AN IMPORTANT MEETING

Scores of the alumni of the University of Oregon are teaching in the high schools of the state, or are serving as city superintendents.

All of these alumni should be interested in the meeting of the State Teachers' Association for Western Oregon, which will take place on the campus of the University of Oregon during the first three days of Christmas week. The high school section of this association is working on many of the problems that perplex the authorities of the secondary schools of Oregon. Often a high school teacher who attends the State Association and takes an active part in the work of the secondary section gets into closer touch with the live issues of the day than she otherwise would all year.

The Alumni Secretary happens to be the chairman of the high school section of the state meeting. He has sent letters to all principals, asking for suggestions as to topics for discussion in this section. Any suggestions from University graduates or others who may be teaching in high schools in the state will have careful attention, if sent in before November 5.

An added inducement to University graduates to attend the meeting is the fact that the teachers will be entertained by the University. The members of the faculty of the School of Education, the chairman of the appointments committee, many superintendents on the lookout for strong teachers, will be at the meeting. Attendance at the state meeting may well mean a better position and a better salary next year.

Although formally the organization does not include those Eastern Oregon counties which have in time past had a state association of their own, teachers from those counties are always welcome.
