NALISM is the newest in the Unidestined to be moved to the new building when the latter is completed. At present the department's ing into another, and when the main class room is in use, the occupants of the offices have to climb in and out through the windows. Aside from the lack of space, the installation of a noisy printing plant is impossible at present because the journalism quarters are under the large interfere with lecture work.

In Dressing Rooms.

THE DEAN OF WOMEN has to use for her office the little dressing the main auditorium of Villard Hall. SPEAKING AND DEBATE is crowded into the corresponding dressing room at the other side of the platform

Library Also Crowded.

THE LIBRARY furnishes probably the only instance in the country where students stand in line for a chance to sit down to study. This is not a daily occurrence, but can be aminations. At all times the LIBRA-RY is at least well filled.

THE GYMNASIUM is one of the of the students and for the physical overcrowded. examinations which are a part of the duties of the women's physical director.

Has to Double Up.

THE DEPARTMENT OF GEOL-OGY still occupies room No. 3, Villard Hall, in which Professor Condon used to teach. In this room, 30x50 feet, the famous Condon cabinet is stored and all the work of the Geology Department is done. The museum contains not only the very valuable material collected by Prof. Condon, but specimens from many other sources, which have been added from time to time, and all of which would be a total loss in case of fire. As it stands at present the collection is very much crowded and no specimen can be well displayed. though something over half the floor;

IF THIS BE TRUE

THE GREAT WESTERN LAND CO., Inc. HAS ESTABLISHED AN EXCELLENT RECORD

We Handle PROFIT MAKING BARGAINS In Lane County

\$13,000—Will buy following properties: A farm of 120 acres, close to electric line, good buildings; nearly all of farm in cultivation; splendid location, close to Eugene. Also 220 acres mostly beaver dam land about 10 miles from Eugene. Also a splendid, modern Eugene residence with three lots, close to University. All this for \$13,000, which is about one-half of real value of these splendid properties. Here is

where cash talks. Who speaks first?

\$2,500—Takes a small farm of 40 acres in the neighborhood of new railroad station; new improvements and all tillable land. Will consider income city property in Portland, Salem or Eugene in exchange \$4,500-Makes you the proud owner of 150 acres of good land, all tillable:

has some timber, but much of this farm can now be put in crops; all fenced; only 2 miles from electric line station. Some terms, \$150 AN ACRE-Is cheap for a hop farm and will seem even cheaper next

year. Yet we are offering about 200 acres highly improved land, with fine buildings; water, fences, good roads and only one-half mile from railroad station in Lane county. This place has 30 acres in hope. This yard should pay for the farm in five years with a in hope. This yard should pay for the farm in five years with a conservative average of crops and prices. Easy terms. (1873-E.) AN ACRE—Seems like oid time prices. We now offer 314 acres near railroad station and in good country. Nearly all land tillable when cleared, and about 50 acres in cultivation now. Buildings are old Some bearing orchards. A fine dairy farm bargain. East of

\$40 AN ACRE-Is a price which will make you 100 per cent profit on this farm in 2 years. About 300 acres, reasonably close to our city, one-third in cultivation, balance all tillable; has family orchard, numer-ous springs, lots of wood, good farm buildings and is a fine diversified farm where hogs and cattle would bring about immediate expansion of

your bank account. Some city property in trade considered. (907-0) \$120 AN ACRE—Is cheap for ever bottom loam in Eugene district, and we submit as one of the snaps today about 50 acres excellent hop land, with good, fair buildings, about 25 acres in cultivation, orchard and fences. Plant a hop yard on this, or some onions and potatoes and you will pay for the entire place in 3 years. This place needs a little work. The present owner is one of the poorest farmers in Lane county and will take anything of value in trade. Or terms.

\$16 AN ACRE-Wil buy a 160 acr farm within 8 miles of Eugene and is nearly all good land covered with timber and wood.

\$25 AN ACRE—Gives you deed to nearly 90 acres of land, with some old buildings, situated within 7 miles of city. Much of land can now be cultivated. Some orchard. This is a neglected place, but promises better returns from labor and improvements than most of the places

\$2,000 TO \$6,000 Worth of Eugene or Portland property as a first payment secures a finely situated farm of about 260 acres close to electric line station, having some very good improvements, fences, running water. Soils are of fine quality. Here is a first class dairy and stock ranch, a producer beginning with the first day. The price should be \$75.00, but actually is \$55 an acre. Now, we will positively give you terms which cannot be surpassed in Lane county. Be a hustler. Quit being a slave under the whip of the boss. We will take everything you have in Eugene up to \$6,000 and apply it on this place. Finest oak wood on place, wrich will pay interest, keep children in school and give you work while the neighbors loaf.
