WOMEN'S SPORTS TO BE ORGANIZED

AT MASS MEETING TODAY, CO-EDS TAKE FIRST STEP TOWARDS FORMING ATHLETIC ASSOCIATION

PERMANENT ORGANIZATION SAT.

Each Sport Will Have Its Own Committee in Charge—Field Hockey After Vacation.

Temporary organization for the University of Oregon Women's Athletic Association was perfected this afternoon at 3 o'clock, at a mass meeting of the women of the University at the Women's Gymnasium, and a committee appointed consisting of Faye Ball, Pauline Coe, and Louise Bailey, to draw up a constitution, to be presented at the next meeting Saturday afternoon at 1 o'clock, when the permanent organization will be effected and officers elected.

Each Sport to Have Committee. Carin Degermark was chairman of the meeting and Grace Hartley acted as secretary. Miss Harriet Thompson explained the purposes of the proposed organization, and what it would mean to the women of the University.

The plan as outlined for the management of the various sports that will come under the Association's jurisdiction, which includes tennis, field hockey, basketball, archery, canoeing, walking clubs, field and track meets and golf, is to have an Executive Committee in general charge of all the sports, with a special committee composed of the captains or leaders in each activity in immediate charge of the sport.

This will give to the women virtual control of their own activities. There will be dues, but they will apply only to the incidental expenses, the University paying for all apparatus.

Tennis, golf, and field hockey, will be the only sports indulged in this spring, and the latter only after the spring vacation. The track and field meet will have to be held in the Gym again this year, on account of a scarcity of funds with which to buy apparatus.

ENGINEERS SPEND WEEK-END IN SURVEYING RAILROAD

Ed. Martin and O. Stohr, two Seniors in the Engineering departments, spent the last week-end seventeen miles up the Mohawk River, doing partial engineering work under Professor McAlister's supervision. The two students are surveying and planning a spur line for the Mohawk branch of the Southern Pacific. This supplants the regular thesis requirements of the department.

FRATERNITIES THREATEN BOYCOTT OF Y. W. C. A. COUNTY FAIR STUNTS

Representatives from every fraternity and club in the University, except the Dorm, Zeta Phi and Kappa Sigma, meeting at the Sigma Chi house today at 12:30, passed a resolution to the effect that they would not put on any stunt or show at the coming Y. W. C. A. County Fair, March 15.

This action was the result of a feeling that has been growing among some of the fraternities that they should not be called upon each year to furnish such entertainment at the Fair. Speaking this afternoon, one of the representatives who was at the meeting, declared that when the Fair proposition was first put up to them several years ago, it was with the understanding that it should be for

BASKETBALL MORE PROFITABLE TO PHYSICIANS THAN BARBARIC FOOTBALL

Doctor's Bills for Basketball Team Already Three Times as Great as During Football Season.

Basketball has cost more doctor's bills already this year than football did last fall, and the basketball season is not yet over. Last season's football games cost but \$10 through the whole season for physician's services. This seems low, but it is low because Bill Hayward attends to all but the more serious accidents and bruises of the sports activities. Basketball, however, has cost \$30 for the same class of services, and the four heaviest games are yet to be played.

College basketball is no parlor game. Twenty dollars have been paid to dentists for repairs to lost teeth. Tommy Boylen, for instance, had two front teeth knocked off in the game with Washington. Five dollars each have been spent upon Bradshaw and Fenton for doctor's services. The minor bruises have been many.

WOMAN JOURNALIST TALKS TO STUDENTS

SAYS NEWSPAPER MAN MUST BE EDUCATED

Mrs. Wetherred, "Mother of Journalism," Makes First Appearance Before News Class.

"I have sometimes been called the mother of journalism, although I may not look that old to you," said Mrs. E. T. Weatherred of Portland, in her address before the students of Journalism yesterday. Mrs. Weatherred began the agitation for the chair of Journalism in the Universities several years ago and her ideas met with much opposition at that time. Her first public speech in favor of college educated newspaper men, was made before the National Editorial Association which was held at New Orleans several years ago. She said in this talk that a newspaper man must be an educated man, a man amply capable of moulding the opinions of others and uplifting the community in which he resides.

In giving advice to the students, Mrs. Weatherred said, "Be careful what you write. Commendation is better than condemnation. Many suicides are caused by a few words of censure printed in the newspaper, whereas a few words of encouragement would have helped greatly. Give out the best you have of your disposition."

Although Mrs. Weatherred has agitated the teaching of Journalism in (Continued on last page.)

INTENSE RIVALRY CHARACTERISTIC OF OREGON-O. A. C. GAMES

OREGON'S LINE-UP CHANGED; FENTON BACK AT CENTER

Four Games Will Settle Collegiate Championship of State—Dope Favors O. A. C.

