

MEASLES BREAK OUT IN SORORITY HOUSE

Marie Chapin, Freshman, Quarantined in Delta Delta Delta House.

CASE IS LIGHT ONE; DOCTOR OPTIMISTIC

Every Precaution Is Being Taken to Prevent Spread of Disease.

Miss Marian Chapin, a freshman girl of Portland, is quarantined on the third floor of the Delta Delta sorority house with a case of measles. The faculty, assisted by city health officer W. L. Cheshire, is taking every precaution to prevent the spread of the disease.

The danger of an epidemic was seriously considered but a canvas of the fraternities and sororities taken this morning at the request of President Campbell disclosed the fact that in the majority of cases, the members had at some time or other had the measles. It was because of this that more drastic steps were not immediately taken toward the discontinuing of classes.

Dr. Cheshire, city health officer holds out an optimistic word to those who might be alarmed. He also states that this is the least dangerous time of the year to have the measles.

Because of the fact that at least a week and possibly ten days must elapse after exposure before a person shows the symptoms of measles, no new cases are expected to develop for several days.

STUDENTS GET LOAN FUNDS

Owen Whallon Memorial Established by Class of '16 Open for Use Jan. 1.

After January 1, 1917, the memorial loan fund, subscribed by the 1916 graduating class of the University of Oregon will be open for use. The fund was subscribed by the students in memory of Owen Whallon, a member of the class of 1916, who was drowned in the Willamette river shortly before the time of his graduation.

According to the terms governing the fund no loans are to be made before January 1, 1917, nor for more than \$50. Loans will only be made to students of at least sophomore standing and for not longer than ninety days.

The fund will be turned over to the benefit of the woman's building on or before January 1, 1919.

The fund was formed by the subscription of six dollar by each member of the class of 1916 together with the balance left in the class treasury, about \$300. The individual payments are to be made in three annual installments, making the fund, when all paid in, amount to about \$1000.

The fund is in the custody of L. H. Johnson, comptroller of the currency for the University. The executive committee, which was selected from the class of 1916, are, Cloyd Dawson, Lamar Toozie, and Merlin Batley.

WILL ELECT SOPH MEMBER

Representative of Second Year Class to Be Chosen Tomorrow

Election of sophomore student council representative will take place tomorrow. All candidates give their names to any student council member.

NEW HIGH SCHOOL STARTS COURSE TAKES SIX YEARS ONLY 13 SIMILAR SCHOOLS

Another distinctive feature was added to the University yesterday when the six-year high school classes met for the first time under the direction of Prof. Fred L. Stetson, of the school of education. Only the first half of the course is being given at the present time but the remainder will be opened for enrollment soon.

At yesterday's classes 85 students of the seventh, eighth and ninth grades of the Eugene grammar schools met in the Patterson school with Professor R. W. Broecker and Albert N. French. Within two weeks it is said the new school of education will be occupied and the classes will be moved to that building.

That the university is entering upon a novel work is shown by the fact that in the United States there are but 13 other schools of a similar nature. Of these one is at the University of California and another is at the University of Wyoming. Washington is contemplating installing one of the same type.

The course of instruction is similar to the work usually given during the last two years of grammar school classes except for the fact that it is divided into departmental groups and the transition from grammar grade to high school grade is made at slightly earlier date.

BUILDINGS DELAYED

Educational Hall and Girls' Gym Soon Ready.

New Structures Held Up by Rains and Tardy Delivery of Material.

Due to rains and delay in delivery of materials the new educational building and the annex to the girls' gym, now under construction, are not completed but will be ready for occupation in a few days.

The educational building at Kincaid and 13th streets is finished except for the final coats of plaster on the upper floors and the installation of furniture. The lower floor, which will house the junior high school students and teachers' training offices, will be occupied about September 25, according to Ormand Bean, Eugene representative for Lawrence and Holford, architects of Portland.

