

## LOCAL GOTCHES MAY MEET NORTHERNERS

Although Beaten by O. A. C., the Oregon Wrestlers Deserve Unstinted Credit, Says Shockley

"The men on the wrestling team are deserving of praise for the way in which they have trained and for the way they conducted themselves in the meet with the Oregon Agricultural College," said Shockley yesterday.

Two of the Oregon men, Captain Rutherford and Ex-Captain King, won their "O." These will be the first letters granted as official recognition of wrestling, as no letters were given last year. Captain Rutherford, of the Oregon team, threw Captain Mosby, of O. A. C., in the 145-pound class. King won over Waters, of O. A. C., in the 158-pound division.

In the 125-pound class Barnett, of Oregon, and Piercy, of O. A. C., wrestled three six-minute bouts before a decision was finally reached. Duffy, of the Multnomah Amateur Athletic Club, awarded the match to Piercy on aggressiveness. Hardman, O. A. C., won over Hargreaves, Oregon, in 115-pound match; Bolin, O. A. C., won over Schaffner in the second 125-pound match; Amort, O. A. C., won over Griffin at 135 pounds.

A movement has been started to have either the University of Washington or the Washington State College team meet the local mat artists in the near future. Both of these teams go to Corvallis, and negotiations are being made to see if one of these teams can be brought here. The Executive Committee, to whom the matter was suggested, referred the proposition to Graduate Manager Tiffany to find out the cost and advisability of bringing one of the two teams here.

### MORRIS WILL REPRESENT OREGON AT McMINNVILLE

In a recent tryout, Victor Morris was chosen to represent the University of Oregon at the State Oratorical Contest in McMinnville, March 12. Eight delegates beside the orator and manager will be sent. "Two men should be elected as soon as possible from each class," said Bert Prescott. "Their railroad fare is to be taken from the respective class treasuries. I wish to meet the representatives at 4:00 o'clock Wednesday afternoon.

"With the exception of last year, Oregon has always secured first or second place in this contest. We have won more orations than any other college in Oregon. In 1911 and 1912 first places for the University were taken by Carlton Spencer and David Pickett. In 1910 and 1913 second places were secured by Harold Rounds and Howard Zimmerman."

Two large sepia print pictures, framed, have been received by the Geology Department from the Northern Pacific Railroad Company. One is a picture of the Grand Canyon of the Yellowstone, and the other a picture of Emigrant Peak and the Yellowstone river.

Mrs. William Park, wife of Rev. W. Park, the evangelist who is holding a series of missionary meetings at the Methodist church, spoke before the weekly Y. W. C. A. meeting Tuesday afternoon at the Y. W. C. A. Bungalow.

Dr. Bertha Stuart will speak to the women students of the University on "Efficiency," Tuesday evening, at the Y. W. C. A. Bungalow.

## TEACHERS GET CREDITS

Eighty-Three Have Received Certificates Through Work of University Extension Division

Eight hundred and fifty of the 4,000 public school teachers of Oregon have so far received outlines for teachers' reading circle work from the University, and answers have been sent in by 83, to whom certificates have been issued, saying the required reading has been done satisfactorily.

The State Superintendent of Public Instruction issued a statement last summer, saying that "any teacher who registers her certificate between the third Monday in June, 1914, and the third Monday in June, 1915, must satisfy the County Superintendent that she has read one of the following books," a list being appended. Many County Superintendents found difficulty in administering the law through lack of office equipment and clerical assistance. Accordingly, at a state meeting in January, the University of Oregon was asked to take over the direction of the work.

This direction the University has undertaken, through the Extension Division, to give by furnishing outlines. The book is read with the help of the outlines, and written answers sent to the Extension Division, which issues a certificate if the answers are satisfactory.

### BULLETINS' CIRCULATIONS HAVE INCREASED TEN-FOLD

A committee whose purpose it is to establish the policy of the University publications has been appointed by President P. L. Campbell. The committee is planning first to take a survey of the work already done and decide in what lines the work can be improved.

Besides occasional bulletins sent out by the various professors, the regular publications are: Press Bulletin, the Extension Department Monitor, and the University Bulletin.

"The circulation of the Press Bulletin has increased from 300 to about 3,000," said Prof. E. W. Allen. "There are about 300 newspaper publishers in the state, each of whom receives a copy. The Monitor goes mostly to students taking Correspondence courses."

The call for University catalogues has been so great this year that the supply has run out and it is necessary to order more.

### OREGON WINS THREE SUCCESSIVE GAMES

(Continued from page 1.)

**Second Game**  
Bezdek's five repeated Saturday night on the home floor by the small score of 14 to 10. The game was slow and was featured by the Aggies' inferior play. They passed poorly, rarely got loose for a shot, and didn't put up a good fight. The boys seemed to have their number.

For the first time this season, Oregon was returned the leader in the first half, 8 to 5.

**U. of O. Beats W. S. C.**  
Washington State College fell before the fast coming Lemon and Yellow quintet Tuesday night by the score of 29 to 23, in a game featured by brilliant basketball at times interspersed with erratic streaks.

Oregon's team work was superb.

**Illini Game Wednesday**  
The Illinois Athletic Club swamped Oregon's second team 40 to 8 in the first half of the game Wednesday night, and, using the reserves, was again credited with a 23 to 18 victory against the Freshman team in the second half.

## AYER COMPLETES SURVEY OF ASHLAND SCHOOL SYSTEM

A survey of the Ashland schools has been completed under the direction of Prof. Fred C. Ayer, of the Department of Education. The final report will be quite extensive.

This survey was started a year ago by Superintendent Briscoe and the Ashland School Board. The purpose was to discover the actual conditions of the school system and to devise methods for improvement.

Last week Professor Ayer was assisted by Don C. Sowers, Professor of Public Accounting, and by C. R. Frazier, Superintendent of the Schools of Everett, Washington.

The committee says that a significant feature of the Ashland system as a whole is the spirit of loyalty that exists among the patrons, the school board and the teaching staff.

### HIGH SCHOOL DEBATE LEAGUE TO ELIMINATE FOUR IN MARCH

Intrastate debates will be held before the 15th of March to eliminate four of the eight remaining interscholastic teams in the following contests:

Bandon-Myrtle Point.  
Albany-Salem.  
Astoria-Prineville.  
Bend-Enterprise.

Of the four victors, two will be chosen to debate for the championship on May 8 in Villard Hall. Earl Kilpatrick, secretary of the committee, says that great interest is being shown this year over the topic, "Government Ownership of Railroads."
