READING ROOM IS NOW READY FOR DORM. BOYS

A study and reading room is to be added to the conveniences of the members of the Dorm Club. The room on the lower floor of the Dormitory building, looking out toward McClure Hall, has been vacated and turned over to the Club to be fitted up for that purpose, the idea being to provide for the men who patronize the dormitory, a place where they may enjoy more seclusion than can be afforded in the main reception room. The furnishing of the room and the full control of it will be left in the hands of the Club.

A meeting was held Thursday night, at which it was decided that the new room should be set aside for the use of only the men who room or board at the dormitory. A committee was appointed to make plans as to its furnishing and the method of conducting it, and will make its report to the Dorm Club during the early part of next week. The members of the committee are Messrs. Geisler, Terry and Downs.

"WHY A FRESHMAN SHOULD JOIN Y. M. C. A."

Edward Bailey, better known to fame as "Fat" Bailey, the heavy weight football man of the Freshman class, led the men's meeting at McClure Hall last night, speaking on the subject "Why a Freshman Should Ally Himself With the Y. M. C. A." Short talks were also given by Fred Cash and G. W. Wells, both of the freshman class, and a trombone solo by R. Burns Powell, '12, was received with an encore. A few minutes before the opening of the meeting were devoted to the singing of the songs of the University, for the benefit of such as have not yet had an opportunity to learn them. Professor Schafer will address the men's meeting next Friday, on the subject of "The Man Jesus."

J. D. Collins, '10, has been appointed to the staff of the Oregon Monthly. Mr. Collins is a graduate of Dallas College. He has had two years' experience in the newspaper business, having been editor of the Polk County Observer for one year.

The foundations are being laid at Princeton for a vivarium. The aim of the vivarium is to make possible a study of the habits of many amphibious animals, about which little is known on account of their habit of burrowing themselves in the mud along streams.
