

AMENDMENTS TO BE PROPOSED TOMORROW

Oregana, Soccer and Women's Glee Club Will Receive Attention of Student Body

The regular meeting of the Associated Student Body will be held in Villard Hall, Wednesday, during assembly hour. An amendment to the constitution will be introduced by the Oregana Committee appointed by the Student Council, and it is probable that others will be introduced, making soccer a Student Body enterprise, another relating to the Women's Glee Club.

The meeting of the Oregana Committee, which was to have been held last night to discuss the proposed amendment giving the Executive Committee power to appropriate Student Body funds to the Oregana, has been postponed until this evening. Tommy Boylen, President of the Student Body, states that this meeting will be held immediately after that of the Board of Regents, which is to be at 7:00 o'clock. At this time the Oregana Committee will know just what funds are available through the Board of Regents.

MINERALOGY CLASS TO SEND ROCK EXHIBITS TO SCHOOLS

Specimens of rock will be sent to the various high schools in Oregon during the remainder of this year, according to the plans of Prof. Graham J. Mitchell, Assistant Professor of Geology.

Professor Mitchell's class in Mineralogy is preparing boxes of rocks. Between ten and fifteen assortments are being made up for distribution. Each assortment will contain from 20 to 25 classes of minerals, and 12 to 15 common rocks. All rocks will be classified according to structure, age, substance and economic value.

A box of specimens has already been sent to the Myrtle Creek High School, where it will be kept until the classes in Physical Geography have made a thorough study of the rocks. The minerals will then be forwarded to the next high school, according to a fixed schedule made by the University. Transportation charges, in each instance, will be paid by the high school receiving the exhibit.

Prof. A. F. Reddie was host at a dinner party at the Hotel Osburn Wednesday evening. Those present were: Dr. and Mrs. Joseph Schafer, Mr. and Mrs. Dugald Campbell, Dr. R. M. Winger, Miss Margaret Upleger, Prof. C. V. Dymont, Mrs. Ellen Pennell, Prof. and Mrs. E. W. Allen, Miss Julia Burgess, Dr. J. D. Barnett and Miss Jenny Gilkison.

GREATER OREGON CREW INCREASES ITS ACTIVITIES

(Continued from page 1.)

3. To make all arrangements necessary to any action.

Selection of Presiding Officer—Tom Boylen.

During the past week Roy Stephens and Roland Geary were added to the Greater Oregon Committee, making a total of 60.

Reports from O. A. C., W. S. C. and other colleges of the Northwest show that similar arrangements are being made for the Weatherford meetings. O. A. C. has 100 men working in much the same way as Oregon's 69.

MEN OF NOTE ENLIST FOR SUMMER SCHOOL

(Continued from page 1.)

Summer School, is planning to have an unusual number of courses offered for the 1915 session. Heretofore the emphasis has been placed more particularly on undergraduate courses, and special work for high school teachers, and while this work will not be slighted in the least, the next Summer School will also be arranged to accommodate quite a number of graduates of colleges and universities who would like to attend this session of the University of Oregon, provided their work will count toward an advanced degree.

Dr. Schafer is in correspondence with several well known educators, mostly Eastern men, some of whom will be secured to fill positions on the Summer School faculty.

A Summer School bulletin will be put out in March which will advertise the session. Later on, it is planned to use some newspaper advertising also.

DEBATE DATES ARE SET

Crockatt and Morris to represent Oregon at Stanford and Moscow Some Time in March

Peter Crockatt and Victor Morris, as members of the affirmative debate team, will represent the University of Oregon at Stanford March 12, later participating in a contest with the University of Idaho at Moscow. While a slight change in the arrangement may yet be made, as it now stands the affirmative team will oppose the University of Washington here on March 12. This team will be chosen from Hardesty, Dawson and Jaureguy.

With the exception of examination week, the Varsity men have been working together every night in preparation for this contest.

All University debates are managed by the Forensic Council, consisting of Bert Prescott, chairman, Dr. J. H. Gilbert, Ben Williams, Victor Morris and Dal King. The next session of this Council will be on the third Friday in February.

PROFESSOR SMITH TO GIVE NEW SERIES OF LECTURES

Professor W. D. Smith, head of the Department of Geology, will give a series of lectures before his class in Advanced Geography every Tuesday morning, at 11:00.

A list of the lectures is as follows: Beginning Tuesday, February 23, and continuing every Tuesday till the end of the semester:

Mathematical Geography.
Oceanography.
Geological and Physiographical Reconnaissance of the Earth.
Man and His Forerunners.
Ethnographic Geography.
Political Geography.
Distribution of Religion.
Three lectures on the Geographical of the War.

The Geography of Oil; Iron; Gold and Copper; Wheat; Rice; Cotton; and Timber.

Professor Smith especially desires that the public attend these lectures, which are of general interest.

A kettle drum, shipped by the Leedy Manufacturing Company, of Indianapolis, was received at the University Thursday morning. The instrument is for the orchestra, on approval, and if accepted will cost \$103.00. The Leedy Manufacturing Company, of Indianapolis, is the shipper.

OREGON FIGHTS HARD, BUT LOSES TWO GAMES

(Continued from page 1.)

throws.

2. To take up matter of collections being taken by the various evangelists. Savage was very efficient in throwing fouls. He converted fifteen out of eighteen attempts in both games.

Washington defeated O. A. C. last night at Corvallis, 23 to 14. Dewey, O. A. C. forward, was the star of the game, although Savage scored four field baskets.

This score indicates that O. A. C. and Oregon are about on the same plane.

This week-end will witness two bang-up basketball games. Friday night Bezdek's crew will invade Corvallis, and Saturday O. A. C. will be the guests at Hayward Hall.

Miss Gillies took a number of women students of the University living at Mary Spilled Hall on a hike to Kincaid Park Monday morning.

Weber and Heilbronner Spring Hats Are Here

THE old-style Alpine crease and the "telescope" fold have had their day in New York.

It is now the semi-telescope fold, in the crown — adopted for Weber and Heilbronner soft hats for Spring, because New York men were themselves creating their hats that way.

Only a slight droop to the brim, different from last year — finished with an English box curl.

Colors which were developed to harmonize with the fashionable Spring shades in clothes and haberdashery.

A stiff hat with a slightly tapered crown and a new "neutral" brim, neither flat nor round—the same character of smartness as the soft roll English coat and the full cut walking glove.

These are the HATS OF THE HOUR IN NEW YORK — PRESENTED AT THE SAME HOUR HERE. Price, \$3.

This house has the exclusive agency for Weber and Heilbronner Hats in this city.