A State championship, a crowd of one hundred and fifty O. A. C. rooters, and a clash between two well trained and well coached fives, will be features of the two basketball games tomorrow and Thursday evenings between the Oregon Agricultural College and the University of Oregon quintet, in the Men's Gym.

Not only do the games themselves promise to be the best seen on the local floor this season, but the crowd will likely surpass anything this season. Extra bleacher seats will be erected, and a second row will be added to the gallery.

As to the games themselves, everything is guess work. This much is known, however, that Fenton will positively be in the first line-up, a fact that gladdens the fans, and that Burdick, the star 112 pound Aggie forward, will in all probability be out of the first scrimmage with a bad ankle. Although "Doc" Stewart's aggregation stands 200 points above Captain Simms' collection of basket shooters, the dopesters are not so sure that the O. A. C. five can repeat over the lemon yellow, and chiefly on account of the recovery of Fenton. Their two recent victories over Coach Bohler's W. S. C. team was explained by the fact that the Washington Aggies had the title nailed to a mast, and that they didn't care if they won or not.

Anyway, Hayward has been putting his team through a strenuous workout since the last game, and this afternoon, after a light practice, declares that the men are in good shape for a hard tussle, except Fenton, who is still nursing a lame back.

DEMOCRATIC SPIRIT TO PREVAIL AT BALL

Inauguration of President Wilson to be Celebrated Tonight by Senior Ball.

The Inauguration of President Woodrow Wilson will be fittingly celebrated by the Seniors of the University tonight with the Lottery Ball, at Folly Hall. All the members of the class have entered heartily into the spirit of the affair and the dance promises to be one of the most democratic and enjoyable of the year, and the event is calculated to go down in history with the other important and notable occurrences of this date. Everyone will be there. Even those who do not dance have signified their intention of attending, if for no other reason than to see how the combination of Madame Chance will look.

The Grand March will commence promptly at 8:15, with President Edward Bailey and Miss Hazel McKown leading. Next in command will be last year's Junior President, Dean Walker, and Miss Minnie Holman.

The patronesses will be: Mrs. John Wagner, of Ashland, Miss Bonisteel, Mrs. Cuyler, Mrs. Gray, Mrs. Bancroft, Mrs. Currier, Mrs. Jessup, and Mrs. Powell. President Campbell has also consented to act as patron for the evening.

STUDENT DANCE WILL GIVE WAY TO CORVALLIS EXCURSION

Number Who Agree to go Passes 125 Mark, but 50 More Wanted.

"On to Corvallis," is the slogan of the rooter's excursion, Friday afternoon, to witness the basketball games between the University of Oregon and the Oregon Agricultural College. A special car has been chartered for the 126 tickets already been pledged, with a rate of \$1.65 for the round trip. Yell Leader Abe Blackman and Assistant Yell Leader "Dutch" Young have been soliciting the names of all who intend to go. Those who have not been interviewed by these men, but who are going to join this excursion, will greatly facilitate matters, if they will hand in their names at once.

The Student Body dance, scheduled for Saturday night, will be postponed, provided 125 tickets are bought, and the round trip rates are good until Monday morning. The special train will leave Eugene at 4 o'clock Friday afternoon, and those who wish to stay for only one game, may return on the regular train, which leaves Corvallis at 10:10 Friday night, or they may return at any time Saturday or Sunday.

There will be plenty of seats, as the O. A. C. manager has reserved 125, which will be held until Thursday noon. Hence all the rooters, who join this excursion, must have their names in by Wednesday night. Corvallis is planning a similar excursion to Eugene, "so let's show lots of pip and help our team to win all the games," is the spirit on the campus.

Fifty rooters are still needed to make the number a real Oregon rooters' delegation. Boost this proposition by signifying your intention of swelling this band of rooters. (Continued on last page.)

VIOLIN TRIO FEATURE OF CHORAL PROGRAM

Florence Cleveland and Florence Avery Will Appear in Solo Roles.

Another feature has been added to the program for the Women's Glee Club concert, March 14, which Director Melvin Ogden promises will be replete with surprises and innovations. This latest addition consists of a violin trio, composed of Lucile Abrams, Meta Goldsmith, and Mary DeBar. Bess Bach, the regular club accompanist, will act in the same capacity for the violinists.

One coincidence of the performance will be the fact that two of the soloists for the evening, Florence Cleveland and Florence Avery, president of the club, have both been soloists of note in different University affairs. Miss Cleveland had the leading role in "Princess Chrysanthemum," the operetta given two years ago by the same organization. In that performance, Miss Cleveland made a decided hit.

The other soloist, Miss Avery, has the distinction of having been the only woman soloist that has ever appeared upon a men's Glee Club program. This was at Hood River, her home, on the occasion of the club's visit to that place on their last trip.

NINE POUND DAUGHTER IS BORN TO PROFESSOR AND MRS. F. C. AYER

Faculty Children Now Number 43, With the Latest Addition Born Yesterday.

