Associated Students Meet.

The regular meeting of the student body was held at the assembly hour this morning in Villard. The minutes for the meetings of the past year were read and approved. It was definitely announced that the school would enjoy a holiday on Thursday, Washington's birthday, and a basketball game between Washington High of Portland and the Oregon Freshman was announced for March 2. As no special business was to be considered, the meeting adjourned.

Assistant Manager Wanted.

Walter Dobie has left college, leaving vacant his position as assistant manager of the Emerald. Any one desiring the position should hand their names to Leon Ray, or the executive committee before next Wednesday.

Dramatic Club to Meet.

A regular meeting of the Dramatic Club will be held in Villard Hall Thursday, February 23, at 7 P. M. As important business is to come up for discussion, all members are urged to be present.

'15 BASKETBALL TEAM PLAYS WASHINGTON HIGH

Freshmen "Quintet" to Play Visitors
Here in Two Weeks—Close Game
Is Assured.

The varsity basketball fans will be treated to a snappy exhibition on March 2, when the Freshmen team closes in the death grip with the strong five from Washington High School of Portland.

The game should be worth seeing, for while the Freshmen perhaps number more individual stars in their lineup, they will be up against a quintet which has been playing together all season, and consequently will have the advantage in team work. The visiting team comes well recommended by all the other prep schools of Portland, each of the latter having fallen a victim to the Washington bunch.

The Freshmen finished in second place in the recent inter-class league race, but the lineup which will appear Saturday night will not be the same as that which was played in the former games. The team will be weakened by the absence of "Pinkey" Rader, who has been recruited by Captain Jamison for his first team squad. Several new men who have not played before are now trying out, however, and the varsity youngsters still expect to nose out a victory over the visitors.

It is announced that the game will commence at 7:30 sharp, in order to avoid a clash with certain social functions which are scheduled for the same evening. A silver offering will be taken at the door in order to satisfy the Southern Pacific Company and other unreasonable claimants whose assistance will be needed to stage the big contest. A return engagement will be played in the Washington High gymnasium in Portland a week later.

The Freshman lineup will be chosen from Boylen, Vosper, Gould, Watson, Boyce, Fenton, DeBarr, Parsons, Street, and Bigbee.

VARSITY TRIP SUCCESS

Basketball Team Scores Six Victories;
Two Defeats and Reputation for
Sportsmanship.

The Oregon five returned to Eugene Sunday afternoon, bringing with them six victories, two defeats, and about seventy-five dollars to add to the student body treasury, the last named being due to Coach Hayward's management. There is no tendency among members of the team to crab about the loss of both games with Washington. Clementson, last year's Washington captain, who refereed the games, gave both sides a square deal, according to Captain Jamison. In the second game Clementson called no fouls in the second half when the score was close and let field baskets only count.

Graduate Manager Geary received a letter last Monday from the director of athletics of Gonzaga College, commenting on the sportsmanship of the Oregon quintette and expressing a desire for future relations with Oregon teams. As a contradiction comes a wild howl from the Walla Walla Y. M. C. A. of the manner in which the Oregon team greased the floor. The habit of putting vaseline on rubber soled shoes to prevent slipping, was entirely new to the Walla Walla fans, who threatened several times to take the floor themselves. This was the only non-college team met during the trip and proved to be the only place where the Oregon team experienced any difficulty.

Chemists Organize Club.

A new club is being organized this afternoon among the scientific minded students of the University. It is to be called the "Chemistry Club" and will draw its membership largely from the mixers of various concoctions permitted in dry towns. The purpose of the club is social as well as scientific mutual benefit and a program will be given at each meeting.