The second story, which will house the assembly room and the teachers' library and the third floor which will be used for the law school rooms and library, and extension department will not be ready until October 1.

The wet weather this summer and a delay in the delivery of the terra cotta has held the building work back a couple of weeks. Mr. Bean said last night that he expected an extension of 25 days. The work began on April 12, 1916. The structure on 13th street is 79 feet long, on the east side, 58; on Kincaid 88½; and on the north wing, 50.

The south annex to the girls' gym which is to be used as a dancing pavilion and drill floor will be ready within two weeks, according to Curtis Gardiner, contractor. Mr. Gardiner has a crew of 12 men working on the structure at the present time. The floor of this annex measures 48x50 feet and is free from pillars and obstacles.

The extension building, which had to be moved a few yards to the south to make room for the girls' structure is now standing on stilts, but will be lowered in a few days.

FRIENDS PAY TRIBUTE

The president of the University, dean of the college of liberal arts and dean of the school of journalism, accompanied by several members of his college fraternity, left yesterday for Salem to attend the funeral of Leland A. Hendricks, alumnus of the institution who was drowned at that place Friday. The college, at least those who knew "Lee," went with them in spirit, and their concern was a last tribute of the University he served to her brilliant son.

Those who made the trip were: President P. L. Campbell, Dean John Straub, Dean E. W. Allen, Wallace Eakin, Earl Bronaugh, Neal Kendall, Jack Elliot, Glen Shockley, Lyle Bartholomew, Kenneth Moores.

Hugo L. Bezdek Becomes New Head of Physical Training Department

Change of Policy Rules That All New Students Must in the Future Undergo Minute Examination for Physical Defects Which Will Be Remedied as Far as Possible.

A change in the physical training department for men that has been known for some time was officially announced by President Campbell this week. Hugo L. Bezdek becomes the new head of the department.

The change, as President Campbell announced, was the result of a change of policy of the University in the department whereby all men students will undergo minute physical attention to remedy all defects and prepare them in a better way for their mental work in this University.

To secure a person to fit with this new change of policy it was necessary to secure a person with a doctor of medicine degree. The fact that Mr. Bezdek is completing his work for such a degree qualified him for the position, and resulted in his election by the board of regents at the meeting held last June.

Mr. Bezdek, more familiarly known as "Coach" succeeds "Coach Bill" Hayward. However "Bill" will be intimately associated with Coach "Bez" and the two will work out the gradual changes to be made in the department.

The corrective system in the men's physical training department is to be followed out to a greater extent this year than in previous years according to Bill Hayward. Measurements are to be taken of the freshman who turns out for athletics a chart made and his physical development noted during his college career. A system of this kind has been followed out to a certain extent in other years, but it is the intention of the directors of the physical training department to follow it out to the letter this year. When a man is measured his physical deficiencies are noted and corrective exercises given to correct these defects.

When asked about the outlook for a track team this year Bill Hayward smiled in a sly way.

"It looks like it is going to be a great year," he said. "But I'll have to get some good men to fill the places left vacant by Chet Fee, Kent Wilson, Bert Peacock and Ray Staub. I'll have to depend on Bill Blackaby and George Gates to fill Fee's shoes at the pole vault and some more good men for his other events, and while I know I won't find one man who can take his place in all the events I feel sure that I can find three or four who can do it."

The varsity men, all those who are eligible to enter conference meets, are to meet at 4 o'clock on Monday in the gymnasium.

The freshmen are to meet at four

COACH "BEZ" AND HIS SMILE.

Coach Hugo Bezdek.

o'clock on Tuesday at which the possibilities for meets with some of the smaller colleges and with the O. A. C. Rooks will be discussed. "I intend to pull off some group meets, interclass meets and novice meets sometimes about the middle of October if the weather permits," says Bill.

There are some good men entering the University this year, Mulkey from Monmouth a broad jumper, Hodson from North Bend a sprinter and broad jumper. Then there is Boylen, Tom Boylen's brother who has had some experience on the track, Minnis from Pendleton, Foster from John Day and a number of other men who I haven't got a line on as yet.

