SENIOR CASTE IS ANNOUNCED

VERNON VAWTER AND FLORENCE BONNELL HOLD LEADING PARTS IN THREE ACT COMEDY

STORY OF COLLEGE LIFE

Scenes Center About Berkeley and in San Francisco—Duplicate Cast Provided.

"A Strenuous Life," a three act college play, with Vernon Vawter and Florence Bonnell in the leading roles, is to be the dramatic offering of the Senior class, April 5.

The scene of the play centers around Berkeley, California, and has to do mainly with the life of Tom Harrington, football captain. Besides holding this position, Tom is supposed to be a mathematical shark and in the mind of his father, a high brow.

His father's visit "the morning after a night before" in Frisco, for which Tom is somewhat the worse, leads to complications which are exciting and strenuous.

A genuine college atmosphere will be heightened by the hazing of a Freshman, while a full dress will dignify the third act.

Caste Is Picked.

While Mr. Vawter and Miss Bonnell carry the leading parts, the play is by no means a two star production. Glen Storie, as Reginald Black, Tom's friend and roommate, Lucile Abrams, in the role of Ruth Thornton, college girl, Robert Fariss, father of the hero, and T. H. Wentworth, a miner, father of the heroine, come on for strong parts. Every member of the cast of fourteen was carefully chosen by the committee. The only thing being taken into consideration was his or her special qualification for the part.

Following out the request made by William Bernard, director, the committee picked a second caste. The names of these will not be given out, but Mr. Bernard is at liberty to transfer any member in the first caste, if those first given the part fail to make good. The parts were given out Wednesday morning, and Mr. Bernard will be here in a week or two to begin the rehearsals.

Says Play Up-to-date.

"This play," said Ernest Lamb, chairman of the committee, "is strictly up to date, and will be the best ever put on by a Senior class."

The committee who had entire charge of choosing the play and picking the caste, were Ernest Lamb, chairman, Nellie Hemenway, Lenore Hansen, Fay Ball (acting for Bess Lewis), and Harold Warner.

FRESHMEN PROMISE A DISTINCT DEPARTURE FROM USUAL CLASS DANCES IN ANNUAL GLEE

The Annual Freshman Glee, which is to be held Saturday evening, is to be a distinct departure in class dances if the promises of the class of 1906 are made good. The decorations are unique, inasmuch as suggestions of St. Valentine are to be used. Thousands of red hearts are to be strung throughout the main room of the Men's Gymnasium, which, with the liberal use of red streamers and evergreens, will make a festive appearance. The floor, which usually is a source of worry to thin soles, is to be in the best of condition, as the

"SPRING HAS COME" SAYS BOVARD, "A LITTLE BIRD TOLD ME SO"

Grosbeak, Kinglets, and Blue Birds make Better Weather Prophets than Does Ground Hog.

An unusually early spring this season is prophesied by Dr. Bovard, head of the pre-medical department. He says, that a little bird, or rather several little birds, told him. "You can pretty nearly count on the birds," said Professor Bovard this afternoon, "when it comes to foretelling weather conditions. Take for instance the evening grosbeak. When spring arrives at the ordinary time, these birds would not be on hand for at least two or three weeks more, but this year they have been here for the last weeks, and in considerable numbers, too."

"The kinglets, also," he said, "know a good deal about the coming of spring, and I notice that they are among the early arrivals. Bluebirds generally stay during the winter, but during the past winter season they have been present in unusually large numbers in evident anticipation of an early spring."

"You don't think much of the ground-hog theory, then?" he was asked. "No, not for Oregon," he replied, "for that weather predictor is too far away from this section of the country to know much about it."

FRESHMEN WORRY OVER CLASS FINANCES

Have on Hand \$15. Yet Must Pay Some \$125 for Dance Which Occurs Saturday.

University Freshmen are worrying about finances. With but \$15 in the treasury, the Freshman dance occurs on Saturday night of this week and will cost over \$125. This was the proposition put before members of the first year class, and it served to tone down the smile that might have spread over the class picture taken following the meeting. The approaching deficit will be met by a tax. At present a levy of \$1 has been made, and has allowed to go uncollected. This will be immediately gathered by Treasurer Fee.

The weakness in the finances came as a surprise to many of the class. But a short time ago the funds on hand totaled some \$60. Several exigencies have recently occurred, the most severe of which was the Washington High School basketball, which cost \$35.

At the same session of the class Chairman Toozee, of the debate committee, explained the forensic situation and issued a call to members of the class to enter the competitive try-outs, which will soon occur, preparatory to the selection of the team to meet that of the Sophomores.

