

VARSIITY RUNS BIGGEST SCORE EVER SEEN HERE

115 TO 0 IS THE FINAL RECKONING IN U. P. S. GAME

Oregon Scores Almost At Will On the Light and Crippled Tacoma Methodists.

In a one-sided contest on Kincaid field this afternoon, the University of Oregon football team defeated the Puget Sound University aggregation by the score of 115 to 0.

The Oregon team played a wonderful game from the start, and literally carried their lighter opponents off their feet. The Oregon backs scored at will. Captain Taylor carried the ball over for ten touchdowns, and kicked sixteen goals.

Latourette, Kay and Walker were also effective with the ball and aided in piling up the score. In the line, Bailey and Kellogg tore open great holes that a drag could go through, and every buck went several yards.

The Oregon team showed a wonderful improvement in team work and aggressiveness since the alumni contest.

Kellogg	c	Benbow

"COLLEGE GIRL AND HER PROBLEM" AT Y. W. C. A.

The Y. W. C. A. has arranged for a course of lectures entitled "The College Girl and Her Problems." The first of these lectures, which was given by Mrs. P. L. Campbell, was attended by over half the girls in the University.

The second lecture, "Why a Girl Comes to College," will be given next Monday by Dr. Bennett, Professor of Psychology and Ethics. Those who are members of Dr. Bennett's classes in Psychology or Ethics will need no urging to be present.

It is the aim of those who have arranged the course to make the lectures of practical benefit to the University women. Problems of life, in securing an education, and the work of later life, will all be considered. Ways of meeting these problems will be presented by the speakers, with helps and suggestions for a well rounded, useful and efficient life.

In the next issue a complete schedule of the lectures and other plans will be printed.

A recent action of the faculty of the University of Iowa has taken away the two hours' credit given to women for dancing at the institution.

A Quo Vadis club has been organized at the University of Iowa. One of the requirements for entrance is the record of having traveled 1,000 miles without a railroad ticket or without cash fare.

PHILOS WILL ORGANIZE PLAN SUCCESSFUL YEAR

Debating Coach Buchen to Address Initiatory Meeting

The Philologist Literary Society meets Saturday evening, October 22, at 8:00 P. M., in Dr. Leonard's room, McClure Hall.

This is the first meeting of the year. All old members and prospective new members are invited to be present, as election of officers will be held and various plans discussed for the year's activity.

Professor Buchen, the debating coach, will address the meeting and assist in directing efforts.

The "Philos" are working hard to organize the society on a firm basis. The support of the incoming students is solicited.

PAY FOR YOUR DANCING

Sophs Decide to Charge Admission to Class Hop

Following the suggestion of last year's senior class, the sophomore class, in a meeting Thursday, passed a resolution adopting the plan of charging a general admission of one dollar at the sophomore dance.

This resolution is notable as starting a precedent. Though the plan has been discussed pro and con for some time, as a result of the sophomore action the campus is now buzzing with discussions of the affair.

One prominent sophomore, speaking in defense of the resolution, said: "Not more than one-half of the class dances, and the half which does not dance will not pay the class tax which is levied to defray the expenses of the dance. As a result, the class is thrown heavily in debt. Now it seems fair that only those who dance should bear the expense. To charge only the dancers in our class would make the burden too heavy on the few loyal ones who would 'come through.' We think charging a general admission is the best way to handle the financial side of this dance proposition."

NO BOXING OR WRESTLING WITH OTHER COLLEGES

"No, there will be no boxing and wrestling meets scheduled with outside colleges this year. It is not the intention to develop a bunch of sluggers and brawlers, but to teach cleverness in the art of self defense." This was the way Trainer Hayward expressed his attitude toward the boxing and wrestling situation at the University. There will be interclass meets held from time to time during the school year, but probably none before Christmas. The indoor season does not properly begin until after the outdoor games are impracticable, and football will be disposed of before the strong arm stuntsmen begin their season.

Chester Moores, '12, returned Friday evening from Portland, where he has been getting well from an attack of blood trouble.

U. O. FRESHMEN AGAIN OVERWHELM EUGENE HI.

SCORE IS 3 TO 0, DUE TO FIELD GOAL KICKED BY COBB

Both Teams Show Marked Improvement Over Their Work Last Saturday's Game.

The Varsity Freshmen and Eugene High School both showed marked improvement in the game today, which was won by the Freshmen 3 to 0, just one-half the score of last Saturday's contest. The game went but one half, which probably accounts for this.

The teams were about evenly matched, though the ball was mostly in Eugene's territory. The first quarter resulted in no score, and was fast and free from penalties. The work of the Freshmen was characterized by the number of successful forward passes pulled off by them by their fast back field.

The second quarter the Freshmen had considerably the better of the encounter, and although they could not carry the ball over, Earl Cobb made a field goal from the 35-yard line, thus winning the engagement 3 to 0.

The Freshmen bunch showed decided improvement, and seem to be rounding nicely into shape for the Corvallis game here Nov. 5.

Bradshaw, Cobb, Annasen and Bean did especially good work.

ENGINEERING CLUB HAS SUCCESSFUL MEETING

The Engineering Club held their first meeting Friday night at 8:00 P. M., in Deady Hall. About twenty-five members and two members of the faculty were present. Thirty new members were voted upon and admitted.

A resolution thanking Dr. J. A. L. Waddell for the lectures recently delivered here was introduced by Professor Frink. The resolution was adopted and a copy will be sent to Dr. Waddell.

