

Y. W. C. A. WILL HOLD STRAWBERRY FESTIVAL

The Y. W. C. A. will hold a strawberry festival on the campus Saturday evening, May 28.

The campus will be strung with Japanese lanterns, and tables will be scattered about in the cosy nooks, where ices, strawberries and cakes will be served. A good musical program has been prepared for the evening (just what it is none will tell), yet it has been whispered about that some surprise is to be sprung.

Everyone is invited.

Tuesday evening the Kloshe Tillacums celebrated their fourth birthday. The time was spent in jolly, good fun, and interesting stunts given by the various classes were an especial feature. These were followed by a banquet, at which Marion Stowe was toastmistress. Miss Helen Templeton, of Portland, was guest of honor.

Mary Wright Bain is the guest of the Chi Omegas. She is an Eastern college woman, visiting the Western Chi Omegas in an official way.

Whitman College is having considerable trouble in regard to student finances. The students and alumni have been called upon to suggest some method of eliminating the student debt.

DR. A. J. BROWNING SPEAKS BEFORE Y. M. C. A.

One of the most practical and interesting meetings of the Y. M. C. A. for this year is promised for Friday evening. Dr. A. J. Browning, a physician of Portland, will give an address on "Sexual Hygiene" and at the close of the meeting a number of pamphlets on the same subject, issued by the American Society of Sanitary and Moral Prophylactics, of New York, will be distributed. One hundred of these books were recently secured by the association to be distributed among the men of the school. They treat of the subject from a purely scientific and medical standpoint and are decidedly practical and sane in their discussion of this problem.

Dr. Browning, who will speak on Friday evening, is a young physician from the East who has practiced successfully for the past four years in Portland. He is thoroughly acquainted with college men's attitudes and ideas and is well recommended by Mr. Griggs, physical director of the Portland Y. M. C. A.

In order not to interfere with the oratorical contest, which comes the same evening, the men's meeting will begin promptly at 7:00 and will be dismissed at ten minutes to eight or before.

Hugh Bowman, the University of Washington pole vaulter, has been chosen captain of the track team for next year.

The University of Washington broke even in the six ball games played on the recent trip. One game was lost and won from each institution played.

SCHOOL PROBLEMS UP

Oregon Educational Conference To Meet In Eugene During Commencement Week

"High School Problems" and "Problems of the State School System" will be the two subjects occupying the attention of the teachers of Oregon at the annual Educational Conference that will meet in a four days' session in Villard Hall from June 20 to 24. Each will be discussed during two days and will be divided into three sessions.

President Campbell will act as chairman, and addresses will be made by prominent educators throughout the state. Among the list are many of the University professors and several well known Oregon graduates, now employed in the different high schools. Miss Bessie Kidder, '09, will speak on English Literature and George Hug will discuss the question of athletics in connection with the moral problems of the high school.

Following are the full programs:
MONDAY, 9:15 A. M.

Teachers' Reading Circles

1. Teachers' Reading Circles in Other States. Mr. Guy C. Stockton, Superintendent of Eugene Schools.
2. Experience With Teachers' Reading in Different Counties. Mr. H. C. Seymour, County Superintendent of Polk County. Mr. W. M. Smith, County Superintendent of Marion County.
3. The Oregon Library Commission and Teachers' Reading. Miss Frances Isom, Portland Public Library.
4. Teachers' Reading in the Towns. Mr. U. G. Smith, Superintendent of Medford Schools.

SLABWOOD BETTER THAN COAL FOR UNIVERSITY

That Seattle coal can not compete successfully with slab wood as fuel for the University boilers is shown conclusively by the tests recently completed by the classes under Professor C. W. Converse. One pound of coal evaporated 5.31 pounds of water at 212 degrees, while one pound of wood evaporated 3.38. The coal cost several times as much per pound as the wood, so that the balance was badly against it. At this rate with coal it would cost 99 1-9 cents to evaporate 1000 pounds of water, while with wood the cost would be only 23.7 cents.

The boilers, said Mr. Converse, were not properly equipped to burn coal. By a considerable expense it would be possible to increase their economy for coal burning 25 per cent, and possibly 50 per cent. However, even this would hardly make it as good fuel as slab wood.

Next year a test may be made for crude oil. One objection to burning oil, said Mr. Converse, is the fact that it is difficult to be sure of a steady supply, it being impossible at times to obtain oil.

The Gamma Phi Betas had a most enjoyable party up the millrace on Monday evening.
