

We Guarantee

That the Royal Standard Typewriter is made of the highest grade materials obtainable and by the most skillful workmen money can hire;

New Model 5

That it will do work of the best quality for a greater length of time at less expense for upkeep than any other typewriter, regardless of price.

Every Royal has this guarantee back of it—and back of the guarantee is one of the most important typewriter organizations in the world.

ROYAL
STANDARD
TYPEWRITER

Model 5, \$75, same as Model 1 with Tabulator. No extras.

THE ROYAL is in every way a thoroughly standardized, high-grade typewriter, yet possessing many essential features which make it *fundamentally superior* to old-line machines.

Note particularly the graceful, low-hanging build of the Royal; how all superfluous structure has been eliminated. Touch the keys, and you are charmed by the responsiveness of the action, astonished at its smoothness and speed.

There are fewer Royal repair men, per thousand machines in use, than for any other typewriter.

The Royal has established a new standard in *standing-up* quality. This is proved by the daily service of thousands of Royals in the strenuous "grind" of railroad, insurance and big corporation offices, as well as important departments of the United States Government.

We want to interest you in the Royal only on its *proved merit and serviceability*. Write or telephone us, right now, as thousands of the best concerns are doing, and let us demonstrate in your office, free from obligation, the New Model 5 with *Two Color Ribbon Device, Tabulator, Back Spacer, Tilting Paper Table, Hinged Paper Fingers*—in fact, all desirable improvements to be found on any machine at any price—and then some others exclusively Royal.

WHAT THE COLLEGE EDITORS ARE SAYING
ABSOLUTELY ABSURD

(O. A. C. Barometer.)
The statement comes from the U. of O. that the students have petitioned the faculty of that institution for a football game to be played on our campus. The Oregon Emerald makes statements regarding the proposed measure and in all probability these statements are made in absolutely good faith. The sportsmanship of the U. of O. students is not questioned, neither is their desire to be on friendly terms questioned, but the fact that they are in the situation they are in, is lamented.

The one cry from both student bodies, alumni of each institution, and the general public at the time of resumption of athletics relations was for a football game this fall and for that game to be played in Portland. This stand and only this stand has been held by O. A. C., no other proposition has been considered. O. A. C. would just as leave play U. of O. at Eugene as at Corvallis, but the great big fact which is to be dogged looms up when either campus is considered.

Unpleasant feelings have been aroused at every game ever played on either campus and the consensus of opinion is that the proper and only place for the game is on neutral ground, preferably Portland.

The students of the U. of O. are certainly high minded enough to see the fallacy of their proposition, if they but stop to consider. Manager Geary certainly deserves censure for offering such a proposal and attempting to carry it through on a wave of momentary enthusiasm. It is perfectly natural that, when the football fever is on, a crowd could be swayed to agree to most any proposition without second consideration.

Two facts which remain firm are that Corvallis is just as much off the U. of O. campus as is Portland and if the U. of O. team can play in Corvallis, why not in Portland? Then comes the most important issue of all, the guarding against repetition of unfriendly feelings, the safe way to do this is to play the game in Portland, if played at all. This has been, is and will always be the only stand of O. A. C.

Students Move Library.

PACIFIC UNIVERSITY, Forest Grove, Ore., Oct. 12.—The student body turned out on the occasion of a half holiday given by the faculty yesterday to move the college library into the new building. The men carried the boxes of books across the campus, ran wheelbarrows and transported furnishings all afternoon, at the close of which the co-eds served lunch. The library consists of nearly 18,000 volumes, about 9,000 of which were moved yesterday. The new steel stacks are being placed into position and the building will be ready for the formal opening in about 10 days.
