SOMBRERO ABOLISHED AT SENIOR MEETING

1915 MEN DEFY PRECEDENT AND DECIDE TO ADOPT CHEAPER FORM OF HEADGEAR

HARDESTY HAS LID FOR SALE

Astoria Orator Champions Ancient Custom In Fierce Word Battle; Co-Eds Deprived of Suffrage

The Senior sombrero took the count at yesterday afternoon's meeting of the prospective graduating class. The picturesque form of headgear adopted by the class of 1912 and worn by each succeeding Senior class up to this year, will be seen no more upon the campus or at least it will not be the official mark of Seniority.

The present cost of high living is largely blamed for the action taken yesterday. Most of the men in the class were willing to continue the custom, but lacked the five metal discs required for the purchase of a good sombrero.

Equal suffrage also received a knockout jolt from the 1915 politicians. On the first ballot as to whether or not the sombrero should be abolished, the feminine contingent registered an overwhelming vote in favor of the sombrero. The men, however, maintained that inasmuch as the women would not have to wear the hats, they should not be allowed to prescribe them for the men. The masculine faction being somewhat in the majority, the co-ed vote was thrown out and the anti-sombreroists went out on the second ballot by a large majority.

Fred Hardesty, who had already acquired a sombrero, made a pathetic plea for the much-abused article of cranial adornment, but the impassioned words of Jim Donald, Gene Good and Tony Jauregui in favor of its abolishment carried the day.

The Seniors decided, however, to adopt some distinctive style of millinery. President Ben Dorris was authorized by a later motion to appoint a committee to investigate the problem and make a recommendation to the class at its next meeting. Fred Hardesty, Gene Good and Jim Donald were appointed on the committee.

Treasurer Jauregui's report showed that there is at present \$25 in the Senior coffers. A motion by Fred Hardesty that the news of the meeting be censored before appearing in the Emerald, perished through lack of a second.

Another meeting of the class probably will be called by President Dorris next week.

THURSDAY ISSUE OF EMERALD GOES TO SALEM'S ANNUAL FAIR

"Fair Edition" to be About 3500 to be Circulated Among the Visitors for the Purpose of Showing University Life, Work and Activities to All Parts of the State.

Portland Day at the State Fair! To those who are in any way connected with the Emerald, this statement means considerable, for it is with added interest that the Emerald staff is engaged in the work of publishing the "Fair Issue." Thursday is the day given over by the Fair committee for the display of the University, so in order to be on hand among the first, the next issue of the Emerald will be published Wednesday evening. And to judge by the work being put upon the "Fair Issue," it will be suggestive of this school in every particular.

WORSHIPPERS SEEK WISDOM'S SHRINE BY AERIAL ROUTE

"McClure Bridge" Is Latest Campus Structure—Frosh "Fem" Thinks It's a Pergola

"Oh won't that be a cunning pergola," rhapsodized a Freshman maiden in front of McClure Hall yesterday. She was gazing at the framework of the "suspension bridge" which has been improvised for the use of students wishing to enter that building. The new structure spans the ditch a part of the improvements on the which is being dug to accommodate the underground tunnel which will be University heating system.

For the next few weeks students will find access to McClure much as knights and ladies of old entered their castles. The mote is there although the bridge is stationary rather than of the "draw" variety.

It was ready for traffic this morning. However, following the motto, "safety first," the carpenters this afternoon added a railing on each side, in order that the students will not walk off into the ditch below. And Springfield has been dry almost a year!

PRESIDENT TO SPEAK

"Individual and Social Complex" Is Subject at Services Next Sunday

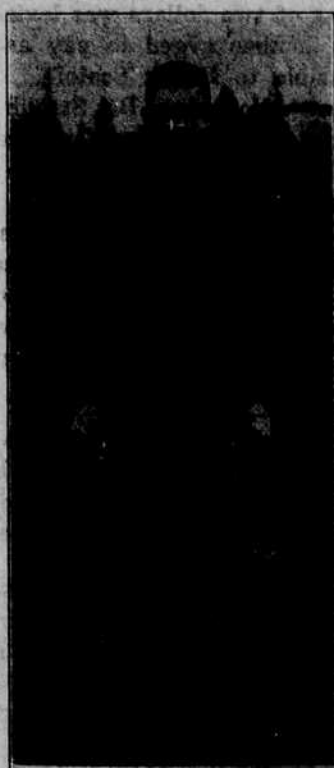

The first vesper services of the year will be held next Sunday afternoon, in Villard Hall, from 4:30 to 5:30. President Campbell will deliver a short address on "The Individual and the Social Complex."

Special music will be furnished by soloists and by the Vesper Choir composed of the combined Men's and Women's Glee Clubs. These services will occur the first Sunday of each month, and to some extent will take the place of the Thursday night meetings held heretofore.

