

Pope Paul Requests Return To Spirit Of Early Church

VATICAN CITY (UPI)—Pope Paul VI today held his first general audience since his triumphal pilgrimage to the Holy Land and called on all Christians to return to the spirit of the early church.

The 66-year-old pontiff, dressed in white and wearing a white skullcap, was greeted by wild applause from about 2,000 persons who jammed into the Vatican's Clementine Hall.

Pope Paul, renewing his plea for Christian unity, told the

happy crowd "today we see a multitude of people and we wish we had more time to adequately discuss our pilgrimage to the Holy Land. This is the first audience after our trip."

The Pope was interrupted by loud applause. He then went on to note that among the audience were Franciscan nuns including missionary sisters that he saw in Palestine, religious students and sisters of St. Joseph.

Pope Paul thanked the people of Rome for the tremendous reception they accorded him on his return from the Holy Land Monday night. He said never before had a Pope been given such a magnificent homecoming.

Then he went on to describe his trip to the places where Jesus Christ was born, lived and died. He said he was filled with "wonder and joy" and everyone "was enthusiastic with our pilgrimage," which he called the first step in reunification of the church.

"The prophecies of the Gospel were never so true and splendid," the pontiff said, "and they promise greater unity in the future."

The Pope said he hoped the movement for unity would keep going forward and also said he wished everyone could make a pilgrimage to the Holy Land. He said everyone who is religious would find spiritual comfort in such a pilgrimage, but he added: "You don't have to

go to Jerusalem, you can go with your spirit."

Pope Paul urged all Christians to return to the simplicity of the original church. He also appealed to the faithful to honor the Ten Commandments. The pontiff closed his 10-minute speech by saying there have been 20 centuries of Christian tradition and "we must keep that faith."

U. S., Mexico Chiefs To Meet

LOS ANGELES (UPI) — A California Democratic leader said today that plans would be completed within a few days for a meeting here between President Johnson and President Adolfo Lopez Mateos of Mexico.

Eugene Wyman, chairman of the state Democratic Central Committee, said he was flying to Washington this week to receive White House instructions on the Feb. 21-22 conference between the two chiefs of state.

Wyman said the purpose of the presidential conference, which has been described as a major international meeting, still was not known. He declined to give an opinion on what might be discussed by the two leaders.

Some sources speculated that the prime reasons might simply be to strengthen ties between the United States and Mexico. Both Johnson and Lopez Mateos — who have met personally three times previously — were reported to have insisted on keeping the meeting as informal as possible.

There also were reports that Los Angeles was selected as a meeting place because of its large Mexican-American population. Wyman and Gov. Edmund G. Brown stated that the meeting would be "non-political" in nature and that all arrangements were being made in diplomatic circles.

It was reported Johnson will be accompanied by Secretary of State Dean Rusk and Thomas C. Mann, former ambassador to Mexico and assistant secretary of state for Inter-American affairs.

Mann now is a White House adviser responsible for coordination of the administration's Latin American policy.

Ollala Project Report Delayed

A delay in completion of a feasibility and authorization report on the Ollala division of the Umpqua River Basin Project was indicated today.

U.S. Rep. Robert B. Duncan said he has been advised by the Bureau of Reclamation the report will not be completed before 1965.

Duncan, who has kept in close contact with the bureau in an attempt to expedite the final recommendation, was told the delay was caused by the need for additional engineering surveys.

"I am naturally disappointed at the delay," Duncan said. "However, I have been assured the Bureau of Reclamation and other federal agencies involved will move with all possible speed to complete their studies," he added.

The bureau said it has tentatively accepted a plan proposed by the Corps of Engineers to include four multi-purpose dams and reservoirs, related irrigation development and local flood protection works.

A water supply for approximately 14,000 acres of land would be provided by the largest of these dams — the Ollala Reservoir. Other projects in the basin would be the Tiller, Galesville and Hinkle reservoirs.

A project investigation request for \$200,000 to continue planning on the Ollala division was included in the 1964 budget approved by Congress last month.

"I will continue to push for completion of this program, since the Umpqua River is one of the major drainage areas in Oregon that has not received the attention it needs and deserves," Duncan added.

