#### The Swan-Song of The Emerald.

EVERY ONCE in a while, in the course of human events, there comes an end to all things. College life, serving time-which is closely allied to editing a college paper-love, in short everything under the sun must sooner or later come to an end. The Emerald has reached that point, and it behooves us to sing our little swan-song as the sun goes down.

It is with no hyprocritical protestations of deep sorrow, keen regret, tearful remembrance, and the like, that we at length give up the ship. The voyage has been a rought one, we are through, and what's more, we are glad of it.

Whether or not we have weathered the storm well, we do not know, and what is still more we do not care. In retrospect we can sum up our work with the statement that we gave the best he had. Confessedly we have made some mistakes, and we are also glad of that. The record of a career of no mistakes is held by a gentleman in the British museum, who has not made a mistake in four thousand years. He is an Egyptian mummy.

The Emerald has this year assumed a militant policy, which, we think, is the only policy. At the beginning of the year we declared against the policy of peace-at-any-price and for a definite policy of non-neutrality on the theory that a neutral paper is a nonentity. As was stated in our first editorial attempt, "We intend to take sides on important issues, but not with an arbitrary arrogance. To truthfully reflect student sentiment, to pro and con thereon to our heart's content, to make suggestions, to recommend and condemn, to try to guide campus opinion into what we consider the best channels: that | OFFICIAL ANNOUNCEMENT | foresee." Very, very true, I don't see is our firm intention." To the best of our knowledge we have remained true to this pledge, even though it threatened at times to plunge us overboard.

So with the joy of freedom after having served one's time, the Emerald gives up the ship. Much remains to be done, and much, we hope, has been done by and through the Emerald. The scheme of things at Oregon—things social, political, fraternal and otherwise is still far from faultless; and there is still rough water ahead for the of the Y. W. C.