There will only be weekday meetings when there is a special subject to be presented. There will probably be about twelve of these special meetings. Included in these will be lectures on "The Divinity of Christ," "The Immortality of the Soul," "Service and Faith," "Christianity and the Modern Church," "Some Effects of Alcohol," "Coffin Nails," "Class Room Honesty," and "True and False Ideals."

Delta Gamma entertained Saturday night with a dance in honor of their Freshmen.

Football and Track Star Returns Late

SAM COOK

Sam Cook, left tackle and weight heaver on last year's football and track teams, answered the prayers of the rooters by registering in college today. When Sam sauntered onto Kincaid Field, "Bill" Hayward heaved a sigh of relief, and it is rumored that Coach Bezdek spent the first restful night he has enjoyed since the season opened.

The jovial brunette athlete has been summering near Coeur d'Alene, Idaho, where he held a forest ranger's job which kept him from reporting on time. He now weighs only 195 pounds when attired to go out calling. Although this is about ten pounds shy of Sam's normal displacement, the coaches sent him to the training table his first night out, and they hope to add the extra upholstery to his ribs after a few days' diet.

UNIVERSITY DAY SET FOR OCTOBER 29TH

Dr. Hodge and H. B. Miller Will Speak at Manufacturers' and Land Products Show

University Day at the Manufacturers' and Land Products Show in Portland is October 29. The University has been asked to furnish the program for one day at the fair. The speakers the University is planning to send are Doctor Hodge, who will talk on Agricultural Education, and H. B. Miller, who has been asked to give an outline of the industrial survey which he has made of the state. The University of Oregon Glee Club will probably sing.

OREGON GIRL UNDERGOES SUCCESSFUL OPERATION

Evelyn Harding, who has been ill for the past two months and a half, underwent an operation for appendicitis, at St. Vincent's Hospital, in Portland, Sunday morning, September 27. The operation was very successful, and she is now doing nicely. Dr. VanCleave and Dr. Summers were the attending physicians.

Miss Harding, whose home is in Oregon City, would have been a Junior at the University this fall, but will now be unable to enter until the second semester. Miss Harding is well known in the University, having been active in many organizations. She is a member of the Student Council and belongs to the Chi Omega fraternity.

SEVENTEEN SOCCER-ITES ENLIST WITH C. V. DYMENT FOR PRACTICE

Experienced Exponents of "H-english Spee-ort" Report for Tryouts - Two Games With O. A. C. Are Likely - Multnomah and Willamette May Play Oregon - Eleven Old Men Determined to Defend their Last Year's Posts Against "Frosh", Entrants

With eleven men of last year's soccer team back in the University, Oregon's prospects for a successful year are of the very best. Besides the old men, the Freshman class contains some material that should develop into University caliber by the time games are to be played.

Of the men who played last year, Tuerck, Nelson, Pearson, Spellman, Ralston, Arnsperger, Campbell, Boylen, Dinneen and Ford have already made their appearance on the campus. Many of last year's squad are out on the lower campus preparing for the coming season.

Mr. C. V. Dymont, who is coach of the soccer team, spoke of the work for the season and said: "There is a digence in starting work with a dozen experienced men and in beginning with only two, as was the case last year. Goresky, of Columbia, and Sheehy, of Jefferson High, are two guards who should make good competition for the Varsity players. Hazeltine, of P. A., is also an experienced man who will bid for a place on Dymont's squad.

A letter has been sent to Mr. E. J. Stewart, at O. A. C., for two games, one to be played on each campus. Columbia is anxious to make soccer an annual event with Oregon. It is probable that games will also be arranged with Multnomah and Willamette, although arrangements have not yet been perfected.

At the first practice last week, seventeen men were out, and it is estimated that by the end of the week two teams will be in action.

EUGENE ALUMNAE MEET AT TRI DELT HOUSE

MISS WHITEAKER PRESIDENT, MRS. STAFFORD VICE PRESIDENT

Association has Membership of About 60, Who Are Planning Events For the Year

The Eugene Association of University of Oregon Alumnae held the last meeting of the year at the Delta Delta house Saturday afternoon, September 26. Miss Mabel Kuykendall, Miss Mozelle Hair and Mrs. James Gilbert, alumnae members, of the Delta Delta Delta, were hostesses, and they were assisted by Mrs. L. E. Bean and Miss Greta Bristow.

Officers were elected for the ensuing year and many new plans discussed. Miss Ann Whiteaker was chosen President, Mrs. O. F. Stafford Vice President, Mrs. Edna Datson, Secretary-Treasurer, and Miss Greta Bristow Corresponding Secretary.

The State Federation of Women's Clubs is to be in conference in Eugene October 12, 13, 14 and 15, and it was decided that the local association should co-operate with the Women's League of the University in giving a reception for the visiting delegates and clubs of the city in the Men's Dormitory Thursday afternoon, October 15.

