GERMAN CLUB HAS ITS FIRST MEETING

Interesting Program Given—Regular Work Will Begin Next Time

The German Club held its first meeting of the year at the Delta Delta Delta house Tuesday evening. A large number of students were in attendance and the interest showed predicts a successful year for the club. Definite plans as to the line of work to be undertaken have not been formulated but a committee has been appointed to arrange programs and the club expects to start regular work next meeting.

The program for the evening consisted of a talk on the purposes of the club by the president, Ellice Shearer; a violin solo by Mr. O'Donnel; History of the German Club of the University by Effie Rhodes; vocal solo by Rozella Knox, and talks by Dr. F. G. Schmidt and Mr. O'Donnel.

The singing of German songs and a German spelling match completed the evening's entertainment and aroused enthusiasm which should make the German Club a live factor in student activities.

LANE COUNTY G. A. R. MEN VISIT CAMPUS

Students Cheer in Honor of the Soldiers and Panama Canal

The annual convention of the Lane County G. A. R. is being held in Eugene this week. The veterans were conveyed about the city this morning by means of a number of automobiles.

After the procession had made a detour of the city the veterans visited the Campus, where they were given an ovation by the students under the leadership of cheer leader Young. The students were gathered before Deady Hall, and as each car passed, the students gave a cheer. As the procession left the campus, the air was rent with cheers of "Oregon."

At the same time, cheers were given, and whistles blown throughout the city in celebration of the opening of the Panama canal which occurred promptly at the hour of eleven.

TACKLING DUMMIES NOT USED AT W. S. C.

Bender Discards Nose Guards and Torture Machines at Pullman

Pullman, Wash., Sept. 25.—In the state college gymnasium, occupying an inconspicuous part of the building reserved for football gear, is a large array of noseguards and tackling "dummies," which Coach Bender will sell cheap to whoever wishes to buy. There will be neither noseguards nor tackling dummies at Washington State college this year.

"So far as the tackling dummy is concerned," says Bender, "I have had pretty good tackling teams, on the average, and have not used the dummy for several years. Several of my best men have been rather seriously hurt on the dummy. The dummy lacks the shifiness and the swing which is experienced in tackling a man. The player is more apt to get a bad jolt. Tackling a man and tackling a dummy are wholly different things, and in my observation expertness in dummy tackling doesn't mean much in the real game.

"In the open game the noseguard is an impediment rather than a protection. It annoys the player's breathing, and gives him oftentimes only part of one eye with which to see. Then it is bad for the teeth. An opponent can quite easily give the noseguard a twist or a yank which will just about loosen the teeth which are holding it. I do not expect this year to tolerate a noseguard on the field, on any good nose. In case of injuries to the nose, it might be used advantageously for a short time."
