.

But since the Pope announced plans for the visit last month, world attention has focused on another first—the first meeting between a Pope and an Eastern Orthodox patriarch in 526 years.

Pope Paul will confer twice with Patriarch Athenagoras I of Constantinople. Their aim is Christian unity, but no one looks for a quick or easy end to the differences that have divided the 500 million Roman Catholics and 157 million Orthodox for centuries.

Pope Paul's predecessor Pope John XXIII, began this drive for Christian unity with the Ecumenical Council. In carrying it a step further, Pope Paul has had to seek neutral ground for his meeting with the Orthodox leader, who declined an invitation to send delegates or attend the council.

In so doing, the pontiff has abruptly changed the tradition of the Pope as "prisoner of the Vatican." Until 45 years ago, no Pope even ventured out on an auto trip into Rome. The exception was Pius XII, forced to go to France by Napoleon in 1804.

Many Security Risks
The change brings with it unprecedented security risks. Jordan and Israel are technically still at war and there is a long history of religious strife in the Holy Land among the Moslems, Jews and five Christian sects.

British Set

Cyprus Meet

NICOSIA, Cyprus (UPI)—British "peacemaker" Duncan Sandys returned home today carrying a pledge from the government of Cyprus to try to resolve differences between its Greek and Turkish communities at the conference table.

The conference will be held in London, probably by the end of the month. The meeting is expected to be attended by representatives of both the Greek and Turkish factions on this island, and of Britain, Greece and Turkey—the three North Atlantic Treaty Organization (NATO) members who have guaranteed the independence of Cyprus.

Fighting between the Greek and Turkish communities on Cyprus has taken an estimated 200 lives in the past 10 days. Cyprus is a member of the British Commonwealth.

Sandys, Britain's minister of Commonwealth relations, departed Thursday night to end a six-day emergency mission to this troubled Mediterranean island.

His efforts to find a peaceful solution to the problem of Cyprus were spurred by an announcement by Archbishop Makarios, the island's Greek president, that he hopes to abrogate treaties with Britain, Greece and Turkey.

Relay Satellite

Refuses To Die

WASHINGTON (UPI)—The National Aeronautics and Space Administration has a problem—Relay 1, its brilliant television station in the sky, refuses to die.

Launched Dec. 13, 1962, the 172-pound Relay was supposed to destroy itself on or about its birthday last month to choke off possible interference with a more advanced Relay, scheduled for launch Jan. 21.

An electrolytic solution was supposed to eat its way through a cable aboard Relay 1 and cut off its transmitting power. Experts believe the solution's effect may have been slowed by lower-than-anticipated temperatures aboard the craft.

Goldwater Says He'll Seek

'64 Republican Nomination

PHOENIX (UPI)—Sen. Barry Goldwater, under pressure from thousands of supporters of his conservative views, today announced he will seek the GOP nomination for the presidency in 1964.

The front-running choice of the nation's conservatives stepped from his \$100,000 mansion to face a gathering of 100 reporters and cameramen in a dazzling sun to make his announcement.

He also indicated he would file for re-election to his Senate seat, which probably would be sought by Arizona Gov. Paul Fannin if Goldwater gains the GOP nomination.

Bus Accidents

In Peru Kill 15

LIMA, Peru (UPI)—Bus accidents on the precarious roads of the Peruvian Andes killed 15 persons and injured 55 Thursday night, it was reported today.

All of the victims were Peruvian.

The worst of the two accidents happened near Mantara, 130 miles east of Lima, where a bus plunged into a ravine, killing 11 persons and injuring 28.

Near Cajamarca, 350 miles north of Lima, a bus ran off the road, turned over eight times, and burst into flame. Four persons were killed and 27 were injured.

Survivors charged that in both instances the regular bus driver was asleep and a relief driver was at the wheel.

First Soviet

Wheat Sale

\$32 Million

WASHINGTON (UPI)—The Agriculture Department said today it has sold \$32 million worth of government wheat to a private trader.

The announcement did not say so but it was understood the wheat was bound for the Soviet bloc.

A department spokesman said the wheat, classified as No. 2 hard amber durum, was sold for \$2.50 per bushel (FOB East Coast). The sale involved 12.9 million bushels.

Signals Spur

Hope For Nine

Aboard C124

HONOLULU (UPI)—Spurred by three strong SOS signals and a light in the ocean, an air and sea rescue fleet fanned across a wide area of the Pacific today in search of nine men who went down aboard their C124 Globemaster.

The SOS signals were clearly heard Thursday night by a military pilot flying the same 2,100-mile Wake Island to Hawaii route as the ill-fated cargo plane, which was carrying eight crewmen, a military passenger and a dead body when it went down earlier in the day.