The new President appointed a special committee, consisting of Mrs. Edna Datson, Mrs. L. E. Bean, Mrs. O. F. Stafford and Miss Howell, to confer with a committee from the Women's League and to make arrangements for entertaining the guests.

During the past year the local association has reorganized and had at the last meeting in May between fifty and sixty members. The social committee arranged for all the meetings of the year and provided places of entertainment and programs. This committee instituted a precedent last year for the future alumni reunions at commencement time.

The function committee arranged for papers and discussions during the year on subjects vital to the University. This committee also did publicity work throughout the state, sending articles to the Oregonian, and otherwise putting University interests before the people.

MATERIAL FOR TRACK LOOKS GOOD TO "BILL"

BUT NEW MEN MUST SHOW THEIR STAYING QUALITIES, HE SAYS

Inter-Class Track Meet to be Staged On Kincaid Field October 17

Two score candidates were out on Kincaid Field last night in response to the first call for track practice. With only one or two exceptions, they were all new men and such a large turnout at this time of year speaks well for the prospects of a fine Freshman team. Some of the Freshmen who were the more prominent in prep school athletics have not yet reported, but their presence will materially strengthen the squad. Muirhead, the famous all-round athlete from Columbia University, at Portland, and Wilson, the sprinter from Washington High, are among this number.

"The work for some time will just Hayward, and if they will only stay out I will be satisfied. It is too early as yet to make any predictions as to the value of the material among the first year men, but there is no reason why some mighty good track men should not be developed from a squad of this size. The crowd out tonight was composed largely of Freshmen, and many of them have had but little experience, but it is a long time till next spring, and if they'll come out for practice everything will be fine.

"The work for some time will just be for the purpose of preparing the men for the harder grind on the cross-country course. Some time later in the year there is to be the first conference cross-country run, and it is absolutely necessary that training for it be begun at once. We are also going to hold an interclass track meet on the 17th of October. That will be the first time that we have ever tried to stage an event of that kind so early in the season, but if the weather holds reasonably fair, I don't think we will have any trouble. Tell the fellows, and especially the Freshmen, to come out and to do their best. That's all I ask."

Sam Michael went to Portland to transact interest in the Glee Club. He will return to the University the end of the week.

OREGON-MULTNOMAH GAME IS CANCELLED

TANGLE WITH AGGIE ROOKS ALSO GOES UP IN SMOKE

COLUMBIA U. IS ONLY HOPE

Sam Cook Brings Sunshine to Varsity Camp; Secret Practice Now Begins

By Harry Kuck

There will be no game with Multnomah Club on October 3rd. This was definitely decided today when Graduate Manager Tiffany received a wire from Portland saying that it would be impossible for the club to meet Oregon this early in the year.

The Freshman game with the O. A. C. "rooks" has been discarded, also. "Doc" Stewart is determined that the game will not be played on Wednesday and Coach Bezdek is just as determined that it will be played on no other date this year.

The only hope for a preliminary game before the regular schedule commences is a game with Columbia University on October 3rd. Graduate Manager Tiffany is in hopes of arranging for this game. Columbia always has one of the strongest inter-scholastic teams in Portland, and this game would be welcomed by coach, players and rooters alike. Coach Dobie, of Washington, has made a practice of playing one or two prep schools each year before launching into his schedule. Last Saturday Washington met Aberdeen High School, defeating them 34 to 6. This is the first time a prep school has ever scored a clean touchdown on a "Dobie" team.

Local football fans are elated over the arrival on the campus and on the football field of Sam Cook. This hero of many a bloody mix arrived yesterday, and was out on the field for practice this evening. He is fit as a fiddle and ought to strengthen Bezdek's line materially.

Coach Bezdek ordered secret practice for Monday night and consequently local enthusiasts were denied their daily peep at Oregon's hopefuls. There will probably be a good deal of the secret work done between now and the Whitman game on October 10th.

PROF BOYNTON LECTURE

Gives Talk on Science and Faith In Portland Before Y. M. C. A.

Professor W. P. Boynton lectured in the Portland Y. M. C. A. on Science and Faith, last Thursday afternoon. This same lecture was given at the Ministerial Conference held during the last Summer School. Professor Boynton's lecture was scheduled for next Sunday, but as that is the day set aside by President Wilson as a day of prayer for peace, another date was arranged.

There was keen competition, Professor Boynton states, for at the same time there was a temperance meeting, a talk by Governor West, and a Methodist meeting, addressed by their Bishop. But in spite of these other attractions there were about 140 in attendance.

The following is a brief summary of the lecture: "Science assumes as its foundation, the supreme value of verified facts, and the essential unity and consistency of the universe. Applying these fundamental principles to the problem of faith, the influence of Christianity as a force making for progress and righteousness in society and in the individual life is unquestioned as a fact, while to assume that such an influence could be based upon fraud, whether intentional or not,
