

## BIG GAMES GO TO PORTLAND

### CONFERENCE MANAGERS ARRANGE SCHEDULES FOR YEAR

## MAY NOT PLAY IN ALBANY

### Basket-ball, Baseball, Track and Wrestling Discussed and Plans Made for Different Matches of Season.

(By Fred Dunbar)  
The first session of the Conference of the Northwest Intercollegiate managers opened yesterday with the representatives of the six colleges in the conference present.

The day was practically entirely taken up with arranging schedules for baseball, basketball, wrestling, track and football. This is the way Oregon's football calendar looks for next year, subject, however, to change today:

October 10, Whitman College at Eugene; October 17, Washington State College in Portland; October 24, University of Idaho at Moscow; October 31, probably Willamette at Eugene; November 14, University of Washington at Seattle; November 21, Oregon Aggies at Corvallis or Eugene; November 26, Multnomah Club in Portland.

For the first time in the history of the Northwest a Conference wrestling tournament has been scheduled between the colleges. This sport is thought a great deal of in the east and large tryouts are held to pick the teams. This will probably mean the inauguration of a new custom that will arouse considerable interest in the sport. The tournament will be held late in March at the Multnomah Club in Portland.

The 1914 track meet will be held in Pullman May 23. John R. Bender has the situation in charge. The division made last year for the basketball series was kept this year and at the same time a similar division for baseball was made. In baseball each of the three colleges west of the mountains plays the other four games, while the same is true of the three on the other side of the hills. In basketball six games between each college were decided upon.

In the final count of these series, the eastern champs come west in baseball, while in the basketball series the western champs go east.

The attempts of Willamette to get into the conference will have to lay over until the regular conference meeting held next year which governs these matters. This meeting of managers has not the power to allow them to come into the league.

It is probable, and the signs point that way more all the time, that the big game between O. A. C. and Oregon will not be staged at Albany next year. It is a well known fact that the student bodies of both institutions want the game on the campuses, alternating between the two places each year. It is also known that Portland wants the game and also that Stewart would like to take the game to Portland but it is thought the wishes of the student bodies will be headed and the game will probably be staged either in Corvallis or Eugene this year and at the other place on the next.

Considerable spirit was also shown over Washington's wishes to stage all games on her field without regard to other institutions' privileges and rights. It seems that Dobie is getting one of those "leery" feelings and thinks his own little shell is the best place he can crawl to, according to Portland dopsters who are still

## PROFESSOR DON SOWERS IS MUCH TRAVELED MAN

### Municipal Expert at Service of Oregon Towns, Has Seen the World

Professor Don C. Sowers, the "expert on cities," who has just been acquired by the University of Oregon to assist in solving problems of Oregon towns, is already receiving calls for advice on business and accounting methods, sewer and other engineering difficulties, water questions and other live issues throughout the state. At present he is making a survey, by request, of administrative methods in Eugene. Professor Sowers is available for consultation without expense of any sort, and is at the service of the communities of Oregon. Before the year is out, he is likely to be a very busy man.

Professor Sowers in 1904 joined the Carnegie Institution at Washington, and from 1904 to 1910 was engaged in magnetic survey work. During this period he traveled in a variety of countries that it is given to few Americans to see. The Carnegie Institution expeditions of which he was a member worked in the West Indies, Venezuela, Chinese Turkestan, the islands of the Pacific, New Zealand, Hawaii and Alaska. These expeditions noted the declination, the intensity of force and the dip from the horizon down, of the magnetic needle in various localities in these countries.

In 1910 Professor Sowers entered Columbia University, taking political science, sociology and public law. He is now completing a dissertation on the financial history of New York state. He was two and one-half years in Columbia University.

In January, 1913, he became connected with the training school for public service of the New York bureau of municipal research, giving up this work in September to come to the University of Oregon.

During his visits to Oregon communities for consultation purposes, Professor Sowers will be available for illustrated lectures on Turkestan and other countries. He has made the remarkable trip across the Kuen-lun range from Chinese Turkestan into northern India, the expedition crossing at an elevation of 18,300 feet.

## "U" LECTURES ARE POPULAR

### Portland Classes Have Mounted to 200 Members, So Far.

Cities and towns of Oregon are taking most kindly to the University's offer of free lectures and free classes during the college year. Glendale has arranged for a series of seven lectures. A circuit has been arranged of Newberg, McMinnville and Dallas, to which faculty members will go at week-ends throughout the winter. Frequent lectures are being given at Salem, Beaverton, Estacada, Condon and Astoria have sent calls. Classes are being conducted at Ashland and Medford. In Portland there are 200 students already this fall in Extension classes, with the number growing constantly. Roseburg, Milton, Pendleton and several other cities have either had or are about to have lectures.

The proposed course for Coos Bay cities has been completed, taking in Bandon, Coquille, Myrtle Point, Marshfield and North Bend. Professor A. F. Reddie will make a circuit of the five towns during Christmas holidays; Dr. Clifton Fremont Hodge will make them during the fourth week in January; Dr. Gilbert will go during the spring vacation. Professor Reddie and Dr. Gilbert will thus lose no time from regular classes. Most of the faculty members prefer to give these lectures at or near week-ends whenever possible, so there will be no interference with regular lectures at the University.

