Twelve Will Be Required When Construction Begins

Y. M. WILL HANDLE JOBS

New University Buildings to Be Started Soon—More Jobs Now Offered by Association Than Can Be Filled.

Partial assurance has been given by President Campbell that work for students on the new building and building repairs lasting during the vacation months will be available. These jobs will be handled through the Y. M. Employment Bureau, and Charles Koyl says there may possibly be chances for a dozen students. A half dozen inquiries from "preppers" have come in to the Bureau asking about chances for work next year. Two of these came from Idaho and they say if work can be secured they will enter.

Work at present is plentiful, with no applicants on hand. Two regular jobs are now on deck begging. This is quite different from the previous years on hand with no jobs available.

The report up to May 1st shows that the cash returns to students for jobs, odd and regular, secured them this school year is \$2100.55 or \$115.55 more than the total for the entire year of '12-'13. With a month more of this year yet to run the total will be \$350 greater than of the year previous.

Regular and odd jobs secured during April amounted to \$30.55 and the cash returns for the month from previously secured regular jobs amounted to \$223.35 or a total cash return for April of \$254.20.

In the Book Exchange the amount paid students for books sold up to April was \$373.75. During April \$9.95 was returned to students making a total of \$383.70. Since 25 per cent is the percentage figured by the Exchange as the saving to the buyers, \$95.75 in cash represents the saving or \$479.45 to both buyers and sellers.

This \$479.45 saving added to the cash return from the Employment Bureau makes an amount exceeding the yearly Budget of the Y. M. C. A. by \$250.00.

C. J. HURD
Republican Candidate for the Office of County Commissioner

As a member of the 1913 Legislature was a consistent supporter of the University Appropriation Bill; also the Millage Tax Bill. I have made a thorough and systematic study of the road question both from a constructive and maintenance standpoint, and was one of the first men in Lane County to publicly advocate the patrol system of road upkeep. If I am nominated and elected I will use my best efforts to make the patrol system effective as far as possible.
