

# NO MONTANA-OREGON DEBATE THIS YEAR

### Forensic Council Seeks Contract With O. A. C. and Reed College.

### Only Three Old Debaters Back; Five More Are Needed. Tryouts Soon.

There will be no debate with the University of Montana this year. A triangular contract with Reed and O. A. C. will be sought in its place. This was the decision reached by the forensic council at their first meeting in registrar A. R. Tiffany's office Tuesday.

The last contract with Montana, a two year agreement, expired last March, so it was felt that now is the best time to limit all debates to the coast states. Mr. Tiffany explained that all the athletic contests would take place west of the Rockies and the Council agreed that this rule should also apply to debates. Oregon lost to Montana last year but was victorious in 1915, which leaves the score even.

As a substitute for the Montana debate the forensic manager, Walter Myers, was given authority to negotiate with Reed and O. A. C. for a state triangle. We have a dual contract with O. A. C. Last semester Reed made plans for a debate with Oregon but due to our heavy schedule the varsity did not see fit to include the Portland school. If a triangular contract is made the state contests will probably take place in January. The question will be of local importance.

Besides the state league there are the usual number of contests to take place in the coast league. Our affirmative team will meet Washington here, the negative meeting Stanford at Palo Alto. The date of the coast debates is the fourth Friday in March.

Last week manager Myers received a telegram from the University of Washington asking for a women's debate. The council will let this stand until after the try outs. If the girls making the team wish to meet the University of Washington, plans can be made accordingly.

The date of the try outs will be set-

tioned this week. To the sorrow of the varsity and the joy of all debate aspirants it is rumored that Nick Jauregui will not debate this year. This leaves only three old debaters, Walter Myers, Rosalind Bates, and Earl Fleischman. As there are to be different questions for the state and coast contests this means that five new members must be chosen at the try outs.

## Y. M. C. A. TO RAISE \$50

### Money Will Go to James K. Lyman, Former Secretary, Now in Asiatic Turkey.

Roy Hausler, chairman of the missionary committee of the campus Y. M. C. A. is starting a campaign to raise \$50 to aid in the support of James Kerr Lyman, a former secretary of the Y. M. C. A., who is at the present time doing missionary work in the war torn country around Marash, Asiatic Turkey.

Mr. Lyman is a graduate of Whitman College where he was prominent in north-west football circles. After his graduation from Whitman in 1907 he came to the University of Oregon where he was graduate secretary of the campus Y. M. C. A. In 1910 he resigned and entered Oberlin College and at the conclusion of his theological work at that school he went to Turkey as a missionary.

The missionary field of Mr. Lyman is in the very heart of the district which became infamous through the Armenian massacres. "It is the battle ground of the Russian and Turkish armies and is the spot where a missionary can perhaps do more real good than in any other place in Europe," stated Hausler, when interviewed.

"Other coast colleges support such men and spend far greater sums on them," continued Hausler, "and it should be a easy matter to secure the necessary fifty dollars here where there are 900 students."

## WILSON CLUB ORGANIZES

### Forty Students Meet Tuesday; Stanley Eaton Elected President.

Student supporters of President Wilson organized a Wilson club Tuesday evening. Stanley Eaton, of Union, was elected president; Lilly Miller, of Pioneer, vice-president; Cleveland Simkins, of Salem, secretary; and Ethel Waite, of Sutherlin, treasurer.

G. Y. Harry, state organizer of the Wilson league, and L. M. Travis, chairman of the Lane County Democratic association, spoke at the meeting.

It is planned to have meetings every Wednesday evening. The speaker for October 18, will be either President Foster of Reed College, or C. E. S. Wood, a Portland lawyer. Forty students were present at the meeting.

## BOND TO TRAIN IN EAST

### Will Go to Fortress Monroe to Prepare for Coast Artillery Officership.

Paul G. Bond, graduate student of the university, tennis player, and captain of second company Oregon National Guards, intends to leave soon for Fortress Monroe, Virginia, where he will spend a year training for a coast artillery officership. In his student days Mr. Bond was active in University enterprises, especially varsity tennis. Since graduating he has continued study here, and besides, has given much time to the local organization of National Guards.

Mr. Bond will receive the pay of a regular officer at the front. The salary is about \$200 a month with traveling expenses, which amount to nearly \$3,000 yearly.

Phi Delta Theta announces the pledging of Murl Morganson of Portland.

## NEW PIANO FOR SCHOOL.

The University school of music has secured two new pianos which will arrive in a few days. One will be used as a practice piano, the other is a fine Steinway Grand which will be placed either in Dean Ralph Lyman's studio or in the concert room of the music building.

## Y. W. MAKES PLANS

### Series of Services to Be Held in February.

### Seventeen Members Chosen on Committee in Charge of Meetings.

Extensive plans for an active year were laid by the meetings committee of the University Y. M. C. A. at its last session. It is the intention of the committee to make the vesper services, which will be held on the second Sunday of each month, as interesting and morally and intellectually uplifting as possible. The Y. W. C. A. and music department will co-operate in making the vesper services a success.

Aside from the monthly vesper meetings a series of special services will be held in February at which time Mr. J. D. Adams, a lecturer to college audiences, will speak four or five days consecutively. His topics will deal with various intricate phases of college social life. He will lecture on sex questions and on the need of the upliftment of manhood and womanhood through the exaltation of social environment in colleges and universities.

Major W. S. Gilbert, Chaplain of the Oregon National Guard at Astoria, has been secured as the principle speaker for November 13. Dr. Boyd of Portland and Bishop Matt S. Hughes will come during the year if the plans of the meetings committee are realized.

Members of the student committee in charge of meetings were selected from each class and several fraternal organizations popular on the campus. They are: Randall Scott, chairman, Dennis Brown, Milton Wilson, Morris Bocoock, Clifford Sevits, Henry Thorsett, Professor Ralph H. Lyman, of the music department, M. H. Douglas, library, Wendell S. Bartholomeu, Paul Spangler, Wilford Jenkins, John Dolph, Leo Cossman, Lawrence H. Ahner, Dwight Wilson, and Wayne Wells.

## WILL SHOW BOOK CURIO

### First Book Printed With Movable Type May Be Shown in Exhibit.

The first book ever printed with movable type will be one of the curiosities in the graphic arts exhibit, showing the steps in the development of modern printing, which Allen H. Eaton, director of exhibits at the University, hopes to be able to display here in the near future. The exhibit was collected by Henry Lewis Bullen, librarian of the American Type-foundry company and was first shown in New York at the Thirteenth Annual Convention of the Typothetae and Franklin Clubs of America.

In order to see the exhibit there, Mr. Eaton traveled from Buffalo to New York. But he states that it was well worth the trouble and says that if the school of journalism and the general public will support the movement, the American Institute of Graphic Arts, under whose direction the exhibit is sent out, may send the collection to Eugene.

The exhibit shows samples of the various forms of printing and writing from earliest times down to the present. Some of the most important pieces are as follows:

Document with Archaic writing cut in stone, 5000 B. C.  
Earliest Method of printing by im-

pression; a king's name impressed in clay with an engraved wood stamp, 3000 B. C.

A book written on palm leaves.  
Papyrus plant from Botanic Gardens of Cairo.

Engraving on copper.  
Book of Hours, 1511, printed on Velum.

First book printed with moveable metal Types, about 1450.  
Chained book and specimen of binding, 1480.

First italic types, 1501.  
The first book printed in America: at Cambridge in 1682; Samuel Green, printer.

Franklin's first book.  
Also a display of modern books, booklets, cards, etc.