REASONABLE RELIGION THEME OF PADDOCK'S ASSEMBLY SPEECH

AVERAGE WESTERNER, HE CLAIMS, WANTS CREED BASED UPON COMMON HORSE SENSE—PROBLEM OF LIFE IS NOT TO GET TO HEAVEN, BUT TO IMPROVE THE HUMAN RACE

"Reasonable Religion," was the theme of Bishop R. L. Paddock, of the Eastern Oregon diocese of the Episcopal Church, in a powerful address before the University assembly yesterday, in which he explained the necessity of clean living from a utilitarian standpoint rather than the theological.

"The average man of the West today is craving a reasonable religion,—one based upon common horse sense," he declared. "Not that which is up in the clouds, but that which will come down and sweep the streets. The idea that God is angry, and wants to punish us, is wrong. Many natures rebel at it. We must come down from the theological divisions which man has in a large way invented, and which has no bearing or interest upon life other than perhaps in a historical way. We must come down from the ecclesiastical divisions, at which the average man is provoked and rebels at. We must use more common horse sense in religion."

"It is not so much to get men to heaven as to get heaven into men. The problem of morality is the problem of making the race better. It is part of God's evolution."

"We must keep our bodies sacred,

not to avoid punishment, not disgrace, nor detection, nor pain; we must keep our blood pure, not to avoid giving pain to her whom God has given us as our life companion, and condemning 'her' to suffer for our transgressions, but that we may give to the world the highest product of our bodies, a pure baby, one not damned into the world through our vicious living.

"It is perfectly normal for every man to want to live—even after he is dead. He can do it through his child. He wants to do some good in the world; he does it by living so that he will not give that child a tendency toward depravity. To do so, he must live a clean life at all times. It is too late to say, 'When I get married, I'll brace up,' or, 'When I am engaged I will be a better man.' If we are to be successful fathers and mothers, we must prepare. It will not do to reform just before the birth of the child. It is then too late. The child may be born, not only with disease, but he will have developed passions for inferior ideals. The man who delays in this manner looks upon marriage not as a factor of evolution, but only as a means of gratification of the animal instincts."

EUGENE GAME WITH WHITMAN UNCERTAIN

Next Fall's Gridiron Contest Hangs on Occidental Trip Which is Unlikely.

Although a game with Whitman College eleven on November 22 next fall in Eugene has been looked upon as practically certain, a letter received today by Manager Geary from headquarters at Walla Walla indicates that the contest may not be pulled off as planned. The game was to be played during a trip to be made by the Missionaries to Occidental College, and at present this game has not been definitely arranged.

Walter E. Lee, in his letter to Mr. Geary, says, "The game with Occidental is by no means cinched as yet. We are trying to make arrangements for such a game, but chances at present seem pretty slim. If all arrangements were made, we would be very glad to consider your offer, but as matters stand, there seems to be small likelihood of our getting down into your country next fall."

ASK CONKLIN TO SPEAK TO NOMINATE OFFICERS

Portland Y. M. C. A. Asks Psychology Professor to Deliver Series of Addresses.

At the request of the Young Men's Christian Association of Portland, through the Extension Department of the University, Dr. E. S. Conklin will deliver a series of lectures in Portland on each Friday evening of the following five weeks, upon the subject of "Mental Hygiene."

The subjects of the lectures will be: "Conditions of Mental Efficiency," "Habit and Happiness," "Hygiene of Emotions," "Worry," and "The Psychology of Self Control."

Dr. Conklin will also give short talks upon the same subject, at the noon hour, to the business men of the city. The lectures will be given in the Y. M. C. A. building and will be open to the general public.

OREGON WINS THIRD GAME FROM IDAHO

Score Last Evening, 19 to 5; But Suffers Second Defeat from Washington Yesterday.

MOSCOW, Ida., Feb. 13.—(Special to the Emerald.)—Oregon defeated Idaho last night by a score of 19 to 15. The game was fast and hard fought from start to finish. Idaho excelled in passing and Oregon in basket shooting. The score at the end of the first half was, Oregon 10, Idaho 5.

Idaho came back strong the second half and at one time tied the score. Fenton and Bradshaw starred for Oregon. Sims guarded well. McNett scored 13 points for Idaho.

Edmundson refereed a satisfactory game.

University of Washington duplicated the score in the second game Tuesday, winning 25 to 15. Oregon excelled in passing, but could not locate the basket. Byler and Robinson each threw four baskets for Washington. Oregon's scoring was scattered, Fenton leading with four.

HERE'S A HOT ONE, BUT IF TRUE IT IS TIME WE KNEW

Emerald is Silly; Works University Harm, Say Eugene Society Women; One a Graduate.

Two prominent society women of Eugene, one of them a graduate of the University of Oregon, have no use whatever for the Oregon Emerald, according to a conversation yesterday.