Disorderly Conduct Count Hits Local Man

Charles W. Collins, 32, of 1845 NW Calkins Road, was arrested by Roseburg City Police on a private complaint charging disorderly conduct and was released on posting \$40 bail Tuesday.

Collins is accused in a complaint signed by Goldie Kleich with "indecent, riotous, drunk and violent conduct," in connection with an alleged roughing up of a picket in front of the Rose Hotel about 6:35 p.m. Dec. 28.

Carl A. Johnson, who was carrying a picket banner at the hotel, and Mrs. Kleich, who was in charge of picketing, had complained that a picket sign had been taken from Johnson, and that they had been shoved around and cursed by two men on that date.

George W. Vaughn

George W. Vaughn, 89, of Sutherland, died this morning. Funeral arrangements will be announced later by Long & Shukle Memorial Chapel.

Stolen Auto Found

An automobile reported stolen from Lockwood Used Car lot on SE Rose and SE Oak some time between 6:45 p.m. Jan. 6 and 6 a.m. Jan. 7 was recovered behind the Golden Eagle Service Station at 2625 NE Diamond Lake Blvd. Tuesday, city police report.

Two men whose actions appeared suspicious were checked out by police in that vicinity in the early hours Tuesday, but they were not connected with the auto theft. Also a soft drink machine at the Richfield Service Station at 1847 Diamond Lake Blvd. was damaged in an apparent attempt to get into it the same evening, police said.

OH, MY ACHING BACK

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain — you want relief — want it fast! Another disturbance may be mild bladder irritation — following wrong food and drink — often settling up a restless uncomfortable feeling. Dian's Pills work fast in 3 separate ways: 1. To speed pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. By soothing effect on bladder irritation. 3. By mild diuretic action tending to increase output of the 15 mlbs. of kidney tissue. Enjoy a good night's sleep and the same happy relief millions have for over 50 years. For convenience, ask for the large size. Get Dian's Pills today!

RFD To Resume Fire Inspection

The Roseburg Fire Department on Jan. 15 will resume its house-to-house fire inspection service following a period of inactivity during the holidays.

Fire Chief LeRoy Seibold said firemen will contact homes in the West Myrtle and West Brown areas, and work west. On the other side of town, the Fire Department will have men checking homes in the Cobb, Hamilton and SE Jackson sections.

The program is designed to help home occupants eliminate fire hazards. The inspection is provided without cost and any suggestions by fire personnel on correcting hazards spotted are on a recommendation basis only, Seibold emphasized.

He also stressed that entry into the home is not mandatory and fire inspection personnel will enter homes only at the occupant's invitation. Seibold said cooperation in this regard has been very good, and firemen are very seldom turned away. The inspections will be continued until summer.

Cuban Bus Sale Worries Britons

LONDON (UPI)—Britain, worried by American protests, said today it has no legal means to stop an \$11 million sale of buses to Castro Cuba.

The angry American reaction to the deal set off anxiety that the "Cuban incident" may mar the summit meeting between Prime Minister Sir Alec Douglas-Home and President Johnson in Washington next month.

But officials said the British government has no power to intervene in what was termed a "private deal."

They also said it is official British policy to encourage international trade provided it does not violate security embargos.

In the sale, the Leyland Motor Corp. will send Cuba 400 buses under a five-year credit arrangement worth some \$11 million. Terms of the deal include an option for an additional 1,000 buses.

A spokesman for Leyland said today that delivery of the buses to Cuba will begin in April. Leyland directors said they intended to go through with the sale to Cuba, which they called a "traditional market" for the company. The firm supplied 600 buses to Cuba in 1950 and 200 more in 1958.

The directors said that if they did not sell the buses, Cuban Premier Fidel Castro would seek a deal in Hungary, France or Canada.

MINOLA GALLARDO (L) leaves Hoag Hospital in Newport Beach, Calif., Tuesday with policewoman Celeste on Cleve on the way to the Santa Ana district attorney's office. She was charged with murder in the knife slaying of multimillionaire William A. Bartholomae, but a lie detector cleared her sister of any part in the killing. Her arm is bandaged. (UPI Telephoto)

Misunderstanding Told In Oil Magnate's Slaying

NEWPORT BEACH, Calif. (UPI)—The fatal stabbing of wealthy sportsman-finance William A. Bartholomae apparently was a result of a misunderstanding on the part of the victim, attorneys indicated today.

