**ADVISORY BODY PROPOSED**  
Its Personnel Would Be Three Deans, Three Professors, Pres. Campbell.  
Special faculty meeting has been called for next Thursday to discuss plans for a proposed faculty advisory council. The plans are to be presented by Dr. Barnett, Dr. Rebec, Dr. R. C. Clark, Allen Eaton and Prof. Eric W. Allen, members of a committee appointed by the colloquium last March.  
The advisory council is to be composed of three deans and three members of the faculty not deans with the president of the University as ex-officio chairman. Meetings of the new council are to be held at least once a month to consult with the president of faculty matters.  
The advisory council plan is following a popular movement among universities to give more influence to faculty members below the rank of dean. The proposed council will be elected by the votes of assistant professors as well as by the members of the legal faculty.

**Y. M. IS INCREASING**  
Membership So Far Almost Equal to That of Last Year.  
**Martin Nelson Gives Seven Reasons Why Organization Should Be Supported.**

The University Y. M. C. A. has a membership of 150 at the present time, declared Martin Nelson, chairman of the membership committee. This is only ten less than the number for the entire year of 1915-16, so Mr. Nelson has hopes of making a new membership record this year.

A campaign for members will be conducted throughout the year, and Mr. Nelson gives the following reasons why the men on the campus should support this organization:

1. It is an institution of permanency.
2. The great benefits, which are derived from the Y. M. C. A. employment bureau are known to all; it is getting odd jobs for a large number of the students.
3. A membership card of the University Y. M. C. A., which costs only \$1.00 for a year, entitles the holder to all the privileges of the city Y. M. C. A.'s throughout the state. Mr. Nelson cited one instance where a student had the use of a Y. M. C. A. swimming tank all summer because of his University membership.
4. Oregon has a reputation for large membership in University Y. M. C. A.'s which should be kept up. We do not want other state universities to get ahead of us in this respect.
5. The Bible classes which are conducted by the Y. M. C. A. are another benefit to be derived from a membership in the organization.
6. From time to time during the school year the Y. M. C. A. brings prominent men here to speak to the men of the University on various topics of interest to men, such as personal hygiene. Naturally, money is needed to do this work, and the more it has the more efficient the organization can become.
7. The Y. M. C. A. is also a factor in the social life of the University, as it gives various parties during the year, such as the stag mix which was held last month.

This campaign is not to be carried on with a big noise, but consistently and all the time, said Mr. Nelson, who thinks that better results can be obtained from these methods.

**NO LANGUAGE CHANGES**  
Requirements for Graduation Are Not Altered by Faculty Committee.

A misunderstanding has prevailed among the students in regard to the proposed revision of the language requirements for graduation according to Karl Onthank, secretary to President Campbell.

Mr. Onthank says that because a committee of faculty was appointed known as the committee on language requirements, to look into the matter, the students supposed that a change was to be made.

The committee considered special cases only, those in which the students were advanced in age and had done most of the required work toward graduation many years ago when there were no language requirements and were now completing work for their degrees.

There has been no change in the language requirements for undergraduate students toward graduation. This requirement calls for twelve semester hours of foreign language work to be done the first two years.

**BOYNTON TO ADDRESS CLUB**  
"The Energy Equivalent of Light" is Subject; Officers to Be Elected.

A comparison between the lighting efficiency of fire-flies and manufactured substances will be made by E. H. Boynton, professor of the physics department, in his lecture on "The Energy Equivalent of Light" before the Science club tonight.

"The nearest approach we can make to the fire-fly," said Dr. Boynton, "are vacuum tubes which produce the greatest amount of light with the least waste." The lecture will be illustrated with twenty slides.

This is the first monthly meeting of the Science club this year and election of officers will be held. The meeting will be in Deady hall at 7:30.

**ENTER NEW HOME.**  
The departments of law, education and extension will move into the new education building the early part of next week. The building will be practically completed by that time and the change will be made.

What is to be done with the vacated rooms has not been decided as yet but the matter will be settled this week so there will be no confusion in the change.

**FRESHMAN BONFIRE NOV. 3**  
Will Be First Pre-Game Rally of Year. Large Fire Promised.

The freshman bonfire on the night of Friday, November 3, will furnish an opportunity for the accumulated "pep," "jaz" and "Oregon fight" of the students to expend itself in support of the team.

This will be the first strictly pre-game rally of the year. Freshmen are eagerly peering into various nooks and crannies in an effort to find something that may be used for the fire. Ned Fowler, chairman of the bonfire committee promises the "biggest fire yet." A huge framework of telephone poles will be built and the space between the poles will be filled with shingles, tar, boards, special imported wood slabs from Springfield, oil, and other combustibles known to the freshman bonfire architects.

"Only one more thing is needed," said Fowler, "and that is the support of every one in the class in both spirit and work."

**LANE COUNTY IS LEADER**  
498 Teachers Send in Reading Circle Papers; Multnomah Second.

According to a report made by the correspondence-study department on October 1, 44079 papers have been read in reading-circles work since last November. In compliance with state law, these papers must be submitted by Oregon teachers in order to secure a professional teacher's certificate. The subject matter is taken from books on educational subjects.

There are 5000 teachers in Oregon, and out of this number 600 have sent in papers based on two books. Lane county leads with 498 papers, Multnomah teachers turned in 400, and Polk 327.

The members of the extension department consider the number of papers a sign that Oregon teachers are anxious to improve their equipment, and are using this department of the University for that purpose.

**PRES. CAMPBELL TO SPEAK**  
On Program of Twenty-First Annual Meeting at Washington, D. C.

President P. L. Campbell will be on the program of the twenty-first annual meeting of the National Association of State Universities which is to be held November 13 and 14 at the new Willard hotel in Washington, D. C. President Campbell's address comes in the morning of November 14 and is scheduled as follows: "Can We Formulate the Ideals for Which State Universities Are Sponsors—Democracy?"