The light was reported later Thursday night by a search pilot, who said it flashed in the ocean near where the giant Globemaster was believed to have ditched.

An Air Force spokesman said the pilot was unable to tell whether the light came from a flashlight or from some fluorescent object in the sea.

Search aircraft returned to the area after sunrise today.

Thousands

Visit Kin

In E. Berlin

BERLIN (UPI)—Thousands of West Berliners went through the Communist wall into East Berlin today and thousands more sought passes to visit their relatives in the East before the wall closes Sunday.

West Berlin police said 15,631 persons had gone through the wall by mid-morning at four major crossing points on the 15th day of the Communists' Christmas gesture.

East Berliners have not been able to cross the wall to the West and some of them were reported demanding the anti-refugee barrier be torn down.

Unless a last-minute agreement is reached to keep the wall open, it will close again to West Berliners at midnight Sunday.

The Information Bureau West, a private West Berlin intelligence agency, Thursday quoted workers in East Berlin as telling Communist leaders in their factories that instead of issuing passes to get through the wall, the East German government should tear it down.

Although the pass agreement does not expire until Sunday, today was the last day for West Berliners to apply for passes at special offices manned by East German postal officials in the gymnasiums of 12 West Berlin schools.

Both East German and West Berlin officials have said they want to keep the border open after Sunday, but Western officials said neither side has made a formal offer to open new negotiations.

The missing four-engine plane normally carried eight men of the 28th Air Transport Squadron at Hill Air Force Base, Ogden, Utah. It made a refueling stop at Wake Island Wednesday and then took off with its crew, 11 tons of cargo taken on at Tachikawa Air Force Base near Japan, and a passenger identified as Machinist Mate 1st Class Francis E. Elliott of Chula Vista, Calif.

It was due from Hickam Field Thursday at 5:30 a.m. (EST) and made its last radio contact at 1:59 a.m. (EST). At 10 a.m. (EST), it was presumed out of fuel and down in the Pacific.

Those aboard the missing plane were identified as follows:

1. Capt. Thomas A. Cunningham, 34, aircraft commander, lives with wife and two children at Sunset, Utah.
2. 1st Lt. John H. Hykes, 25, pilot, lives at Sunset, Utah, with wife and two children.
3. 1st Lt. David Holt, 24, pilot, lives with wife and one child at Hill Air Force Base.
4. 1st Lt. Gordon C. Crandall, 27, navigator, wife lives at Bountiful, Utah.
5. Capt. John T. Kastigar Jr., 31, navigator, lives at Hill AFB with wife and three children.
6. M.Sgt. Michael O'Malley, 39, lives with wife and 14 children at Clearfield, Utah.
7. T.Sgt. Marvin E. Luce, 27, flight engineer, lives with wife and two children at Hill AFB.
8. T.Sgt. Francis X. Hiltz, 38, flight engineer, lives with wife at Hill AFB.
9. Francis E. Elliott of Chula Vista, Calif. His wife, Florence, lives at the same address, and his parents, Mr. and Mrs. Medford F. Elliott, reside in Delmar, Del.

Goldwater

Knowland Backs

Goldwater

Former Sen. William F. Knowland, onetime Senate majority leader from California, was among the first to tab Goldwater as a presidential candidate and has been working all year in his behalf.

A volunteer group of Goldwater enthusiasts established a headquarters in Washington last April and drew financial support which ran over the \$100,000 mark.

Goldwater, who just turned 55 on New Year's Day, is a political newcomer relatively speaking and rose to national prominence after he upset veteran Democrat Ernest McFarland in an election for the U.S. Senate in 1952 by a mere 7,000 votes. This was the first time Arizona had a Republican senator since 1920.

Goldwater was re-elected to the Senate in 1958 and meanwhile became known throughout the nation as a spokesman for an apparent resurgence of conservatism. His only previous political office was as a member of the Phoenix City Council.

Deplores Cuba Handling
In consistently conservative expressions, he has deplored the U.S. handling of the Castro-Cuba trouble; disapproved government "spendthrift" tactics; looked with some doubt on the United Nations; and has advocated breaking of diplomatic relations with Russia and other Communist countries.

But Goldwater has not, in his public utterances, espoused extremist views of the far right.

Goldwater, a native of Arizona, has a blunt outspoken approach to problems. He seems to like to make a decision and carry it out quickly.

He looks somewhat like a frontiersman. He's tall, lean and tanned an active lover of the outdoors and pilots his own plane. He's a major general in the Air Force Reserve. Even his speech has the ring of the Old West and he has a folksy presentation.