Both the district attorney and the defense lawyer agreed that Minola Gallardo probably mistook an apparent gesture of assistance by 70-year-old Bartholomae as a sign of attack against her sister—related to the family by marriage—and tried to protect her with a knife.

Bartholomae was stabbed to death and Miss Gallardo wounded last Sunday morning in the half-million-dollar Bartholomae home, located on the waterfront in this Southern California beach resort city.

Miss Gallardo, 32, who came here from Spain for the birth of her sister's boy three months ago, was charged with murder Tuesday.

Her sister, Mrs. Carmen Bartholomae, 25-year-old wife of the victim's brother Charles, had been held as the principle suspect. But she was cleared of any part in the killing by a lie detector test and late Tuesday afternoon was released from jail.

Defense lawyer Paul Caruso told municipal Judge William Christiansen that Miss Gallardo "was just protecting her sister."

"She may have misinterpreted her sister's fainting," the attorney said during arraignment procedures for the suspect.

This was the same theory suggested by district attorney's investigators, who said the suspect probably knifed Bartholomae when she thought he was attacking her sister.

Accord Reached In Injury Suit

The trial of Emilia Miller vs. W. L. Tozer, doing business as Tozer Heating and Sheet Metal Works, was settled shortly after court resumed Tuesday afternoon. Nature of the settlement was not disclosed.

Mrs. Miller had asked general damages of \$18,500 and special damages of \$2,800, alleging that a representative of Tozer was installing a floor furnace in her home and had left a trap door open in the floor of the laundry room.

She stated she fell into the hole and suffered injuries of a permanent nature on March 16, 1960. She alleged negligence on the part of the defendant's employee.

The trial began at 10 a.m. and continued until noon, then resumed at 1:30, when dismissal was asked by the parties involved following settlement out of court.

India's Leader Improving Today

BHUBANESWAR, India (UPI)—Prime Minister Jawaharlal Nehru, who was taken ill Tuesday with high blood pressure resulting from overwork, spent a restful night and is recovering satisfactorily, his secretary said today.

An Indian air force plane remained standing by to fly the 74-year old leader back to New Delhi from this Orissa state capital if necessary, and there were demands throughout the nation that Nehru retire to spare his health.

Canadian Tariff Reduction Asked By Lumber Industry

WASHINGTON (UPI) — U.S. softwood lumber industry spokesmen called on the government Tuesday to bargain down Canada's lumber tariffs and urge Canada to allow exports of logs in the forthcoming world tariff negotiations.

A group of Canadian particle board manufacturers asked the United States to slash U.S. tariffs on particle board by the maximum 50 per cent in order to give them a chance to compete in the U.S. market.

The statements came in hearings of the Tariff Commission and the special Trade Information Committee aimed at preparing the U.S. position in the so-called "Kennedy round" of world trade talks scheduled to begin later this year at Geneva.

G. Cleveland Edgett, executive vice president of the West Coast Lumbermen's Association said Canadian restrictions on imports of U.S. lumber "are an outright injustice."

He said Canadian duties on lumber total about \$8 per thousand board feet, compared with a U.S. tariff of about \$1. Partially as a result, he said, U.S. softwood lumber has been cut back to about 4 per cent of the Canadian market, while Canadian softwood has captured more than 16 per cent of the U.S. market.

Edgett said U.S. negotiators should seek to bring Canada's lumber tariff down to parity with the U.S. tariff, or abolish both tariffs altogether.

He also said U.S. negotiators should try to knock down lumber tariffs in the United Kingdom and Australia, and that the United States and Canada should team up against Australia's lumber import quotas. He called the Commonwealth preference system that aids Canadian lumber exporters "out of date."

Leonard B. Netzorg, general counsel of the Western Forest Industries Association, said Canada's embargo on exports of logs had forced Japan to buy all its logs in the United States, thus driving up the price of raw material for the U.S. lumber industry.

Netzorg said he would not like to force Japan into dependence on Russia—its only other possible supplier of raw

logs—by shutting it out of the U.S. market.