California Critics Anticipate Bad Defeat

That the thinking University of California student rather envies the University of Oregon; and that California critics expect Bezdek's men to defeat them in football this year, is the report that Colin V. Dymont, instructor in the department of journalism, brings from Berkeley, where he and Leon M. Flint, acting head of the school of journalism at the University of Kansas, conducted two courses in newspaper work during the summer school.

They envy Oregon for three things, says Mr. Dymont. First, they feel that they can't quite duplicate that Oregon spirit, about which they have heard so much. Secondly, there is not that personal contact between faculty members and students. Deans, professors, doctors, and instructors seem to stand more away and apart from the mass of students. And thirdly, they envy the independence of the student newspaper at Oregon. The "Daily Californian," as if under a censorship, does not get all the news.

And folks around Berkeley do have a great deal of respect for northwest football. They are anxiously waiting the coming of the Oregon team and are wondering what showing they will be able to make.

"Do I like the University of California? Well it's a mighty big place," says Mr. Dymont. "There were 3974 attending the summer session, and the faculty numbered 241. As at Oregon, the attendants at summer school are in deadly earnest about their work. On the whole, they do work and study harder than is done here. In the regular session I know they work harder."

HE HAILS FROM ILLICOS SUR HIS HOME TOWN IS LOPOG HE IS NOW AN OREGONITE

Eulogio A. Gorospe is his name and he comes from Lopog, Illicos Sur. But don't be frightened, reader. Illicos Sur is merely the name of one of the Philippine Islands, and Lopog that of a town on the mentioned island.

Mr. Gorospe is a native of the Philippines who has just come to the University of Oregon to learn all he can about architecture. After he has assimilated all that Mr. Lawrence and his staff can teach him he intends to go back to the Philippines and there become an architect.

Mr. Gorospe likes Oregon—he says so himself. He says he likes the campus, the way the fellows treat him, his professors, in fact, everything about the University, even the girls. There is only one thing which does not seem to please him and that is the size and color of the emerald hued headgear which the boys informed him he must wear.

It seems that Mr. Gorospe met an old Oregon graduate at the late San Francisco exposition a few months ago and was persuaded by him that the University of Oregon is the best in the world. Result—Mr. Gorospe is now with us.

WRESTLING LOOKS BAD

Bert Breeding Only Varsity Man to Return.

Coach Shockley Promises Several Trips for Team for This Year.

With Captain "Rudy" Rutherford not back as yet; "Stub" Prestle registered in the University of California; Dal King and Gordon Clark not coming back; and with "Beebe" Breeding, the only varsity wrestler returned, the prospects for this year's wrestling team would not seem very promising.

Still, there are some promising freshmen out last year, Harold Grey, Charles Dundore, both 135 pound men, Joe Skelton, 158; "Bas" Williams, 175; Henry Procter; "Shorty" Phillips, 180, though he probably will not wrestle at this weight in conference meets. All of these men bid well to make this varsity this year, and to make it a strong aggregation, when coach "Ed" Shockley gets through pounding them into shape.

The team will go to O. A. C., and probably Washington or W. S. C. this year, one of the two later meeting Oregon on the campus. If it can be arranged, Oregon will meet either California or Stanford.

Because of the promise of these trips Coach Shockley expects a big bunch of husky freshman wrestlers out this year.

SCHOOL OF MUSIC GROWS

Flute Instruction and Instrumental by Mr. Badollet and Mr. T. H. Annette.

The University school of music is opening on one of its most prosperous years, according to Dr. Landsbury, who states that more students have enrolled in this department than in any previous year; not only in the theory classes but also as musical pupils.

Mr. Badollet, who was granted a year's leave of absence last year, has returned and started his classes in flute instruction. Mr. Badollet is conceded to be one of the three greatest flute players in the United States. Most of his time previous to his coming to the University had been spent in concert work, orchestra, etc.