With the birth of a 9-pound daughter to Professor and Mrs. F. C. Ayer, yesterday morning, at 8 o'clock, at the Mercy Hospital, the number of faculty children, compiled by the Emerald statistician for the third time this year, has reached 43. As yet the latest addition to Faculty row has not been named.

California has issued their annual invitation to the Pacific Coast conference track meet. Every college with any record of note in track will be invited in order to ensure a fast meet. Idaho because of distance and O. A. C. because of repeated failure to accept the invitation, will likely be extremely doubtful of securing an invitation.

THESIS MAY GIVE TO BEEFSTEAK NEW ROLL

MARTZLOFF SEEKS DIGESTIVE
VALUE OF TISSUE EXTRACT

Investigation is Along New Lines—
Effect of Juices on Assimilative
Process Sought.

A thesis, that may result in a definite contribution to the medical science and science of dietetics, entitled the "Digestive Value of Tissue Extracts," is being prepared by Karl H. Martzloff, under the direction of Professor John Bovard, of the pre-medic department.

Should the expected be found to be true, after a number of experiments now being carried on are finished, beef steak, rare and juicy, may be the accepted substitute by doctors and scientists for pepsin, pancreatin and other caripeptic preparations now in vogue. If the extract, pressed from animal tissues, demonstrates its therapeutic value, a new phase may be put on the whole question of the relative merits of vegetarianism and the meat diet. Porterhouse may take its place among the list of remedial tonics, as well as hold its present position as a food.

The manner in which this investigation is being conducted is by determining the extent to which the tissue juices aids the salivary digestion, as carried on in the mouth. The same test is made upon its effect, beneficial or otherwise, upon the other two digestive processes, as carried on in the stomach, or gastric digestion, and in the intestines, or intestinal digestion.

WORLD'S NEWS SUMMARY---INAUGURATION AT WASHINGTON---CABINET IS ANNOUNCED

WASHINGTON—The five thousand suffragettes marching through the streets of Washington had a hard time making any progress because of the great crowds which thronged the streets to view the parade. The mounted suffragettes aided the police yet the cavalry had to be called on to clear the streets.

WASHINGTON—The men who have been selected as cabinet members by President Wilson are: Secretary of State, Wm. J. Bryan, of Nebraska; Secretary of War, Lindley M. Garrison, of New Jersey; Secretary of Treasury, Wm. G. McAdoo, of New York; Attorney General, James Mc-

BASEBALL TEAM MAY GET COACH

ATHLETIC COUNCIL WILL DECIDE QUESTION DEFINITELY NEXT WEEK

PROFESSOR AYER A CANDIDATE

Meanwhile Interclass Baseball Games Will Open the Season March 10.

In response to a demand for a baseball coach, the Athletic Council will take definite actions upon the question at its meeting next Monday evening. Among the probable candidates are two Oregon men, one the dean of the department of education, Professor F. C. Ayer; the other Captain of last year's team, Homer Jamison.

At the last meeting of the Athletic Council, there was a sentiment, headed by Judge L. T. Harris, in favor of procuring a professional baseball coach for this season. The only objection is a lack of funds in the Student Body treasury. Captain Chandler waxed enthusiastic when asked concerning it, and said, that with a capable coach, there is no reason why Oregon should not again land the Northwest title.

Among the prospectives for the position are several alumni and men vitally interested in the University. Homer Jamison, last year's captain, and one who has since served in the professional ranks, is considered the strongest possibility. Another person who is a dark horse for the position is Professor Ayer of the department of education. Professor Ayer played professional ball in the middle west with Coach Bender of Washington State College, and it is said on good authority that the two as a battery were unbeatable. The council has several other capable men under consideration, whose names are withheld.

Practice is proceeding splendidly under good weather conditions and Captain Chandler hopes to begin cutting the squad in about ten days. There were twenty-seven men out yesterday and from these there will be picked two teams which will hold four-inning games every day. As yet no captain has been appointed to guide the destinies of the second team.

"Bill" Hayward announces that beginning March 10, the inter-class baseball games will be played off as follows: Freshmen vs. Sophomores, Juniors vs. Seniors, Freshmen vs. Juniors, Sophomores vs. Seniors, Freshmen vs. Seniors, Juniors vs. Sophomores.

The games will go for five innings, and the championship will be awarded on a percentage basis.

Reynolds, of Tennessee; Postmaster General, Albert Burleson, of Texas; Secretary of Navy, Josephus Daniels, of North Carolina; Secretary of Interior, F. K. Lane, of California; Secretary of Agriculture, D. F. Houston, of Missouri; Secretary of Commerce, Wm. C. Redfield, of New York; Secretary of Labor, Wm. B. Wilson, of New York.

MEXICO CITY—One hundred mutineers of the Mexican forces were killed by the government troops quell an uprising of the sympathizers of Madero. The leaders in the were executed immediately to prevent further plotting.
