

DATE FOR UTAH DEBATE NOT YET SETTLED ON

Mormons want Date which will Conflict With U. of W.

The date for the Utah debate at Salt Lake City is not yet definitely fixed. Oregon's manager has proposed March 17, but Utah would prefer March 31 or later.

As Ray and Zimmerman, who are to oppose Utah, must be in Eugene on March 31st to debate the University of Washington, that date can not be considered. The debaters have so arranged their work that they find it impossible to make the trip in April. If the contest were held on the 24th of March, they would not have sufficient time in which to return to Eugene and prepare for the contest on March 31st.

The only practical time for Oregon's team seems to be March 17th, and Utah is now considering this date. A definite answer is expected from them soon.

NEW PSYCHOLOGY PROF. HAS MUCH EXPERIENCE

Doctor Mitchell Will Act Temporarily as Assistant to Dr. Bennett

Dr. Arthur Mitchell, who is to take Dr. Bennett's place in the department of Psychology, in view of the latter's appointment as University field man, arrived Monday from Cambridge. During the interval of accommodation to his new position and getting acquainted with his future students, he will assist Dr. Bennett.

Dr. Mitchell is thirty-nine years of age and is a son of Father Rev. Arthur Mitchell, D. D., of New York. He received his preparatory schooling at Lawrenceville, New Jersey, and entered Yale in 1890, receiving his A. B. in '94.

The two years following he spent as instructor in English at the Syrian Protestant College, Beirut, Syria.

In 1897 he studied theology at Auburn Theological Seminary and at Mansfield College, Oxford, England. Here his plans changed and he returned to the United States to take a post graduate course in English Literature at the University of Pennsylvania, after which he taught languages for one year at the Rock Ridge School, Wellesley Hills, Mass.

The years 1906-09 were spent in the study of Philosophy and Psychology at Harvard, and he assisted in the same institution and also in Radcliff during 1908-11. This year Professor Mitchell secured from the degree of Ph. D., in Epistemology.

Dr. Mitchell's genius is also capable of taking a literary turn. He has had published in the New York Evening Post two articles on life in the Levant, and a story dealing with the same has appeared in Short Stories, a monthly magazine.

A critical review of Henri Bergson's "L'Evolution Creatrice" has appeared in the Journal of Philosophy, Psychology and Scientific Methods, and his translation of the same work has been published by Macmillan C., of London, and Holt & Co., of New York.

Tufts College, after fifteen years of co-education, has adopted segregation.

MINSTREL SHOW WILL BE "THE" ATTRACTION

Varsity Jokesters Will Appear With Black Faces and Comic Stunts

The minstrel show to be given Saturday night at the County Fair by the prominent members of the student body promises to be the leading feature of the year in dramatics. Nightly practice is being held, and although the troupe has been together but a few times, the originality of the performers puts the show in a class with the shows of Richards & Pringle and others—almost.

There are twenty-two students taking part, six being end men, with Tom Burke as the center piece.

All the late "classic" music is being used by these "Abyssinian rascals," and the jokes are of such type that even the walls will have to laugh.

Bill Mott, whose experience in minstrel show work has been quite varied, is assigned a solo that will be a scream. This alone is worth the price of admission. Such calcium light stars as Vawter, Storie, Roberts, Latourette and Robison will appear in the roles.

Fat Bailey, the heavy weight of the company, will do a few turns which promise to bring much applause from the ladies.

A new system is to be installed at Columbia University. According to the plans announced, the deans of the various schools of Columbia will meet the students of their departments once a week to talk over and advise upon the reasons for the choice of their life work. The deans will also advise those students who contemplate changing their plans for their work.

The preliminary rounds in the High School Debating League will practically all run through by the close of the present week. Half of the schools contesting are eliminated. After the quarterly and semi-finals, the championship of the state is decided in the finals at the State University, in the spring.

The girls at Wellesley recently held a "silent party," in order to help raise cash for their new building. Any girl who spoke was fined ten cents. The party lasted one-half hour, and the net returns were \$42.20.

The total enrollment of U. of W. is, in the last report, 2345. This shows an increase over last year's enrollment and places the U. high in the rank of universities.

It is reported that President Benjamin Ide Wheeler, of the University of California, will probably be elected provost (president) of the University of Pennsylvania.

BASKETBALL
Reserved seats for the Pulman-Oregon games will be on sale at Linn Drug Co. Friday morning at 9:00. Price, 50 cents.

RETURN CONCERT DATE WILL BE MARCH 18TH

All New Stunts and New Songs Throughout—Ding and Lee Will Sing a Duet

The return concert of the Glee Club has been definitely set for Saturday evening, March 18. Manager Stine and Professor Glen concur in declaring the coming performance the best that has been given by the club this year. An extensive list of new songs and stunts, together with all the old favorites, is what they will offer the public.

Among the new songs which the club is practicing, are an "Italian Love Song," "Under the Yum Yum Tree"; and "Where is My Little Ain't He?" William Lai will sing a solo, and Messrs. Lai and Ding will be heard in a duet.

Burns Fowell and Ickey Ogden intend to present their stunt, which made such a hit on the Eastern Oregon tour. The "Little German Band" has prepared an entirely new stunt for the concert, and the "Dope Center" sketch has been enlarged by the introduction of several comic solos.

The students in the free hand lettering department have consented to work up a number of posters to advertise the concert. Manager Stine is gratified by the interest of the students in this final appearance of the club, and expects a well filled house.

STUDY OF SCHOOL SANITATION MADE

With a view of maintaining health in the school rooms, and conserving vitality and resistive power to disease in school children, the department of Bacteriology in the University of Oregon is making a comparative study of the actual conditions of ventilation and heating in the school buildings of the state. The results will be set forth in a bulletin to aid in developing the proper sanitary conditions in both city and country school buildings, which will be serviceable to school boards in the construction of new buildings and the remodeling of old.

Statistics show that the vital resistance of children falls off with the beginning of school age. Experience also has repeatedly shown that a much shorter time under strictly sanitary conditions, with abundant fresh air, is productive of greater results in the school room than a longer time in unsanitary rooms. As an exaggerated example, witness the open air schools in England and Germany.

The bulletin of the department making the study will be complete with practical plans for insuring proper sanitary conditions in schools, and will be put in the hands of every school board in the state.

Columbia has started a student bank in connection with other student activities. The bank is connected with the business office and pays no interest.

Invitations are out for the Gamma Delta Gamma formal to be given March 4, at their house on Thirteenth street.