The program consisted of, first, an address by President Struck, urging attendance at meetings and willingness to take part on the program. The talk was short, but full of good advice.

The second speaker was Professor McAlister, who gave an interesting and instructive lecture on graphical methods of solving mathematical problems. The first solution was the determination of the sum of any number of products of two factors each. The second was the determination of the center of gravity and movement of inertia of any irregular shaped body.

The third speaker, Mr. Wm. Reuter, told of his work on Mt. Tabor reservoirs in Portland last summer.

The club is growing rapidly, and the program committee promises a series of meetings well worth attending. All students above freshman standing are admitted to active membership, but all freshmen are cordially invited to attend the meetings.

At the recent fair in Spokane, four out of five prizes in stock judging were won by W. S. C. students.

LEE SAM, '13 SECURES CORNELL SCHOLARSHIP

Will Study Civil Engineering In the East

Lee Sam, ex-'13, has been awarded a scholarship in Cornell. Sam was registered at Oregon in the Civil Engineering Department last year, and did excellent work while here. He took Summer School work during 1909, so when he entered Cornell this fall he had high sophomore standing. During the past summer he took the competitive examination for the Cornell scholarship offered to Chinese students, and won it. The scholarship carries one hundred and fifty dollars, the value of a year's tuition. Sam expects to take his Civil Engineer's degree in 1913. There are over sixty Chinese students enrolled at Cornell this year.

TRI DELTA IS INSTALLED

Local Sorority Obtain National Reception Tonight

Owing to an unforeseen obstacle, the official installation of Kloshe Tillacum as Theta Delta chapter of Tri Delta sorority, was not begun Thursday night as had been planned. Friday, however, from 5:00 to 10:00 o'clock, installation and initiation ceremonies took place. The exact nature of these is, of course, unknown, but the possession, by one of the members, of a skull and other uncanny relics, would point to a most impressive ritual. Six Tri Delta installation officers will personally conduct the ceremonies. They are: Mrs. Holmquist and Mrs. Felix Moore, both of Eugene; Miss Parkersfield and Miss Prull, of Berkeley; Miss Fitch, of Knox College; and Miss Adeline Cellyham, of Washington. The banquet will be held, as planned, at 10:00 P. M., at the Osborn Hotel.

Saturday evening a reception will be given to the faculty and students of the University, and Kloshe Tillacum will exist only as a memory.

TEN REGULARS TRAINING SEVENTEEN GO TO IDAHO

With Homer Jamison's advent to the training table, there is but one vacant place to be filled. There are ten Varsity regulars chosen, and the other man will be picked after the Puget Sound game Saturday.

The showing that men make in this game will determine the seventeen who are to go on the Idaho trip. The team will leave here next Thursday, for Moscow, and return Sunday, playing U. of I. on Saturday.

OLIVER HUSTON NOW AT YALE LAW

Olivers Huston, '10, Oregon's champion sprinter, writes from Yale Law School that he wants his Emerald sent. The Alpha Tau Omegas are giving an informal dance at their home on Oak Street next Saturday evening.

Blanche Ferdine is teaching at Marshfield, Oregon.

INTER SCHOLASTIC MEET TO BE HELD IN EUGENE

GREATEST EVENT OF ITS KIND EVER HELD IN OREGON

Kincaid Track Will Be Widened — Medals and Cups Are Offered As Prizes.

Preparations are well under way for the most elaborate interscholastic track and field meet ever held in Oregon. It is to be pulled off on Kincaid Field next spring under the management of the University of Oregon. The track will be widened to take eight hurdles around the 2:20 turn, and ten on the straight away. This will eliminate the necessity of running heats and will make a faster meet, for the prep school sprinters will be compelled to run but one race. The grading and banking of the track will begin as soon as practicable.

Medals, cups and trophies have been ordered, and will be the most valuable collection of prizes ever offered to prep school athletes. The gold, silver and bronze medals will bear the figure of an athlete in relief in the center, and "University of Oregon Interscholastic Track Meet" engraved around the outside. Upon the back will be the name of the event and the winner.

A large silver cup will be awarded to the winning team. The fleetest relay team will also receive a silver cup, and each member will receive an individual medal. The highest individual point winner will receive a special medal in addition to the medals received in the different events.

The visiting athletes will be quartered at the fraternity and club houses, and it goes without saying that they will be well cared for.

This meet is to be conducted in accordance with the system used in the large Eastern interscholastic meets and Bill Hayward also has ideas of his own as to how a meet should be run. The officials, for the most part, will be selected from the Portland Interscholastic Athletic Association.

Thursday afternoon the Gamma Phi Beta sorority gave a reception for the town and faculty ladies, in honor of their house mother, Mrs. Fuller. Those in the receiving line were: Mrs. Campbell, Mrs. Fuller, Miss Edith Woodcock and Miss Helen Beach.

There will be a formal co-ed hop at the girls' gymnasium next Friday evening, given by the Y. W. C. A. It is urgently desired that every freshman girl be present.

The Beta Theta Pi fraternity was informally entertained by the Gamma Phi Betas Friday evening at their chapter house.

Mrs. R. R. Giltner, of Portland, was a guest of her niece, Nellie Hemenway, at the Chi Omega house over Tuesday.

The Beaver Club gave a house dance Friday evening for their neighbors, the Kappa Alpha Theta girls.

Mrs. Kendall and her mother, from Portland, are visiting Ada and Neil Kendall.
