

**NEW EXTENSION COURSES**

**University of Minnesota Offers Short Course for Teachers.**

University of Minnesota.—School superintendents and principals from all parts of Minnesota will gather at the State University on March 23 for a week of special courses designed to put them in touch with the latest developments in education. "This seems to be a new and interesting development in higher education," says Dr. P. P. Claxton, United States commissioner of education, in discussing the plan. "It would be worth while for other universities to investigate its possibilities."

Minnesota's "Short Course for Teachers" will offer real university opportunities so far as these may be obtained in the short space of one week. The corps of instructors will include Dr. Lightner Witmer, of the University of Pennsylvania; Dr. L. D. Coffman, of the University of Illinois; Secretary C. A. Prosser, of the National Society for the Promotion of Industrial Education, and Commissioner David Snedden of Massachusetts.

Nebraska is making use of the moving picture machine in its geography classes. Films of specimens of geographical phenomena in the College Museum are being prepared, and will be exhibited to students enrolled in this subject.

WANTED—Oregon alumnus has splendid opportunity for students working their way to earn funds for all expenses while in college. Preferred, experience in salesmanship. Write for information, Grip Bow Co., Omaha, Neb.

**YOUR'S WORTH \$17.30 DEAD**

**Elements in Human Body Have That Value, Say Chemists.**

University of Kansas, March 4.—What are you worth?

Measured by your earning capacity, perhaps you could earn as much in a year as \$20,000. No doubt you are worth far more to your mother or sweetheart.

But if you had to sell your body for what there is in it for the manufacturing chemist, you'd get exactly \$17.30.

That is the value of the fats, proteins, and mineral matter in the body, if reduced to staple articles of commerce, according to estimates made by K. U. chemists.

The fat in a human body is the most valuable of these products and, of course, varies in different persons. Its principal use would be in soap or candle-making. The rest of the body could only be used as a fertilizer, as, of course, the comparative high food value of human flesh is worthless on account of the anti-cannibalistic prejudices of humanity.

Simplified spelling has been formally adopted by the faculty of the Ohio State University.

**50 BASEBALL CANDIDATES ARE OUT AT WASHINGTON**

**Coach Engle Predicts Mound Will Be Strong Point This Year.**

University of Washington, March 4.—Coach Engle has half a hundred men from whom to pick the varsity nine this year. The pitching staff has been the weakest spot in the lineup, as no varsity pitchers are in college, but last night's turnout was very encouraging to the coach and Captain Kerry.

The following are turning out for a job on the mound: W. Bryant, second string pitcher of last year; Morrell, a Freshman from Coupeville High School, a former pitcher at St. Mary's College, California; Guy Johnson, on the varsity team two years ago; "Twin" Leader of crew fame; McEvoy of Skykomish, Wash.; R. C. Yeast from Pawnee City, Neb.; C. L. Rodgers, a former High School star of Colville, Wash.; Blaisdell, an old-time port flinger from the U. of W.; Lee McManus, from Ellensburg Normal; W. Hoxsey; Sumner Hurd, pitcher of a couple of years ago; R. Malloy and Tom Barto.

**Competition Keen for Places**  
Not only the pitching staff is well fortified, but for every position competition will be keen this year. Every man will have to work for his place on the team. Out of the 45 men out last night, the majority made known that they would try out for other positions besides that of pitcher.

The Harvard Seniors have elected a negro, Alexander L. Jackson of Englewood, N. J., to be their orator for Class Day, 1914. Jackson has won a track H several times and is famous for his hurdling and sprinting.

**Y. M. C. A. NOMINATING COMMITTEE ANNOUNCED**

**Cabinet Will Elect Wednesday—Installation and Banquet on March 27**

The committee on nomination of the officers for the Y. M. C. A. for the annual election March 18 was announced at the regular meeting of the Y. M. last night and is composed of the following members: Prof. E. E. DeCou, Sherman Post, Vernon Motschenbacher, Otto Helder, Carlyle Geisler, Roy Stevens and Charles Koyle. This committee will nominate men for the offices of president, vice-president, recording secretary and treasurer.

The election will take place at the regular meeting of the cabinet next Wednesday. Other nominations will be in order. The newly elected president and the general secretary will then appoint the cabinet officers for the coming year. Nine cabinet members will be chosen.

The social affairs committee has granted the Y. M. C. A. the date of March 27 for their installation and banquet to be held at the city Y. M. C. A. from 6 to 8 o'clock.

**WRESTLING TRYOUT WILL TAKE PLACE WEDNESDAY**

**Team Will Be Chosen for the Meet at Portland on March 21.**

Coach Shockley will try out his string of grapplers preparatory to the Conference Meet to be held in Portland on March 21, next Wednesday afternoon. A man will be chosen from each of the five-weight divisions.

