EUGENE, OREGON, SATURDAY, SEPT. 24, 1910.

No. 1

OREGON MONTHLY PLANS GREATER PUBLICATION

DEAN COLLINS OUTLINES POLICY FOR THIS YEAR

The Aim of the Editor to Give Each Issue a Special Significance.

Dean Collins, editor of the Oregon Monthly, promises that the coming year will mark a new epoch in the annals of that publication. Each issue will be a special number on some phase of student life and activity. The Freshman number, the first to appear this fall, will be out about October 15th. This will probably be followed by the football number. The Engineering Department will be popularized by doing away with the extremely technical matter, and will cover the field in a manner interesting to both engineering and non-engineering students.

The "old guard" in the literary department are for the most part back in college, and with these old contributors as a nucleus a corps of regular contributors is assured, which will do away with the necessity of relying entirely upon essays and stories written for class work.

In short, it is the aim to make the Monthly in its way truly representative of the University of Oregon, to have the literary department produce the best fiction, poetry and serious articles that Oregon students can write, and finally it is the aim to carry as much of Oregon as possible to the people of the state, especially to the students of the preparatory schools.

The Monthly exchanges with most of the Coast colleges and with practically all of the high school and academy publications of the state.

It is the aim to place the Monthly at the head of the publications of the educational institutions of the state.

EXECUTIVE COMMITTEE TRANSACTS BUSINESS

The executive committee met today for the first time this year to organize. The meeting was held at the Gamma Phi Beta house, and all the members were in attendance.

D. L. Dobie, '11, was appointed business manager of the Emerald for the coming year, vice C. A. Osterholm, '12, who failed to return to college this fall.

A large number of accumulated bills were taken up, audited and ordered paid.

The committee also decided to issue a call for the names of candidates for the position of yell leader. The competitive trials will begin immediately, and aspirants for this position should hand their names as soon as possible to Verner Gillis, Vice President of the student body.

THIS YEAR WILL BE A BUSY ONE FOR THE INSTITUTION

At the close of the first week of registration, Registrar Tiffany announces that the books show a heavy increase over this time last year. There are now 545 students registered in the depart-

ments of Literature, Science and Arts, and Engineering, while the number of students last year did not reach the 500 mark until the second Monday. This would seem to indicate an increase of at least ten per cent over last year. The total enrollment for last year in these departments reached 650, and the total registration for the University, including all departments, was 1030. Registrar Tiffany predicts that the total enrollment for the College of Literature, Science and Arts, and of Engineering, will be about 750, and that the registration for the University will be about 1150. It has been impossible to get an exact count of the freshman class of this year, but although last year's class was an exceptionally large one, Registrar Tiffany feels sure that the class of 1914 is going to be much larger.

The Kappa Alpha Theta entertained with a dance Wednesday evening. They will also give a formal luncheon at the Osburn Hotel Saturday.

NEW ADDITIONS TO UNIVERSITY FACULTY

CHANGES ARE MADE IN VARSITY FACULTY

There have been some important changes in the personnel of the faculty since last year. Most important is the placing of Professor A. J. Collier at the head of the department of Geology, the position held some years ago by Dr. Condon, the noted Oregon geologist. Professor Collier is well fitted for the position. Graduating from Oregon in 1888, he was granted an M. A. degree in 1893, and a B. S. degree from Harvard in 1894. Immediately after his graduation from Harvard he taught four years in Portland and in Willamette University. Since 1899 he has been connected with the U. S. geological survey, and during this time he has written many volumes of U. S. reports of geological survey. He has an intimate knowledge of geological conditions in the United States and in Alaska.

Another addition to the faculty is W. B. Hemphorne, Ph. B., who takes a newly created position of assistant in the department of Mathematics. Professor Hemphorne is a graduate of Wisconsin University, and has had several years of teaching experience in the Philippine Islands. He was more recently an instructor in Mathematics at Miami University, from which institution he comes highly recommended.

In the department of German Mr. Geo. F. Lussy has been appointed to the position formerly held by Dr. Koeler, who is taking graduate work at Leipsig, Germany. Mr. Lussy is a graduate of Concordia College, Fort Wayne, and has taken two years of graduate work at the University of Chicago.

Dr. C. J. C. Bennett comes from Michigan to take the position of head of Psychology, left vacant by Professor Hawthorne, who retired last year on a Carnegie pension.

Trainer Hayward and the football management are on the lookout for several students to rub the football men. The job requires strength and faithfulness, but it is well worth the while of the right man. Make application to Trainer Hayward.

COACH WARNER COMES WITH EXCELLENT RECORD

ALL AMERICAN MAN WHO HAS COACHED FOR YEARS

Assisted by Moores and Hunt, Coach Will Put Out Winning Team.

Coach Wm. J. Warner, of Cornell, '02, who has taken charge of the Oregon football squad, possesses a remarkable gridiron record, both as a player and coach. Mr. Warner played on the Cornell eleven four years, from 1899 to 1902, was chosen on Walter Camp's All-American team in '01, and was captain of the Cornell team two years, in 1900 and again in 1902.

In 1903 Mr. Warner was head coach at Cornell University. Head coach at the Sherman Indian School in 1904. Head coach at the University of North Carolina in 1905. At Colgate '06 and '07, with the Sherman Indians in 1908,

and head coach at St. Louis University in 1909.