But he said pressure from Canadian lumbermen was driving market prices down at the same time that Japanese bidding for logs was driving costs up. He said Canada should bear part of the burden by letting Japanese traders buy Canadian logs.

Netzorg also urged that no reductions be made in the present "nominal" U.S. duties.

James Flintoft, legal officer of Altabi Power & Paper Co., Ltd., of Toronto, called on the United States to reduce the tariff on wood particle board from 12 per cent to 6 per cent so

that Canadians could compete in the U.S. market.

Flintoft, speaking for six companies which he said produce 80 per cent of Canada's particle board, said Canada had sold no particle board to the United States since 1957 because of uncertainties over a tariff treatment. A rate of 12 per cent was set last August, but he said this rate was still too high to allow significant exports.

"We believe that there would be a low but growing volume of imports (into the United States) at the 6 per cent rate, as the market for particle board in the United States continues to grow," he said.

'63 Was Banner Year For Auto Industry

DETROIT (UPI) — More new cars were sold in the United States during 1963 than in any single year in history.

That was the word today from Ward's Automotive Report—the industry's statistical service.

Ward's said the industry posted domestic new car sales of 7,334,302 units during the year, considerably more than the 6,752,644 cars sold last year but second to the all-time high of 7,408,000 recorded in 1955.

However, the statistical agency said, when import sales were figured in the picture, 1963 was the best car year on record. The industry sold a total of 7,714,000 cars including imports compared with the combined domestic-import figure of 7,460,000 in 1955.

General Motors report it sold a total of 4,472,021 cars and commercial vehicles during 1963 to top the previous high of 4,202,552 in 1955. Car sales at GM totaled 3,939,002 last year compared with GM's previous passenger car high of 3,767,342 units recorded in 1955.

Ward's said the industry saw the strongest fourth-quarter sales in history. During the period 2,059,291 cars were sold, the highest for any quarter of 1963 and ahead of the previous high for the final three months of the year of 1,946,000 set in 1962.

The past year, Ward's said, was one when "more balance returned to the auto industry." GM dealers saw its penetration figure drop to 53.7 per cent from 54.7 per cent in 1962.

Ford Motor Co. grabbed a 26.3 per cent share of the market compared with 27.4 per cent last year. Chrysler saw the largest gain in its chunk of the sales. Chrysler grabbed 13.1 per cent of the market during '63 compared with 10.3 per cent in 1962.

American Motors Corp. saw its penetration decrease to 5.6 per cent in 1963 from a 6.4 per cent share of the market in 1962. Studebaker sold a total of 64,758 cars in the United States in 1963, worth 0.9 per cent of the market, Ward's said. During 1962, Studebaker sold a total of 79,827 cars for 1.2 per cent penetration.

Minister Seeks Seat In Congress

SALEM (UPI)—Willard Cromwell, 39, a Republican and minister of the First Christian Church at Hermiston, filed today as a candidate for Congress from the second congressional district.

Cromwell is the first candidate to file for a congressional seat in the state this year, according to Secretary of State Howell Applegate Jr.

He seeks election to the seat held by Rep. Al Ullman, a Democrat from Baker, for the past seven years.

Cromwell came to Oregon from Kingston, Wash., in 1959. Cromwell commented "it is my purpose to represent the people of Eastern Oregon in Congress with a sense of responsibility for the rights of individuals and to bring once again to our people common sense in government."

Cromwell is a veteran of World War II, is married and the father of five children.

He received his bachelor of arts degree from Seattle Pacific College in Washington, a bachelor of theology from Northwest Christian College at Eugene, and did graduate work at Butler University at Indianapolis.

Hospital News

Visiting Hours 2 to 3:30 p.m. and 7 to 8 p.m.

Douglas Community Hospital Admitted
Medical: Wilbert Rose, John Suiter, Mrs. Gerald Palmer, Mrs. Heber Peiffer, Patricia Crabtree, Mrs. William Burkhardt, all of Roseburg; Timothy Burkhardt, Coquille; Judy Crowley, Mrs. Oscar Simmons, both of Sutherlin; Mrs. John James, Winston.