Mr. T. H. Annette has been secured as instructor in instrumental to take the place of Miss Halkins, who has been given a year's leave of absence by the University. Mr. Annette comes to the University from the Northwestern University. Mr. Annette comes to the University. He has spent several years doing concert and chautauqua work.

The conservatory has been greatly changed this past summer; new practice rooms have been arranged for, and an office for Miss Davis, the secretary. If the growth of this department increases as rapidly another year, many more changes will have to be made next summer.

TRAINING STARTED IN REAL EARNEST

Bezdek's Crew Now Getting Stiff Pre-Season Workouts; Bucking Machine Appears

FINE WEATHER DELAYS NIGHTLY SCRIMMAGES

Hopes Are That Old Back-Field Star Parsons Will Return to College.

Jimmy Sheehy Hugo Bezdek is out-dobbing dobie in strenuousness of pre-season football training.

Bez is a staunch advocate of preparedness. He believes in it, insists on it, and he both practices and preaches his doctrine.

Oregon teams in the past have been keyed to the minute. This year's varsity promises to be no exception to those of former years.

As the days progress Bezdek adds new rations in increased quantities to his already carefully prepared menu. Light signal drill, in addition to sprinting practice hogged the lion's share of attention during the early part of last week. Then the bucking machine made its appearance, the infernal engine that line-men have learned to love. With Bez seated on the crossbar, occupying the role of "syrallisis," Tegart, Bartlett, Spellman, Risley Snider, Beckett, and Mitchell furnished the necessary power to engineer the rickshaw over Kincaid's surface. Last night's "piece de resistance" amounted to a turn around at the tackling dummy.

There is an unnamy secrecy as to the Coach's nightly one hour sessions staked behind the grandstand. Stygian darkness enshrouds the "Sanctum sanctorum" in which no mortal is allowed, save those garbed in gridiron togs. Suffice it to say that Coach Bezdek, chalk in hand, is teaching and the varsity is learning the finer points of the game.

Old dame rumor is again on her annual rampage. This time the old girl has it that Johnny Parsons, captain and half-back of the 1914 eleven, is on the verge of returning to school to complete his college course. Nothing would please Bezdek or the Oregon fans more than the arrival of the popular Johnny. Always a star under the former quarterback system, speculation has run riot among the railhens what he would do behind the four and five man interference combination. It is safe to say that Parsons in a lemon-yellow suit would mean a 10 point rise in Oregon's football stock.

With the continuance of the "back to the swimmin' hole" weather little real football can be indulged in. As soon as the heavens soften the sodded turf, the head guards and shoulder pads will usher in the nightly scrimmage melees with the freshmen. Then it is that Bill Hayward and chief masseur, Glen Macy, will be bruised driving "pest"—"Charles W. Horse" from the boy's muscles, and the two Bills—Snyder and Tuerck, will bid a "Patti" farewell to "La Marquise" and "Miss Fatima."

Y. M. ANNOUNCES FEATURES

Bible Study Campaign to Be Launched Wednesday—Dr. Mason to Speak.

The all University Bible study campaign and "Church Night" are two new features in Y. M. C. A. activities which were announced by Secretary J. D. Foster yesterday.

Dr. H. C. Mason, pastor of the University of Washington Congregational church, Seattle, is the speaker for the Wednesday meeting. Dr. Mason is a big man in his work and an interesting speaker according to Secretary Foster of the Y. M. C. A. In Dr. Mason's own words he is a "plain feller who knows more than he ever tells." The purpose of the meeting is to enlighten men and women in the school in Bible study class. Dr. Geo. Reber, head of the department of Philosophy, will be another speaker of interest. He will speak on "The Value of Bible Study."

At the various churches of the city on Friday evening the students will be entertained. "Each student will receive a personal invitation but none should stay away if he doesn't receive one," said Mr. Foster yesterday. "Everybody is invited."