The aspirant for the 115-pound class are Hughes and Fugimaki; the 125-pounders are Martin, Wrightson, Barnett and Scaife; 135, Collier and Thompson; 145, Carl and Howe; 158, King, Henderson, Whallon and Weist.

As a practice event for the Conference Meet, Manager Walker will try to arrange a meeting with the wrestlers of the Multnomah Club some time during next week.

Eddie O'Connell, who, under a false impression that Shockley's men were prepared to meet his troupe, brought his string of Multnomah Club wrestlers to Eugene last Thursday, wrestled at O. A. C. last night. He may be induced to return next week.

Director Shockley says that his men are in good condition, and none of them more than two or three pounds above the weight which limits their respective divisions. This superfluous weight can easily be worked off in the few days yet remaining before the meet.

**DR. KUYKENDALL SPEAKS**

**"Injuries and Emergencies of Sports" Discussed at Y. M. C. A. Meeting.**

Speaking on the subject of "Injuries and Emergencies of the Indoor and Outdoor Sports," Dr. Eberle Kuykendall of Eugene opened the First Aid to the Injured Series at the regular meeting of the Y. M. C. A. in Deady Hall, last night.

"For all contusions of the body the application of hot towels is, perhaps, the best remedy," said Dr. Kuykendall. "This heals and relieves the pain."

"For cuts over the eyes wash out thoroughly with an antiseptic solution and then bind tight with clean cloth, and be absolutely sure the cloth is clean."

"When a body gets in the eye turn the eyelid back by inserting a round object over the top of the eye and turning the lid back. Roll the eyeball till the object is found and remove with a soft cloth. To relieve the eye afterwards wash out with a solution of boric acid. This is good because it can not be made too strong for the eye. If foreign objects get in the ear and nose and are not easily reached do not jab around around, but go to a doctor."

**STATE NIMRODS WILL ORGANIZE**

**ANGLERS ARE INCLUDED. PROTECTION OF FISH AND GAME OBJECT**

**THINK SPORT FUND MISUSED**

**All Clubs in League to Have Equal Influence. Fly Casting Tournament Arranged for Portland Meeting, March 16.**

Delegates from organizations of Sportsmen in all parts of the state will meet at Portland Monday, March 16, 1914, to form a state association. There are now 54 clubs of hunters and fishermen in Oregon, and the ready responses received from these clubs indicate that there will be a full representation of all sportsmen at the convention.

The overwhelming majority of the Sportsmen are in favor of the protection of fish and game, and the improvement of the game resources of the state. It will be the purpose of the State Association to work along the lines of game protection, to agree upon legislation in order to bring that about, and to exert the united influence of the sportsmen of the state to procure the passage of such legislation.

The objects which the organized sportsmen have in view are particularly close to the heart of each angler and hunter, because of the fact that the fund of \$100,000 or more annually used for fish and game protection and propagation, is created by the license fees paid by them. There is a widespread feeling that the sportsmen's fund has not always been used to best advantage, and that at times its disbursement has been influenced by motives other than the furtherance of the fish and game resources of the state.

It is thought that the State Association, which probably will be known as the Oregon Sportsmen's League, will adopt a system which will give to each club in the state belonging to the league one vote in the affairs of the league, irrespective of the membership of the club or the number of delegates sent by the club to the convention. The purpose of this is to prevent the domination of the affairs of the league by a few of the stronger clubs.

Among the entertainment features proposed for the delegates are a trapshot and fly-casting tournament on the day preceding the convention, and a beefsteak dinner at the close of the convention, followed by motion pictures of a special interest to sportsmen.

**DOUGHNUT SEASON OPENS AFTER SPRING VACATION**

**Committee Appointed to See About Inter-Fraternity Track Meet**

That the Doughnut League will not commence active operations in track and baseball this year until after spring vacation is the opinion expressed at a recent meeting of the representatives of the fraternities and clubs.

"We decided that it would be best to not start the games this year until after the vacation," said Allice Grout, in speaking of the action taken by the body. "On account of the weather and the filled schedule of events the baseball season will be started a little later than usual."

A committee was appointed to see Bill Hayward and confer with him on dates for the inter-fraternity track meet.

"We will select the best date possible, when there is nothing else on that will detract materially from the meet, and one also that will fit in with Bill's schedule, and will not interfere with his plans," said Grout.

A committee of Everett Stallar, Ray Giles and Bob McCornack was appointed to attend to the inter-fraternity handball tournament. They will see that this is run off as soon as possible, and at the next meeting, which will be held soon, the dates for this tournament will be set.
