MITCHELL IS AUDITOR

Was Varsity Distance Runner While at Oregon in 1907.

Is Now Traveling for State Industrial Accident Commission of Oregon.

Walter F. Mitchell, '07, one-time varsity distance runner, has for the past two years been engaged as traveling auditor for the state industrial accident commission. His duties are to visit the employers who are subject to the Workmen's Compensation act, audit their payrolls and explain the intricate workings of this new and important legislation.

The position of traveling auditor for the commission is of special importance in this state owing to the fact that considerable antagonism exists between the state fund and some of the casualty insurance companies. The traveling auditor is the official exponent of the state fund to the employers throughout the state.

Mr. Mitchell is an earnest advocate of state insurance in workmen's compensation. He believes that the compensation act is not only applicable to the so-called industrial occupations to which it is now confined but that it is also well adapted to the large eastern Oregon wheat ranches which lie in his territory. He says that the hazards of farming are fully equal to those of many classes of mills and factories. To bring a share of these farms under the act has been one of Mr. Mitchell's chief endeavors.

"U" WOMAN HONORED

Esther Carson Secretary Pro Tem for Gov. Withycombe.

Fills Chair Left Vacant When Oregon Troops Leave for Border.

To shoulder the responsibilities of the office of private secretary to Oregon's chief executive has fallen to the lot of Esther Carson, ex-'14, during the past summer. When the Third Oregon Infantry was hurried to the border in June, George Palmer Putman, the secretary of Governor Withycombe, marched away in the ranks. Miss Carson, who is a member of the Oregon bar, and who has had considerable experience in the Governor's office, was immediately chosen to fill the vacancy. She continued to act in this position until the return of the troops from the Mexican border during the present month.

The growth of business in the executive office has made it impossible for the governor to give personal attention to all of the matters that are presented. Accordingly many affairs are left to the discretion of the secretary, who has become one of the more important of the state officers, and to hold this position is no ordinary honor.

Miss Carson states that of the subjects which have been presented for the consideration of the governor's office this summer, probably the most notable are the requests made by parents and relatives on behalf of militiamen for exemption from military service.

GLEE CLUB MATERIAL GOOD

Director Lyman Says New Men 100 per Cent Better Than Last Year.

"Glee club material among the men of the University is 100 per cent better this year than it was last year," says Prof. Lyman, director of the club. "It is so good in fact that a few who were in the club last year may be replaced by some of the new people who have tried out."

Approximately fifteen new members will be taken in. This number almost equals last year's record. Some of the old members have gone out for athletics and have dropped their work with the club. William Vawter who was with the club two years ago has returned and will probably do solo work this year. Ray Stanton, another veteran, is also back. There is a vacancy among the soloists left by Albert Gillette who is not in college this semester.

Tryouts for places on the women's glee club are still in progress. Here, too, according to Prof. Lyman, the material is exceptionally fine and eliminations will be difficult to make. Membership will probably be announced some time this week.

NOTICE.

Owing to a delay in the sending out of the last alumni edition of the Emerald many of the alumni have not had an opportunity to fill out the ballot printed in that issue and mail it into the secretary.

This should be done as soon as possible. However on account of the delay any ballots arriving within a reasonable time will be counted even if they should not be received until after October 1.

NOTICE

University players meeting at Gamma Phi Beta house at seven o'clock Thursday evening, September 28th. Be on time, to permit adjournment before Tagore lecture.