Regarding Oregon's football prospects this year, Coach Warner expresses conditions as not particularly favorable. With but nine old men back, a great deal of time and hard work will be required in order to turn out a championship aggregation. There are about forty men trying out for the squad, most of whom are inexperienced and light. Regarding the interest and spirit shown by the football aspirants so far this season, Coach Warner expresses himself as highly satisfied.

Assistant Coach Hunt, of Cornell, 1900-'03, has arrived and will help Coach Warner and Assistant Coach Moores in whipping the Oregon squad into line. Mr. Hunt was chosen on Caspar Whitney's All-American team in 1901, and was captain of the Cornell eleven in 1903. In 1905-'06 Mr. Hunt was assistant coach at Cornell University.

Assistant Football Coach Gordon Moores, Oregon '08, arrived Sunday evening and will aid Coach Warner in his efforts to perfect Oregon's fighting machine. Mr. Moores is too well known in Northwest football annals to require introduction. He was the star end or the Varsity for four years from '05 to '08, captaining the team in 1907. He

was mentioned for a position on Walter Camp's All-American team in 1907. Moores was All-American end two years.

MANAGER DOBIE HAS A BALANCE IN HIS FAVOR

Manager Dobie, of the 1911 Oregon, has his accounts about cleared up and finds that he has a comfortable balance on the credit side.

His detailed report is hardly prepared for publication, though it will be given in an early issue of the Emerald.

Dobie's record is considered nothing short of phenomenal, in view of the scope and quality of the book, which far exceeded in size any previous annual. Over four hundred of the books were sold, but as many of the subscribers did not keep their promises, there are still some on hand.

UNIVERSITY WILL WIN HONORS IN NEW FIELD

SOCCER FOOTBALL IS NEW ENTERPRISE HERE

Large Number Out, However, and Give Promise of New Laurels for Oregon.

That soccer football has found a prominent place in University athletics is evidenced by the enthusiastic support given it by Bill Hayward and the twenty or more novices who turn out for practice every night on the old baseball diamond. Of these men, some are gaining a marked proficiency in booting the spheroidal pigskin. In Billy Neill, Ted Holmes, Bush Brown, and Bob Kuykendall, the University has the promise of players who will win honors in a new line. The games this year will be confined, in all probability, to interclass and interfrat meets, but by next year the Varsity should have developed a team able to cope with the best in the Northwest, and it is probable that next year will see a schedule arranged with different outside teams.

It is hoped that the other colleges will take up the sport and furnish the needed rivalry, but if they do not, games will be secured from club teams.

GLEE CLUB TRYOUT SHOWS NEW MATERIAL

Glee Club prospects are good. The annual tryout for the University Glee Club was held in Villard Hall Friday at 4:00 P. M. About twenty-five new songsters presented themselves as candidates for positions. Among this number were some excellent voices, and at the close of the tryout Professor Glen expressed himself as very well pleased with the showing made by the new men, and in speaking of them said: "Why, they are all good." Professor Glen also expressed his regret that he would have to refuse some really good material this year, as all of last year's members are back but six, which leaves comparatively few places to be filled.

On account of the large number of applicants, the tryout was not completed Friday evening, but will be continued next Monday at 4:00 P. M. The Glee Club will be chosen early in the week and practice will start as soon as possible.

BUT NINE VETERANS BACKBONE OF SQUAD

SQUAD IS LACKING IN LINE MEN AND PUNTERS

Large Number of Candidates, However—Men Are Working Hard.

Around a nucleus of but nine veterans, from a squad of thirty or more raw recruits, Coach Warner must build the fighting machine that is to represent Oregon the coming season.

Captain Chuck Taylor, Dean Walker, Sap Latourette, Brick Michael, Bill Main, Dan Mitchell, Bob Kellogg, Ben Chandler and Fat Bailey compose the old guard. Taylor, Walker, Latourette, Michael, Main and Chandler are back field men, unrivalled in their positions. The big gaps in the line made by the loss of such men as Scott, Storie, Dodson, Hickson, Gillis and Kiltz, will be hard to fill. Kellog, the fighting demon from Baker City; Fat Bailey, the invincible guard; and Dan Mitchell, the indomitable center; form a strong center trio, but there are no tackles in sight as yet. These positions must be filled by raw recruits, and Herculean efforts will be necessary to round these new men into shape.

The greatest weakness of the team is in the utter lack of a punter. The team that has no dependable kicker is at a greater disadvantage than ever before, and never in history has Oregon been so deficient in this department. Without a kicker, a superb defense must be evolved, and it is apparently towards this that Coach Warner is bending his efforts; to instill the fighting qualities into his men that will make their line impregnable.

MISS JULIET CROSS, '11, TO HELP IN ELOCUTION

Miss Juliet Cross, 1911, has been appointed assistant in public speaking in the department of Oratory. She will take charge of the freshmen public speaking courses, and thus relieve Mr. Buchen of "Freshman Vaudeville," as it is called.

DEBATE COUNCIL MEETS CONSIDERS NEW LEAGUE Plan On for Pacific Coast Debating League

A meeting of the University debating council was held this morning to consider the coming forensic season. The withdrawal of the University of Idaho from the Triangular Debating League was read and considered. It was decided to take steps to form, if possible, a Pacific Coast debating league, to include Washington, Oregon and Stanford, and manager of debate Walter P. Huntington was instructed to open correspondence with these colleges.

Coach Buchen was present and expressed himself most optimistically over the debating outlook. He believes that with the old men back again and another season's drilling, he can put out a team that could hold its own against any Western college.

Gamma Phi Beta gave a formal luncheon Wednesday.