Their general charge was that the Emerald was "not of the proper influence among the people of Oregon." As a paper for the students it may be all right, they declared, but it was not working for the best interests of the University among the people. The one, a suffragette, declared, that the Emerald was simply a "silly sheet," and that the recent full dress agitation was "all foolishness," for nearly every student could afford a full dress suit, and if they could not, they should have spunk enough to go without.

The University graduate declared that she would not send her children to the University, if it was represented correctly by the Emerald.

FAST CROSS COUNTRY RACE PROMISED SOON

Inter-class Run Will Have Stars, McClure, Windnagle, Huggins, and Others.

The annual inter-class cross country race scheduled for either Friday or Saturday of next week, now that Huggins and Windnagle have returned to school, promises some surprises. Last year Captain McClure of the Junior team was the first man over the line, making a record for the event, but the Freshman team won first place in the number of points. This year the Sophomores will have two of those same men, Blackaby and Pack. With the reinforcement of McConnell and Boylen, they will be one of the strongest contenders for the Hayward cup. The Freshman team has not been definitely announced, but their entries will be picked from Windnagle, D. Onthank Barber, Holt, and Saunders. For the Juniors only three men are training, Huggins, Young, and King. The Seniors have two men, McClure, last year's champion, and Allen, a distance man at the University of Virginia.

The cross country held last fall was a surprise in that Windnagle managed to edge it over McClure at the finish, because of his sprint. This time, with four strong men in the race, it gives prospects of a new record. The cross country course is about three miles. The start is made on the track,—once around and out Alder street to the second cemetery and back University avenue, with the finish on the track.

address outlining the needs of the society and the future policy to be pursued.

UNIVERSITY WOMEN CARRY OFF HIGHEST HONORS AMONG THOSE HOLDING ALL "S" OR "H" CARDS

Twenty-seven students in the University made grades of "S" and above in all subjects in the recent semester examination. Of this number eleven are men and sixteen are women, representing all classes of the University.

Miss E. Vaughn McCormick, a Freshman registered from Eugene, stands at the top of the list, her grade card disclosing four "H's" and three "S's." Miss McCormick is majoring in Latin.

Next in order is Miss Gladys Graybill, a Freshman from Nampa, Idaho, who is majoring in mathematics, and

SCHEDULES GIVE COMPLICATIONS

GEARY TIPPED OFF TO WATCH ACTIONS OF WASHINGTON REGARDING DUAL TRACK MEET

ATHLETIC WAR IS PROBABLE

California Disregards Northern Colleges in Planning All-Coast Meet.

That the management of Washington may not be acting in good faith in regard to the Oregon-Washington dual track meet scheduled for Junior Week-End, and for which a contract has been signed by the graduate managers of both institutions, was the substance of a telegram received last night by Manager Geary, from the sporting editor of one of the Portland papers.

The specific grounds for this belief were not given, although the only reason that Manager Geary can find for this suspected action of Manager Horr, of Washington, is that the Seattle aggregation does not want to risk their chances in the all-coast dual meet, which takes place at Berkeley that same week. Yet, should this be the cause of the Washington action, it is in violation of their promise made less than a month ago, to aid Oregon in demanding that the all-coast meet be held in some northern city, preferably Portland, for this year at least.

Manager Geary is not willing, however, to put too much faith in the report, for he still believes that Horr will live up to his contract. "I hope that he will," said Geary this morning. "From the monetary standpoint at least, it is highly necessary that the dual meet be held here, for Junior Week-End brings out one of the best paying crowds that we can expect the whole season. Last year at the O. A. C. meet, that was held here, we cleared up \$300 more than at the conference meet in Portland. The Washington meet, if postponed, cannot be held the week following, for no crowd can be expected at that time, and the week preceding Junior Week-End, we have baseball games with O. A. C. scheduled."

The prospects for the all-coast meet being held in Seattle or Portland this year, as Geary has suggested, do not look good to the manager, who said, "I am afraid, it can't be pulled in the north this year. William Donald, the new manager at Berkeley, has already sent out a circular letter, to the various colleges having a right to participate. He has done this in spite of the fact that for the last three years Berkeley has ceased to be a paying city for the meet, and that Donald has no right to decide alone as to the location of the dual meet."

UNIVERSITY WOMEN CARRY OFF HIGHEST HONORS AMONG THOSE HOLDING ALL "S" OR "H" CARDS

who received four "H's" and two "S's."

"H's" and "S's" in Pre-Medic. Although the pre-med course is considered one of the most difficult in the University, yet that fact did not keep James Loundegin, a Freshman registered in that department from Garfield, Washington, from securing third place with three "H's" and four "S's." Loundegin, who is thirty-seven years old, is one of the shining lights in the pre-med department, and his record is more than ordinary.