Dr. Charles C. Creagan, president of Fargo College, has resigned.

## REGENTS MEET THIS MORNING

### DISCUSS PLANS FOR UTILIZATION OF APPROPRIATION FUNDS

## TO EXECUTIVE COMMITTEE

### This Body Composed of A. C. Dixon, S. H. Friendly, C. H. Fisher, C. A. Dolph and R. L. Bean. Bids Expected Soon.

At the regular meeting of the Board of Regents of the University held in Dr. Straub's class room this morning, plans for handling the appropriations made available by the recent referendum election, were discussed. The matter was finally turned over to the Executive Committee of the board, who will report at the next meeting to be held January 20. The Executive Committee is composed of Regents A. C. Dixon, S. H. Friendly and C. H. Fisher, of Eugene, and C. A. Dolph and R. F. Bean of Portland.

The entire appropriation is \$175,000. Of this, \$100,000 is for a new building to be located on the present athletic field; \$10,000 for repairs to Deady Hall; \$10,000 for repairs to the Dormitory; \$30,000 for an addition to the Library; \$15,000 for the Engineering building, and \$10,000 for an extension to the heating plant, changing the pressure return to a gravity system.

When seen this morning in regard to the new improvements, President Campbell said, "It is not known definitely how the new campus will be arranged but probably the athletic field will be moved to the ground owned by the University directly opposite the cemetery, and the new building placed at the east end of the present field. A landscape architect may be secured to map out the work and to beautify the grounds."

It is expected that as soon as the Executive Committee submits its report, bids for the various improvements will be asked for and the work begun as soon as possible in order that everything may be in shape for the opening of college next fall.

## U. IS REACHING THOUSANDS

### In Single Subject of Mathematics 150 Take Correspondence Work.

The State University will this year reach easily twice as many Oregon people as it reached last. In the correspondence and extra-mural departments there are about 500 registered this fall. The teachers' institutes are being covered thoroughly through the Extension lectures. In mathematics alone, 150 are enrolled in the correspondence courses, and the Extension Department reports finding mathematics by mail gets real results.

The University Glee Club of twenty-four members which will give its concert at the Eugene Theatre, December 12, preceding its extensive vacation trip to Eastern Oregon and Western Idaho.

## CO-ED MIXER DRAWS MANY

### BASKET-BALL AND STUNTS ENTERTAIN VARSITY WOMEN

## LOCHINVAR PANTOMIME GOOD

### Florence Moffat's All Star Basketball Tossers Triumph Over Team Led by Bess Cowden. Women's Glee Helps.

(By Evelyn Harding)  
Cider, doughnuts, giggles and girls mixed democratically at the first Women's League "Mixer" held in the Men's gymnasium last night. Numerous stunts were staged by the women, many of whom appeared in fancy costumes.

The first even of the evening was pulled off by the Women's Glee Club, who sang special songs for the occasion.

Next the Eutaxian stunt of "Lochinvar," read by Miss Watson and acted by a mute caste put everyone in the best of humor. Four furious Scotch gentlemen mounted their fiery steeds in pursuit of the bold Lochinvar who had escaped at the last second with another man's bride.

The two all-star Women's Basketball teams of the University, one captained by Bess Cowden, the other by Florence Moffat, played a thrilling game, resulting in victory for Miss Moffat's team.

Florence Moffat's basketball sharks are: Centers, Ruth Hoffers and Ruby Steiwer; guards, Ethelyn Boydell and Miss Weber; forwards, Florence Moffat and Vera Moffat. Bess Cowden's team was composed of: Forwards, Mildred Riddle and Bess Cowden; centers, Charley Fenton and Georgia Prather; guards, Ruth Smith and Janet Wheatly.

The two teams were evenly matched and both greatly cheered. After making her last basket in the first half Bess Cowden was so overcome that she fell in a dead faint. She was carried from the floor but pluckily returned to finish the game. She is much better this morning.

The Eutaxian pantomime was cleverly acted by:

- Virginia Peterson .....Lochinvar
- Lucia Mocklin.....Bride Ellen
- Margaret Belab.....Groom
- Anne Toplar.....Preacher
- Mary Ramage, Katherine Kirkpatrick .....Bride's Maids
- Katherine Stanfield.....Best Man
- Beulah Stebno.....Bride's Mother
- Lyle Steiwer.....Bride's Father

Gray McConnell, '15, holder of the Northwest half-mile record, has returned to the University and will probably remain to finish the year.

Captain Charles Sweitzer of the Hamline University football team, died recently from spinal meningitis.

## SIX CHOSEN IN THIRD DEBATE TRYOUT TODAY

### Prof. Prescott Not Enthusiastic. King Only Member From Last Year

In the third debate tryout this morning in the Biology Lecture room in Deady Hall, Fred Hardesty, Cloyd Dawson, Bert Lombard, Dal King, Victor Morris and L. B. Hoisington were the successful contestants. A fair amount of interest was manifested by all of the debaters and the victors won by only a small margin. Each man was given ten minutes for his opening speech and four minutes for his rebuttal. Each one showed by his argument that he was fairly prepared on the subject and the presentation of his material was the deciding point.

