TRACK TEAM IS PICKED FOR TRIANGULAR MEET

MANY SURPRISES DEVELOP IN TRYOUTS MONDAY AND TUESDAY

Hurdles, Sprints and Weights are Closely Contested. . . Hawkins and Kay Make Fast Time.

- *****
- OREGON TEAM
- * 100 yards—Kay, Johns.
 - * 220 yd—Kay, Johns.
 - * 440 yd—Johns, McDaniel.
 - * 880 yd—Riddell.
 - * Mile—McClure, Riddell.
 - * Two Mile—Henry, McClure.
 - * High hurdle—Hawkins, Latourette.
 - * Low hurdles—Hawkins, Latourette.
 - * Broad jump—Kay, Hawkins.
 - * Pole vault—Williams.
 - * Shot put—Kellogg, Neill.
 - * Hammer—Kellogg, Neill.
 - * Discus—Kellogg, Neill.
 - * Relay—Johns, McDaniels, Elliott, Riddell or Kay.
- *****

Many surprises, some of which portend radical changes in the future lineup of Oregon's track team, were registered during the try-outs for the team to enter the tri-state meet at Seattle that were held, despite the rain and mud, on Monday and Tuesday.

Monday afternoon, on the open track, Ted Holmes finished second in the high hurdles, which were won by Hawkins in the fast time of 15 4-5; beating Sap Latourette by a couple of feet. This race was run again twice on Tuesday, and both times these two men tied for second place, but Latourette won his place on the team by taking second in the low hurdles.

On Monday Henderson shoved the away from his competitors in the 100-yd. dash, finishing in 10 2-5 seconds, with Kay second and Hawkins third. On Tuesday, in the two fast heats run on the indoor track, the results were completely reversed. Kay finished first, in 10 1-5 seconds; Johns second; Hawkins third and Bristow fourth.

The shot put was also a closely contested event. On Monday Kellogg was best with a put of 36 feet 11 inches, but on Monday Henderson shoved the sphere out 39 feet.

Hayward has had trouble in picking the twelve best point winners from among these contestants, but he has named the following twelve men, whom he thinks will form the best combination of point winners: McClure, Latourette, Hawkins, Kay, Johns, McDaniels, Kellogg, Elliott, Jim Neill, Henry and Riddell.

The team will leave for Seattle next Thursday on the noon train, and will reach home again Sunday afternoon. During their absence, Oliver Huston will act as trainer for those who remain in Eugene.

The official results of the tryouts follow: Mile run, McClure first; Riddell second; time 4 minutes, 45 seconds. 100-yd. dash, Kay first; Johns second; Hawkins third; time 10 1-5 seconds. 220-yard dash, Kay first; Johns second; McDaniels third; time 23 seconds. Hammer throw, Kellogg first; Neill second;

ANNUAL APRIL FROLIC IS HELD BY CO-EDS

Stunts Given by Sororities, Individuals and Clubs Show Talent and Originality

The annual April frolic was held last Saturday night in the new gymnasium. Practically every woman in the University was there, and the evening was a thoroughly enjoyable one.

Several stunts were given by the various sororities, clubs and individual girls, some of them showing talent and originality. When the stunts were completed a grand march was formed, led by Frances Oberteuffer and Grace Labrie. This was especially pretty and showed to good advantage the artistic costumes of the co-eds. During the march each girl was given a present from a grab bag, containing everything from children's toys to soap. The grand march was followed by dancing, which occupied the rest of the evening. During the dances refreshments were served upstairs.

HANDICAP TOURNAMENT WILL INCLUDE DOUBLES

Time For Signing Up Extended Until Next Friday

The last date when entries may be made for the handicap tennis tournament has been postponed to Friday night, on account of the rainy weather. Manager Newland announces, however, that there will be no further postponement, and that every one who wishes to try for the cup must be signed up by that time.

A handicap doubles tournament will be held in conjunction with the singles tournament, announced Manager Newland today. The winning team will be awarded a cup under the same conditions that apply to the singles tournament—that it be held a year or until it is won three times, when it becomes the personal property of the winners. All entries must be in for the doubles by Friday night also. An enrollment fee of fifty cents per team is charged. Those wishing to enter the tournament can sign up at the court bulletin board or with Manager Newland, Bert Prescott or Harry Stein.

A committee of five of the best tennis players of the University will handicap the men. "It will be difficult this year to match the men fairly in every case, because the committee will not be able to see all of those entered play before classifying them, but every effort will be made to have the matches as even as possible," says Manager Newland. "In a handicap meet the poorest player has as good a chance of taking the cup as the best, and it is to be hoped that a large number will enter the tournament."

On account of the Varsity tryouts and the tournament coming so close together there is bound to be some conflict, and when there is it is requested that the handicap games give way to the Varsity tryouts until the team is chosen, then the handicap games will have the right of way."

Professor Schafer will give a party for his major students Friday evening.

THREE FOR PRESIDENT TWO MORE FOR EDITOR

EXCEPTIONAL COMPETITION FOR OFFICES OF STUDENT BODY

Sweek, Espy and Collier Contesting for President. Lowell and Moores for Editor.

For the first time in the memory of the present generation, there are three candidates for the office of president of the Associated Students, the highest honorary office bestowed upon a student. The aspirants nominated at the regular meeting this morning are, Calvin Lawrence Sweek, of Monument, Cecil Jefferson Espy, of Oysterville, and Percy M. Collier, of Eugene.