Discharged
Mrs. John Green, John Kerr, Ralph Birdsall, William Pittsinger, Annie Cotton, Mrs. Ella Butler, Roger Dunihoo, all of Roseburg; Mrs. Don Beck, Sutherlin; Floyd Howard, D. A. Fain, both of Winston; Mrs. Eugene Thornton, Oakland.

Mercy Hospital Admitted
Medical: George Hensell, Roseburg; Mrs. Lawrence Gent, Riddle; Mrs. Keith Miller, Winston.

Discharged
Naomi Scott, Dora Schroeder, Mrs. Richard Zigler and son Robert Gene, all of Roseburg; William Staniford, Sutherlin.

Those who wish may make donations in Musgrove's name to the American Cancer Society. Donations may be left at Long and Shukle Chapel.

Failure To Stop Results In Injuries

Sazza Ann Cole, 12, daughter of Mr. and Mrs. Lloyd Cole of 1919 NE Diamond Lake Blvd., suffered a fractured pelvis when struck by an automobile while crossing Diamond Lake Blvd. at NE Casper St. Monday about 5:25 p.m.

The little girl was taken to Mercy Hospital by ambulance, and is reported satisfactory. She also suffered an abrasion from a shoulder down one side to her hip, and a muscle spasm.

City police report the girl had pressed the button on Diamond Lake Boulevard to make the light turn red at a school crosswalk. Other cars had stopped, and she had entered the eastbound traffic lane walking south, when struck by an automobile operated by Fred E. Miller of 541 NE Fulton St. He told police he did not observe the red light nor the girl in the crosswalk.

Miller was cited for stop light violation. He was traveling east.

City Police Probing Two Auto Accidents

Two accidents were investigated by Roseburg City Police Tuesday.

Cars operated by Noel Wesley White of 1655 SE Cobb St., and by Frank Holda, 1324 SE Douglas Ave., collided at the intersection of SE Fowler at SE Court at 4:05 p.m.

Police said Holda pulled from the stop sign, traveling west on Court. White was traveling south on Fowler and could not stop in time to avoid the collision. No one was injured.

The other accident occurred on SE Jackson Street in the 600 block. Kenneth Lowell Miller of 1594 SW Kendall St. was traveling south on Jackson, just as Adolph Zenger of 333 W. Madrone St. attempted to pull from a parking position at the curb. Zenger was cited for failure to yield right-of-way.

Two Youths Held

State police took into custody Tuesday night two 16-year-old boys from The Dalles. They were in possession of an automobile earlier reported stolen out of Eugene.

Booked also at the county jail by state police were Russell Glen Engebretson, 39, Winston, for drunken driving, and William Jasper Bates, 38, Winston, for being drunk in a public place.

Oakland Council Considers Soot

Further discussion of the soot and cinder problem in Oakland resulting from the new steam generating plant of the Martin Bros. Container and Timber Products Corp. was held at the regular meeting of the Oakland City Council Tuesday night.

Raymond Martin, representing the corporation, was present at the meeting and re-affirmed his intent to see that the engineering firm supplying the equipment in question be held liable for elimination of the nuisance created. Martin had appeared at a special council meeting held a week ago Monday and stated his awareness of the problem created from the burning sawdust at the plant.

According to Edith Dunn, correspondent, the council also heard proposal of an ordinance to prohibit all livestock within the city with the exception of cats and dogs. No action was taken. Routine business occupied the remainder of the session.

Several interested citizens were present at the meeting, Mrs. Dunn said.

Voters Give Approval To Eugene Annexation

EUGENE (UPI)—The growing city of Eugene, Oregon's second largest, will have an additional 7,250 residents as soon as formalities are completed.

Eugene voters Tuesday cast ballots 3,101 to 901 in favor of annexing the Bethel-Danebo area northwest of the present city limits.

Residents of the seven-square mile area voted earlier in favor of annexation to Eugene.

This means that when the votes are officially canvassed by the City Council and recorded by the secretary of state's office, Eugene's population will be around 65,000.

Eugene's population as of July 1, 1963, according to the State Board of Census, was 58,138.

Cooler Weather Due The five-day weather forecast according to the Weather Bureau station at the Roseburg airport calls for temperatures erasing below normal for Western Oregon with highs mostly 35 to 45 and lows 25 to 35. A cooling trend is due Friday and precipitation is expected to be less than normal.
