

Society Brand

Society Brand and L System Clothes

are the correct clothes for you as they are dignified yet stylish and have a certain hang and snap about them that distinguishes the fellow who wears them from the one who don't.

THE NEW L SYSTEM Coats are made to appeal to the college fellow who wants something different, by having a broad military shoulder and loose, easy hang, while the trousers are made big and peggy.

THE NEW SOCIETY BRAND CLOTHES are classy, yet dignified; coats made plain, but with sharp, clear lines. The patented "PERMANENT CREASE" in all Society Brand trousers appeals to young fellows.

Correct College Clothes

\$15.00 to \$40.00

Correct Evening Clothes

Blue Serges, Blacks, Blue Blacks, and Dark Worsteds in large variety of styles and qualities, as well as

Full Dress and Tuxedo Suits

made by people who know tailoring as an art.

Evening Clothes \$20 to \$60

Overcoats and Raincoats in all new models and every late fabric, \$15 to \$40

Your Clothes Pressed Once a Week for One Year by Fine Experienced Tailor Absolutely Free

S. H. FRIENDLY

COLLEGE CLOTHIER, HATTER AND FURNISHER

BEST GLEE CLUB IN YEARS FOR UNIVERSITY

"The best glee club we ever had, and material enough for another," is the way Professor Glen expresses his opinion of prospects this year, after the preliminary tryout that, beginning yesterday, lasted until late this afternoon before the large number of candidates could be disposed of.

Thirty-four new men offered themselves, making the largest class of applicants that have ever presented themselves at the preliminaries, in the whole history of the organization.

Ten vacancies from last year are to be filled, five in the tenor sections and five in the bass sections, the ranks of the old club having been very materially depleted by the graduation of a number of its members from the University. Those who remain from last year are Burke, Curtis, Davies, Davidson, Powell and Geisler. The personnel of the new club will be definitely known the first of next week, when the results of the preliminaries will be made public.

Professor Glen is greatly pleased with the excellent talent offered in the new class of applicants, declaring it to be, without qualification, the best that has ever been offered to select from.

He regrets the fact that it will be impossible for the Club to make use of all of the excellent new material that is offered and earnestly suggests that those who are unable to secure places in the club itself, organize themselves into a secondary squad and make arrangements for regular meetings and drill work in singing, since he feels that they could gain a great deal of valuable and pleasant training in that manner.

Manager Geary has made negotiations for a trip to Southern Oregon

HUSTON RESIGNS AS TRACK CAPTAIN

Oliver B. Huston today handed in his resignation as captain of the track team for the ensuing year. It was thought last year that Huston would be able to compete because one of his four years' participation in athletics was at Pacific University. But a precedent has been set by Whitman College, which the University of Oregon has seen fit to respect. Demick, page and Thillbrook, of Pacific University, went to Whitman and were debarred from athletics on account of having taken part at Pacific University. The Athletic Council at the University recently decided that Huston would not be able to compete in track, but he will not be debarred from football or baseball.

Bill Hayward said this afternoon, "the loss of Huston cripples the track team very seriously for he could always be depended on for a large share of the points. Huston has been the main stay of the track team for three years, but henceforth he must appear in a new role. His resignation is all the more serious because he has no successor. Without a sprinter, Oregon's chances for a winning team are seriously lacking."

The student affairs committee held their first meeting this morning. A few preliminary topics were discussed. Among other things they made the recommendation that the freshmen see to the restricting of the green caps to members of their class. Hereafter the regular meetings of the committee will occur on the first and third Wednesdays of each month. At their next meeting they will take up a matter of considerable importance to the school.

between semesters. Earlier in the season there will probably be a trip to Portland and Salem.

NEW GYMNASIUM TO OPEN JANUARY 1st.

Twelve men, a foreman and superintendent are rushing to completion the new \$25,000 varsity gym. The building was commenced in plenty of time to be occupied at the beginning of this year but a delay ensued over a shortage of material and it is probable the building will not be turned over to the students before January.

The building is modern and up-to-date in every respect and no expense will be spared in installing the equipment. It will be occupied by the men of the varsity and the old gym, after remodeling will be turned over to the co-eds and their special instructor, Dr. Stuart.

Roughly described the building is 89 x 120 feet three stories high, with a basement containing lockers, baths, dressing rooms and a concrete swimming tank, 40x60. This swimming pool will be one of the finest features of the building. The maximum depth will be eight feet, sloping off to four feet at the upper end. It is located in the north end of the basement and will be surrounded by 48 individual showers. Back of these will be several dressing rooms for the various visiting teams, fitted up with rubbering tables and lockers. Altogether there are 400 steel combination lockers.

The main floor, 59x110, will be laid in maple and finished to make an excellent dancing floor. Around the edge will run an oval gallery capable of seating 400. Immediately above this a 17 lap running track will be suspended from the rafters. Opening from the gym. will be Trainer Hayward's offices and a tube handball court 20x20. The two main entrances will be on the south and west.

The gym will fill a long felt want at the University as the present structure

GIRLS WILL DANCE IN MEN'S ATTIRE

Dressed in "their brothers' clothes," half the girls in the University of Oregon will escort the other half in party dresses to an informal dance in the gymnasium next Saturday night at 8 o'clock.

This unique party is being arranged by a number of the girls and the Dean of Women as a means of getting the co-eds acquainted.

"Have you a suit yet?" said a freshman to a sophomore the other day. "I know where you can get one." The rest of the conversation was lost, but many boys are speculating as to whose suit it will be.

Those who do not succeed in getting boys' clothes are going dressed entirely in black—dark skirts, tailored waists, stiff collars, and black ties.

ENGINEER MAY NOT BE PUBLISHED

The fate of the Oregon Engineer is to be decided at the meeting of the Engineering Club in McClure Hall at 7:30 tonight. The failure of Editor A. H. Page to return to college has left the club in doubt as to the advisability of continuing the publication. Many members feel that the University is not large enough to support three papers and are in favor of incorporating it as a special department of the Oregon Monthly. Professor McAlister will deliver a short address at the meeting this evening and, if it is decided to continue the Engineer, a new editor will be elected.

has for years been inadequate for the needs. The abundance of light and modern conveniences in the new building will afford a welcome contrast to the darkness and dinginess of the present gym.

PRESIDENT CAMPBELL DOES NOT USE SPIES

Student spies are not employed at the University of Oregon, either by President Campbell or the student affairs committee. Moreover it was not a student—neither a spy nor a voluntary informer—who gave information concerning the recent hazing.

This was the substance of a statement made by President Campbell to a representative of the Emerald when informed of the report in one of the daily papers that a student spy had turned traitor on his comrades, and given the names of the sophomore hazers.

"The information did not come through students," he declared emphatically, "but from citizens of Eugene who are opposed to hazing. I never use spies," he went on to say. "The effect of distrust on the character of the students would more than offset all good effects that might come from such methods. Furthermore, I have always found that the students themselves can be trusted. They invariably tell the truth when questioned."

The joint J. M. C. A. and Y. W. C. A. reception was given at the dormitory Saturday evening. A large number of students enjoyed the hospitality of the local Christian associations.

The Dormitory reception halls were made cozy and comfortable with bright pennants and pillows. Delicious refreshments consisting of ices and wafers were served by the social committees of the two associations. The receiving line was as follows: Mrs. Prescott, President Campbell, Mrs. Campbell and Mrs. Zeiber.

Paul Correll, '12, is confined at his home in Baker City with a severe attack of typhoid fever.