Hardly less interesting is the advent of competition for the position of ed-

Oregon's New Coach

William J. Warner, the man who has been selected as coach of the University of Oregon football team next year, has had seven years of practical and successful experience coaching some of the biggest teams in the United States. He will be assisted by a large squad of assistants, the athletic council deeming it advisable to spend more on this department than formerly. Several well known alumni players will be with the team all the season, with a view of possibly inaugurating the graduate coach system in the future.

itor of the Emerald. Two candidates were placed upon the ballot, Wm. E. Lowell, lately editor of the Union Scout, and Ralph Moores, University correspondent for the Oregon Journal.

Candidates for the other offices, while not so numerous, are not lacking. However, so many of the juniors are out for the higher positions that it was necessary to fill out the list in many cases with sophomores.

George M. White and Verner Gilles are the rivals for the office of vice president, and Edith Woodcock and Mary DeBar are running for secretary. This office is always the occasion for a vigorous fight, and will be watched with interest by the many friends of the two popular co-eds.

Two places on the executive com-

VOIGT LEADING MAN IN DRAMATIC CLUB PLAY

"The Professor's Love Story" to Be Given in Eugene Theater Junior Week End

The members of the well balanced cast who were selected from the dramatic club to present "The Professor's Love Story" at the Eugene Theater on May 19th, are working hard under the coaching of Professor Glen. Victor Voigt, of Glee Club fame, will appear in the title role, with Ruth Duniway as leading lady.

The Cast

- Miss White—Ruth Duniway.
- Miss Goodwillie—Maud Beals.
- The Dowager—Julietta Crosse.
- Lady Guilding—Bertha Cummins.
- Effie, a maid—Naomi Williamson.
- Prof. Goodwillie—Vic. Vogt.
- Dr. Cousins—Lee Caulfield.
- Pete—Roland Kennedy.
- Henders—Foust Dunton.
- Sir George Guilding—Ed. Hines.
- Al. K. Hall—Percy Collier.

KELLY CONFIDENT OF SUCCESSFUL SEASON

Baseball Men Batting and Fielding in High Class Fashion

Batting Averages on Trip

	A.B.	H.	Aver.
* Clarke	29	15	.517
* Taylor	20	9	.450
* Chandler	25	9	.360
* Barbour	26	8	.307
* McIntosh	18	5	.277
* Word	13	3	.230
* Van Marter	27	5	.185
* Gabrielson	11	2	.181
* Jamison	30	4	.133
* Henkel	8	1	.125
* McKenzie	4	0	.000
* Dobie	9	0	.000
* Newland	11	0	.000

Coach Kelley is well pleased with the prospects for the Oregon baseball team during the remainder of the season.

On the recent trip through Washington and Idaho the batting and base running of the Oregon men was of high class, the loss of games being attributed to poor fielding and the overworked condition of Henkel and Word, who composed the pitching staff. The temporary loss of McKenzie unbalanced the Oregon infield and was in a great measure responsible for the loose fielding.

During the remainder of the season Coach Kelley will switch McKenzie to short stop and McIntosh, Newland or Mount will perform at third, with honors in favor of McIntosh because of his superior batting and base running. A special effort will be made to bolster up the fielding of the players, and with the present hard hitting club, championship prospects were never brighter.

Next Saturday afternoon the Oregon team will play the Springfield semi-professionals. Manager Cox's aggregation won from the Eugene team last Sunday and is considered one of the

UNIVERSITY WILL BE BENEFITED BY CHANGE

NEW INSTRUCTOR IS TO BE SECURED FOR CHAIR OF GEOLOGY

The Higher School of Commerce is Expected to Prove More Popular than Courses Withdrawn.

If the unofficial reports of the action of the Board of Higher Curricula are correct the University of Oregon as a whole will not suffer at present and will be benefited in the future is the opinion of President Campbell.

The official report of the final action of the board has not yet been received at the administration office but the elimination of the Mining and Mechanical Engineering courses as reported by the newspapers will affect less than thirty students. The degree of Mechanical Engineer has never been given and the Mining course has but few students. Those now registered in these departments, however, will be allowed to finish their courses.

The first two years of all the engineering courses are practically the same and will remain unchanged. The principle changes will be in the third and fourth years of the Mining course. Assaying, Mining and Mine Surveying will be dropped entirely. The rest of the course will be offered in other departments. Most of it going to the department of Geology in which a new instructor will be secured for next year. Geology will then be offered as a higher culture course. Metallurgy will continue to be taught in the Chemistry department, the general course being offered, but not the specific training peculiar to the needs of the mining engineer. The heads of the departments will continue in the Engineering and Mathematics courses.

Besides strengthening the Geology department, to offset the loss there will be instituted a Higher School of Commerce. The purpose of this school is to turn out graduates to meet the demand for college men who have a practical knowledge of business and can take responsible positions in the world of commerce. The funds which it would have been necessary to spend for equipment for the two courses to be dropped can be used to more advantage to the University in this Commerce School.

The first steps leading up to the School of Commerce will be made next year and the following year, when fully equipped and organized, the regular course will be offered in the catalogue.

That it will prove much more popular than the Mining course is the opinion of President Campbell and Oregon's loss in Mining students will be more than made up in Commercial students since nearly the same courses as formerly will be offered as culture courses and an entirely new department will be instituted in the Higher School of Commerce.

Miss Laurel Inman, of Thurston, spent the week end at the Lambda Rho house.

Mrs. W. J. Mathews, of Portland, is spending the week with her daughter at the Gamma Phi Beta house.