Professor Prescott said that he had no statement to make concerning the debaters. He did not seem very enthusiastic about the future debates, although the dates for them have not been definitely settled upon. The debaters will practice next Saturday morning in the Biology Lecture room taking opposite sides to those they had last Saturday.

Dal King is the only old member of the number chosen; he was a member of the team that defeated Stanford last year. Fred Hardesty, Cloyd Dawson and Bert Lombard have figured prominently in former tryouts, though, and promise to become title capturers themselves.

## HOW TO ATTRACT PARENTS

### Topics for Parent-Teacher Meetings Available From U. of O.

A booklet for free distribution, which the University would like to see in the hands of every teacher in the state, has just been published by the Extension Department, and is entitled "Suggested Topics for Parent-Teacher Meetings." It is part of the University's program for bringing about wide-spread instruction in the schools.

"Parent-Teacher meetings can be made the liveliest place in the community at this time," says the booklet, "because of so much available material for study."

"It does not take much argument to convince any observing parent or teacher," says the booklet again, "that there is much waste in ordinary school processes—not waste of money merely, but that which is far more vital, the waste of the child's interests, waste as to his natural energy, as to his time."

The University's course in the conservation of the school child is conducted through these parent-teacher meetings, through correspondence and through special lectures where desired, all without expense of any kind to the recipients of instruction. Health is placed above everything. The saving and directing of the child's mental forces comes next.

Dr. R. B. Dillehunt, assistant dean of the University of Oregon Medical school, of Portland, attended the meeting of the University Board of Regents today.

The room at the gymnasium which has been used as a room for visiting athletic teams, will hereafter be for the exclusive use of the faculty. Arrangements have been made for installing showers and lockers.

Professor Eric W. Allen of the University department of Journalism addressed the conference of the American teachers of Journalism at Chicago last week.

One student has been expelled and two others suspended for the semester at the University of Michigan for starting a riot.

"The School for Sons of the Empire" at Peking, China, is the oldest university in the world.

## PRELIMINARY GAMES FAST

### PRACTICE CONTESTS OPEN INTER-FRAT BASKETBALL SEASON

## FINALS TO COME NEXT WEEK

### Sigma Chi Defeats Kappa Sigma; Phi Delta Theta Wins Over Delta Tau Delta, and Dormitory Loses to Alpha Taus.

(Raeman T. Fleming)  
In the first game of the season the Sigma Chi team defeated the Kappa Sigma team by a score of 19 to 17. The game was fast and well played for one so early in the season. It was only a practice game so will not count against Kappa Sigma.

The stars of the contest were Elliott and Cowden for the Kappa Sigmas and Bryant and H. Sims for the Sigma Chi aggregation.

The lineups were: Gilpin, Elliott and Cowden, forwards; Wilhelm and Bingham, guards; Hendricks, center. Sigma Chi—Bryant and Avison, forwards; Saunders, Bynon and Breeding, guards; H. Sims, center.

The Delta Tau Delta-Phi Delta Theta game played later the same afternoon was more or less a walkaway for the Phi Delta Theta bunch. They have a good team and will make a strong bid for the cup this year. Their passing was a revelation and Huntington at forward played an excellent game. The score was Delta Tau Delta 7, Phi Delta Theta 27.

The lineup: Delta Tau Delta—Firney and Cole, forwards; Ogle, Johnson and Nelson, guards; Parr, center.

Phi Delta Theta—Huntington and Wray, forwards; Church, center; Donaca, Roberts, Holcomb and Geisler, guards.

This afternoon the Dorm went down to defeat before the Alpha Tau Omega braves. The game was a close one with the honors about evenly divided between McClure of the A. T. O.'s and Lyons of the Dormitory. The final score was 11 to 9.

The lineups were: Dormitory—King, Roberts, Kuck and Lyons, forwards; Norris, King, Watkins and Katch, guards; Livingston, center.

Alpha Tau Omega—Montgomery, Kirk, Cass, Naylor and Ash, guards; Motschenbacher, Pobst and Dunbar, forwards; McClure, center.

## S. L. MOORHEAD TO SPEAK

### Editor of Junction City Times Comes to University Again

S. L. Moorhead, editor of the Junction City Times, will address the classes in journalism Monday afternoon at one o'clock. He will speak to the embryo-journalists on the administration of a weekly newspaper. Mr. Moorhead is an experienced newspaper man, and will explain the cost of buying a small paper, the expenses and the necessary equipment required to make the work a success. Mr. Moorhead addressed the students of journalism once last year.

The Department of Education at the University of Missouri has adopted the simplified form of spelling.

The silver trophy cup won by the University of Washington at the conference meet at Walla Walla last year and valued at \$300, has been stolen from the Washington Daily room where it was kept.

Yale has scored twice this season from field goals, Harvard seven and Princeton once.
